Dear Planning Commissioners

I live at 1701 Saint Garth Way, which is right off of Big Canyon where this tower plans on being built. iThis would be a huge improvement to our community due to the lack of internet or use of cell phones in this area. I work from home and have struggled for 3 years with internet services for my job. When the power goes out we have no way to dial 911 if we have an emergency, as our landline phones do not work. We have an elderly person living with us and need these services so that we can get the quickest response here if needed. Please sincerely consider passing this use permit Frenchtown 2

Subject: Cell Tower French Creek Rd

To: <planning@edcgov.us>

I am a homeowner who would benefit greatly from the purposed cell tower. Living away from the busy city has many benefits but not having cell service is troubling. My elderly mother lives us and it is frightening with all the PG&E power shut offs rendering our land line useless to call for help. In addition to that, being unable to connect with family and friends during the pandemic makes isolation dreadful. Please allow the cell tower to be placed on French Creek Road at Big Canyon.

Good afternoon Planning commissioner! I am writing to you regarding the cell tower on French Creek Rd and Big Canyon. As an older resident with numerous medical conditions it is extremely important for me and my family to have access to 911 at all times. With all of the PG&E power shut offs I worry I will not be able to get the help I need. Please think about that when deciding on the cell tower out here. It could be life or death for me.
