Email Address			
Primary Residential Address		Residential City Coloma	Residential ZIP Code 95613
Daytime Telephone		Mobile Telephone (no value entered)	
Occupation/Title Project Development Manager		Employer Sacramento Municipal Utility District (SMUD)	
List all County boards, commissions or committees to which you are/were appointed. Please include dates of service. N/A			
Summary of qualifications I have been a part of the river community for the past 30+ years where I spent summers at raft camps with my mom as a river guide and this allowed me to train kayaking and compete (and win) at multiple world championships. I completed my Mechanical Engineer Degree at Chico State, and have been working in the renewable energy field since 2007. I am very familiar with local challenges and would like to have a say in keeping our area beautiful and safe for future generations. I am married with 2 young children attending our local school.			
Affiliations with professional and/or community groups American Whitewater; SMUD Career Ambassador program; Engineer-in-Training certified by Consumer Affairs; Qualified Stormwater Practitioner (QSP) & Certified Erosion, Sediment & Stormwater Inspector (CESSWI) by EnviroCert.			
Why do you seek appointment? I am seeking this appointment to have a voice in our community as it grows and develops. As a committee member, I want to make sure that the voice of a young growing family is heard to ensure our kids and visitors have the best opportunity to experience nature for years to come in a safe manner.			
Additional Information I have been able to travel the world exploring kayaking and seeing how other areas have been successful and unsuccessful on keeping their local communities healthy and beautiful. I would be honored to share this experience. I am currently a Project Development Manager for SMUD and have a strong understanding for the CEQA process and development in California. I have been a part of the renewable energy industry for the past 15 years completing over 50 different projects (needing a USE/CUP permit) across the nation (totaling 700+ MW).			
If known, indicate the member of the Board of Supervisors who will receive a copy of this application Lori Parlin
