You don't often get email from kirkbees@gmail.com. [Learn why this is important](#)

Hello

Unless all the other trees are 100 feet high (which they are not) this monopine is going to stand out and look horrible. No amount for fake pine needles is going to hide this. This is not something that should be placed in a residential area. T-Mobile/Assurance needs to find somewhere else

Yes this is NIMBY. This is very close to my property

Thanks for listening
