Dear Board Members,

I just wanted to make sure your Board understands that reorganizations such as this create an additional work load for the Auditor-Controller's staff. It makes preparing required documents like the financial transactions report for the State Controller (SCO) more difficult, the cost plan for the SCO more difficult, preparing the budget book more difficult, and the agency wide financial statements more difficult.

It also makes it much more difficult for members of the public to attempt to follow along and review the budget book and understand county spending.
