Re: Special Use Permit S14-0009/AT&T Cell Tower Skyline Drive – parcel# 081-102-01

Dear El Dorado Planning Commission, Mr. Joe Prutch & Mr. Roger Trout,

I am appalled that the planning commission is still considering the addition of another cell tower in our neighborhood. How many letters and complaints from homeowners does it require to defeat this effort?

There is not one person or homeowner in this neighborhood who is in favor of this cell tower installation. Except of course, the homeowner who is being paid for the placement and installation of it. Evidence suggests that there are many possible health risks involved. Not to mention a loss of value to our homes! WE DO NOT WANT THIS!!!!

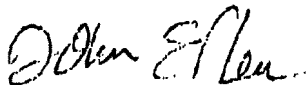

A residential backyard is an unacceptable location for a Cell Tower!
We have small children that play in this area.

I see many nearby empty hills and open spaces with no homes located on them. AT&T should not be allowed to install this cell tower at this location just because they find it convenient and will save money because of the ease of installation. The homeowners do not care about the needs of AT&T. We do however care about the health of our families, a safe and enjoyable living environment and to be able to maintain the value of our homes. We are just fine with our current cell reception. There is already a cell tower located on the adjacent lot. One is enough. What are your plans, to make this cell tower row? We do not want more frequency waves pointed to our homes, to our children and directly into our bedrooms. What must we do to get this message to you? More letters, more signatures. Please just let us all know.

Unfortunately, I cannot attend the meeting, as I am disabled. Please consider this letter as my proxy and or presence at the meeting.

We are the taxpayers and we demand that this Special Use Permit NOT be granted. I am confident that AT&T can find a safer non-residential location.

Respectfully,

John Ellen, Homeowner, Crystal Air Drive, South Lake Tahoe, CA
