RE: **Item 7- Resolution Revising Building Industry Advisory Committee- (Opposed)**

The Sacramento Regional Builders Exchange (SRBX) would like to retain its membership on the Building Industry Advisory Committee (BIAC). We understand the vital importance the BIAC has to our membership and would like to continue to participate as a voting member. Our organization acknowledges the non-participation in previous meetings, but is now dedicated to attending and more importantly participating whole heartedly on issues relating to El Dorado County builders.

I give your our word that we will be present at any and every BIAC meeting held in the future. SRBX hopes to continue as an active voting member of the BIAC for the long term and we hope you support us in our effort.
