I wanted to write my support for voting yes on item 33 and moving forward with both the temporary short term and long term navigation center plans. While this proposal may be more complicated than previous proposals, when looking at the long term plan it seems to make sense. I can see a lot of value in having the long term navigation center located adjacent to the psychiatric health facility and relocating the Juvenile Court, planned Juvenile Hall, and registrar of voters. The registrar of voters should face much less concern from the public over it's location than a navigation center. We are desperately in need of a navigation center with shelter on the western slope of El Dorado County. The public and environmental health, safety, and wildfire danger from the encampments that we currently have is extreme. You declared an emergency so let's respond to that emergency. It is starting to feel like our house is on fire and we are standing around watching it burn, because we cannot decide which hydrant to use. It's time to pick a hydrant and put out the fire before there is no house left to save. Please vote yes and allow a navigation center with shelter to move forward.

Thank You,
Nicole Gotberg
Placerville Resident, District III

To the entire BOS of our county:
Please move forward on a plan to create a Homeless Navigation Center in the vacated juvenile hall.
Thank you, Cece Walrond, Coloma CA
