Executive Summary Details

Building:	100 - Building A
Address:	330 Fair Lane Road, Placerville
Square Footage:	38,987
Number of Floors:	2
Year Built:	1976/1992 Addition
Occupants:	Board of Supervisors, Chief Administrative Office, County Counsel, Economic Development, Human Resources, 911, OES, Parks and Recreation, Risk
Replacement Cost:	\$11,270,000
Alternate Site Replacement Cost:	\$13,670,000
Deferred Maintenance:	\$4,088,424
Deferred Maintenance as % of Replacement Cost:	37.3%

Executive Summary Details

Staff Comments:

The Conditions Assessment Report (CAR) sights numerous building conditions requiring attention. Staff concurs with the report and has prioritized the repairs over 5 years. Priority will be given to the modernization of the Fire and Safety systems and ADA upgrades, followed by critical systems and structural concerns. The timing of certain improvements associated with Building A will be a function of the availability of temporary accommodations for displaced agencies during the process.

Executive Summary Details

Staff Recommendations:

While deferred maintenance as a percentage of replacement value is high, Staff feels an investment to preserve the asset is advisable. Building A serves as a valuable component of the government campus. The unique nature of the Building A use, location and operations would make obtaining a suitable replacement site problematic. The useful life of the asset could be extended significantly with proper planning and investment.

Executive Summary Details

2013/2014 Activities:

The list of actions proposed by the Facilities Division for FY 13/14 includes, but is not limited to, the following:

- 1) Solicit design proposals and initiate the design of the Building A/B Mechanical Renovation Project.
- 2) Solicit design proposals and initiate the design of the Building A Interior ADA upgrade project.
- 3) Begin construction for the Building A/B Generator Replacement Project.
- 4) Solicit design proposals and initiate the design of the Exterior Structural Retrofit project.
- 5) Begin various exterior ADA upgrades.
