Exhibit D and Amended Exhibit D are replaced in their entirety with Amended Exhibit D-1, attached hereto and incorporated herein by reference. All references to Exhibit D and Amended Exhibit D throughout the Agreement are substituted with Amended Exhibit D-1.

ARTICLE I, Scope of Services, of the Agreement is amended in its entirety to read as follows:

ARTICLE I

Scope of Services: Consultant shall perform all professional and technical services, work, and tasks required to accomplish the objectives set forth herein, and shall provide and make available Consultant's own personnel, subconsultants, materials, equipment and services necessary to prepare a legally and technically adequate EIR which would be certified by the Board of Supervisors of the County of El Dorado. Services shall include, but are not limited to, those tasks identified in Exhibit A, marked "The Village of Marble Valley Specific Plan EIR Scope of Work," Exhibit A-1, marked "Additional Scope of Services," Exhibit A-2, marked "Additional Scope of Services," and Exhibit A-3, marked "Additional Scope of Services," all incorporated herein and made by reference a part hereof.

County's Contract Administrator will issue Consultant written Notices to Proceed for all of the Tasks listed in Exhibit A, Exhibit A-1, Exhibit A-2, and Exhibit A-3 herein, not including Optional Tasks, and Consultant shall not commence any work until receiving each Notice to Proceed.

In addition to the specific services identified in Exhibit A, Exhibit A-1, Exhibit A-2, and Exhibit A-3, this Agreement may also include Project Contingency work. Such Project Contingency work may supplement, expand or otherwise modify the Scope of Services or may include, but not be limited to, tasks that are deemed critical by County's Contract Administrator to the furtherance of the Project.

Before proceeding with any work for Project Contingency, under this Agreement, the specific services for each assignment shall be determined at meeting or telephone conference between Consultant and County's Contract Administrator, or designee, to discuss the applicable standards, required deliverables, specific Consultant staff or subconsultant to be used, and any task-related mileage budget, if applicable, on a task-by-task basis. Within an agreed timeframe as determined by County's Contract Administrator following the meeting or telephone conference, Consultant shall provide County's Contract Administrator with a written scope of work, target completion date, and a not-to-exceed cost itemization to complete the work for the Project Contingency task, which shall require written authorization and notification to proceed (may consist of an email) from County's Contract Administrator, prior to the commencement of work. No payment will be made for any Project Contingency task performed prior to written authorization and notification to proceed, and no payment will be made for amounts in excess of the not-to-exceed amount of the authorization.

Exhibit A, Exhibit A-1, Exhibit A-2 and Exhibit A-3, hereto, outline the scope of Consultant's and subconsultant's responsibilities. All of the Tasks included in Exhibit A, Exhibit A-1, Exhibit A-2, and Exhibit A-3 are the responsibility of Consultant, unless specifically described as a task or item of work to be provided by County. Consultant shall be responsible for the supervision, administration and work performed by any subconsultant for services rendered under this Agreement.

ARTICLE II, Term, of the Agreement is amended in its entirety to read as follows:

ARTICLE II

Term: This Agreement shall become effective on November 13, 2012, and shall expire on November 12, 2020.

ARTICLE III, Compensation for Services, of the Agreement is amended in its entirety to read as follows:

Exhibit A-3

Additional Scope of Services

Village of Marble Valley Specific Plan EIR

In *Center for Biodiversity et al. v. California Department of Fish and Wildlife* (S217763) (hereinafter referred to as Newhall Ranch), the Court invalidated the Newhall Ranch Environmental Impact Report's (EIR) extensive greenhouse gas (GHG) analysis in part because the analysis incorrectly used "business as usual" (BAU) as the threshold for analysis.

Similar to the Newhall Ranch EIR, the analysis conducted for the Village of Marble Valley Specific Plan (VMVSP) EIR utilized a BAU threshold to evaluate the significance of Project-level GHG emissions. The BAU threshold was based on the statewide AB 32 goals and was adopted by the Sacramento Air Quality Management District (SMAQMD) and recommended by the El Dorado County Air Quality Management District (EDCAQMD). Based on the holding in the Newhall Ranch decision, the GHG impact analysis for 2020 shall be revised. Specifically, the analysis shall utilize a combination of a bright-line threshold and efficiency threshold per service population to determine the significance of 2020 GHG impacts. The VMVSP EIR shall also include a post-2020 analysis consistent with the mention in Newhall Ranch. Analyzing emissions beyond 2020 will ensure the EIR is consistent with the recent legislative attention (proposed SB 32), Governor Brown's Executive Order (EO) B-30-15, and ongoing Scoping Plan update regarding post-2020 goals, as well as scientific evidence that additional GHG reductions are needed through 2050 to stabilize carbon dioxide concentrations.

Consultant shall perform the additional work outlined in this augmentation to the Scope of Services for the preparation of the VMVSP EIR. The specific Scope and Tasks are described in detail below.

Task 2.0 Project Management and Meetings

Consultant shall attend additional meetings and coordinate internal staff to address the revised analysis and incorporate it into the Administrative Draft EIR (ADEIR).

Under this Task:

- Consultant shall participate in two (2) additional conference calls with County to address GHG approach, review, and comments

Task 4.0 ADEIR/Revised GHG analysis

Consultant shall prepare a threshold discussion to provide substantial evidence to justify analysis and conclusions for 2020 and 2035.

For 2020, Consultant shall evaluate mass emission relative to the 1,100 metric ton bright-line threshold adopted by SMAQMD and recommended by EDCAQMD. It is anticipated that the Project will exceed this threshold. Consultant shall quantify reductions from specific plan polices and compare emissions to a modified efficiency threshold (i.e., service population¹)

¹ Service population is an efficiency-based measure to estimate the development potential of a general or area plan. Service population is determined by adding the number of residents to the number of jobs estimated for a given point in time.

based on the revised and updated² state land use inventory for 1990 and the latest population and employment forecasts for 2020. The analysis shall also discuss consistency with applicable regulations (e.g., Title 24, MTP/SCS). If emissions are below the efficiency threshold and the Project is consistent with applicable regulations, the document will reach a less than significant finding for 2020. If emissions are not below the efficiency threshold, the impact will be significant and unavoidable.

For 2035, Consultant shall analyze consistency of the VMVSP with post-2020 concepts from the 2014 AB 32 Scoping Plan Update, as well as with the continuation of other programs and policies designed to reduce GHG emissions. Emissions relative to the EO S-03-05³ and EO B-30-15⁴ goals may also be disclosed on an efficiency (i.e., service population) basis. The analysis shall note that while it is possible that Project emissions may not contribute considerably to a cumulatively significant impact once larger statewide strategies are identified in the next AB 32 Scoping Plan Update (expected in late 2016), it would be premature and speculative to make a definitive conclusion at this time and thus impacts will be considered significant and unavoidable.

Consultant shall submit an administrative draft GHG section to County for review and incorporate the consolidated comments of all County reviewers. This section shall be incorporated into the ADEIR for review.

Deliverables:

- Administrative Draft GHG section for County review (electronic plus one [1] copy)
- Second Administrative Draft GHG for review (electronic)
- Consultant shall prepare and deliver up to twenty-five (25) hard copies of the DEIR for County use and deliver CDs with executive summaries to the State Clearinghouse.

Project Contingency

Project Contingency provides for unanticipated services or costs necessary to successfully complete the Project. Consultant shall not undertake any services under Project Contingency without the express written authorization of County's Contract Administrator.

² The emissions inventory shall be updated to remove emission sources that do not occur within the plan area, which will help address the Court's concern that the threshold used by the Newhall Ranch EIR did not consider local geographic conditions.

³ EO S-03-05 identifies two future goals for statewide GHG emissions reductions: 1990 emissions levels by 2020 and 80% of 1990 emissions by 2050. The first of these goals is reflected in AB 32, but the Legislature never codified the second goal.

⁴ EO B-30-15 established a medium-term goal for 2030 of reducing GHG emissions by 40% below 1990 levels and requires the California Air Resource Board (ARB) to update its current AB 32 Scoping Plan to identify the measures to meet the 2030 target. The executive order supports EO S-03-05, described above, but is currently only binding on state agencies. However, there are current (2015) proposals (including Senate Bill [SB] 32) at the state legislature to adopt a legislative target for 2050 and to give ARB the authority to adopt interim and long-term binding GHG targets.
