## EXHIBIT E

### **Bid/Proposal Attachment regarding the Darfur Contracting Act of 2008**

Effective January 1, 2009, all Invitations for Bids (IFB) or Requests for Proposals (RFP) for goods or services must address the requirements of the Darfur Contracting Act of 2008 (Act). (Public Contract Code sections 10475, et seq.; Stats. 2008, Ch. 272). The Act was passed by the California Legislature and signed into law by the Governor to preclude State agencies generally from contracting with "scrutinized" companies that do business in the African nation of Sudan (of which the Darfur region is a part), for the reasons described in Public Contract Code section 10475.

A scrutinized company is a company doing business in Sudan as defined in Public Contract Code section 10476. Scrutinized companies are ineligible to, and cannot, bid on or submit a proposal for a contract with a State agency for goods or services. (Public Contract Code section 10477(a)).

Therefore, Public Contract Code section 10478 (a) requires a company that currently has (or within the previous three years has had) business activities or other operations outside of the United States to certify that it is not a "scrutinized" company when it submits a bid or proposal to a State agency. (See # 1 on the sample Attachment).

A scrutinized company may still, however, submit a bid or proposal for a contract with a State agency for goods or services if the company first obtains permission from the Department of General Services (DGS) according to the criteria set forth in Public Contract Code section 10477(b). (See # 2 on the sample Attachment).

The following sample Attachment may be included in an IFB or RFP to satisfy the Act's certification requirements of bidders and proposers.

**Therefore, to be eligible to submit a bid or proposal, please complete only one of the following three paragraphs (via initials for Paragraph # 1 or Paragraph # 2, or via initials and certification for Paragraph # 3): YOUR BID OR PROPOSAL WILL BE DISQUALIFIED UNLESS YOUR BID OR PROPOSAL INCLUDES THIS FORM WITH EITHER PARAGRAPH #1 OR #2 INITIALED OR PARAGRAPH #3 INITIALED AND CERTIFIED.**

7. **Clearly identify the top three safety issues related to your request in your jurisdiction.**

**DETERIORATION** - The boat we need to replace has been in our inventory since 1993 with over 3600 hours of hull use. In 2008, due to vandalism, the boat sank in approximately 30 feet of water and was repowered. Because our elevations vary from approx. 450 feet to over 6,000 feet, the current powerplant design cannot attain optimal performance at the various elevations. The motor's under performance has made towing operations more time consuming, and the boat unavailable for patrol operations. Also, the jet intake design is not reliable during the winter and early spring months due to ingestion of floating debris in the water. Once the jet becomes fouled, the boat is out of commission and requires a tow back to the dock for trailering and maintenance.

**NON-PERFORMANCE-** The boat has outdated electronics and navigation systems, and the equipment is no longer repairable because of the lack of parts and support. The boat is unable to perform nighttime operations due to a lack of a reliable radar system, any sort of night vision optics, and search lights. The current electrical system is not able to support emergency lights, radios and other critical electronics at idle engine speeds.

**EXCESSIVE MAINTENANCE/REPAIR COSTS** - *Maintenance costs for this boat has been over \$4700.00. The boat was out of service for peak patrol season and most of the year due to various maintenance problems. We cut staffing by two to three deputies, and were unable to meet the demands of patrolling the lakes. Due to the shortage of boats, the Sheriff's Office was forced to trailer boats to the various lakes. This created logistical problems with launching and recovering boats as well as increased fuel costs. Several trailers required new tires and hub work last season due to the increased mileage put on them. We delayed in responding to some incidents because we did not have available resources in place to meet demands, and had to depend on other agencies to fulfill our mission.*

**10 a. Describe exactly what you are requesting and how this equipment will help mitigate the boating safety issues you identified in Question 7.**

We are requesting a 21ft patrol boat in the amount of \$100,000 to resolve the issues with the current boat and accomplish a safe, cost effective, efficient operation of El Dorado County's boating safety and enforcement program:

1. Unsafe operation due to deteriorated condition- This 27 year-old boat, with 3,600 hull miles, is unsafe for use in our jurisdiction's patrol, search and rescue, body recovery, and boating event missions. The boat is unable to perform nighttime operations due to a lack of a reliable radar system, any sort of night vision optics, and search lights. The current electrical system is not able to support emergency lights, radios and other critical electronics at idle engine speeds. The DGS is reluctant to approve the constant repair costs to keep this boat in operation. A new patrol boat will not have these issues associated with deterioration due to age and usage, and will be used in night time operations as needed.
2. Inoperability/lack of necessary equipment - This current boat cannot perform the functions that are required; and therefore, is not available for use for daily or emergency missions. The boat has outdated electronics and navigation systems, and the equipment is no longer repairable because of the lack of parts and support. A new patrol boat will have the necessary equipment and electronic and navigation systems that are so needed for our operations.
3. Excessive Maintenance and Repair Costs - It is too expensive to continue to maintain and use this boat. Repair costs for this boat alone has been over \$4,700 this past season. Fuel costs have increased by \$400 per month as we move other boats around the county to cover the areas that were covered by this boat, and has reduced the time we have to spend on patrolling the lakes. A new patrol boat is a fiscally prudent necessity for our jurisdiction.

**10 b. Describe any negative impacts to boating safety and/or boating enforcement if you do not get this grant.**

If we do not get this grant, our boating safety and enforcement program will suffer the following negative impacts:

- We will have a reduced inventory of boats to conduct our marine patrol operations.
- We will have an increase in repair and fuel costs as we attempt to continue to operate this boat, and will have to constantly trailer our remaining boats around our county to accomplish the increased demand for our services on our various waterways.
- Our level of service will drop significantly, and we will have to rely on other agencies to accomplish missions in our jurisdiction.
- We will be compromising the safety of our boat operators on an unsafe and unreliable vessel that should be surplus and removed from our fleet.

**10 c. Classify this request by choosing one of the following options and present a strong justification for the request.**

**Classify this request by choosing one of the following options.**

- "Critical" (operations would cease without it)
- "Increased efficiency" (if it would save staff time, identify how much time) [100 hours]
- "Convenience" (it would make life a little easier)
- "Protection" of existing equipment (ex: shade structure, hoists to get the vessels out of the water, etc. to extend longevity)

Exhibit G - BOATING SAFETY AND ENFORCEMENT EQUIPMENT GRANTEE APPLICATION

Justification The boat we need to replace is currently non-operational, with expensive and frequent repairs needed to make it safe to continue its operation. Repair, and fuel costs to move other boats around for adequate coverage, averaged more than \$5,000 in the past season. The decrease in the number of operational boats in our inventory makes it extremely difficult to adequately patrol our waterways without this replacement. Other agencies have had to help out in our jurisdiction. The new boat request is to replace this boat for cost effective, safe and efficient operation of the County's boating program.

10 d. If you are not awarded your full request, would your agency be able to supplement the difference?  Yes  No

If yes, what percentage can you supplement? 20

**10 e. How and why did you select this particular vessel? Explain if this is a standard patrol boat or do you need something specialized for your waterbody to meet your agency's needs? List less expensive models considered and explain why they are not being requested.**

We selected this particular vessel because it is the least expensive model to meet our agency's needs. It is simple and robust, has a low operating cost, and will require minimal maintenance. This vessel is typical of most basic law enforcement patrol boats and has very little non-standard equipment. We require a rubber collar due to the rough conditions commonly seen on the alpine lakes we patrol. During these rough conditions, it is very difficult to make contacts with other boaters due to the high probability of boat to boat contact, which can significantly damage either boat and result in high repair costs, citizen complaints, and potential litigation. The rubberized collar protects both boats and makes boater contacts much safer.

**10 f. Patrol Boat - Informational**

10 f. What body(s) of water will this boat be used on? Ice House Reservoir, Union Valley Reservoir, Loon Lake, Sly Park Lake

10 g. How many hours per year will this equipment be used by your BS&E Unit for Boating Safety Enforcement? 700

Will it be used year-round or seasonally? Seasonally, as boating traffic is minimal in the winter. Explain. (limit this to 100 characters?).

10 h. Will this equipment be used for anything besides Recreational Boating Safety Enforcement (ie. Junior lifeguard, swimming rescues, enforcing commercial activities, etc.)?  Yes  No

If so, list activities and percentage of time vs. Recreational Boating Safety Enforcement

10 i. Upload boat/trailer specifications for review. [25634\\_0\\_560\\_Bid Spec 2020.docx](#)  
The Specification Guidelines are in the 'Show Documents' area. You cannot proceed without attaching specs.

10 j. Estimate the cost of the patrol boat and trailer 100,000

10 k. Attach two quotes. If you cannot provide a quote now, you must provide if you are awarded a grant.

Budget Summary for Boating Safety and Enforcement Equipment Grant - FY 2020 / 21  
 Agency: El Dorado County Sheriff's Office  
 Application: New Boat

	Category	Total	Req Amount	Narrative
1	Patrol Boat / Equipment	100,000.00	100,000.00	<p>The lifting of the quarantine order is expected to occur close to the beginning of the boating season, and with an improvement in the economy and the rising water levels at County lakes and rivers, we anticipate a marked increase in the number of boaters on our waterways. The season has become longer and the prediction is that this trend will continue.</p> <p>The current boat we use has jet propulsion which makes to impossible to navigate the South Fork of the American River without clogging or damaging the jet with large fields of debris where the river meets the lake. We would use this boat for most of our patrol of this particular body of water.</p> <p>Also the boat would serve as the primary rescue boat during the winter season because all other boats would be stored for the season. This boat would be smaller and easier to launch at a moment's notice.</p>
<b>TOTAL EXPENDITURES</b>		<b>100,000.00</b>	<b>100,000.00</b>
