CARSON CREEK SPECIFIC PLAN

Sections 4.5 – CC5K

4.5 Single Family (5,000 sq. ft. min)

1. Permitted Uses:

The following uses are allowed by right, without special use permit:

Primary Uses:

One single Family Detached dwellings per lot

Accessory Uses:

Renting of not more than one room

Home Occupations such as accountant, advisor, appraiser, architect, artist, attorney, author, broker dressmaker, draftsman, handicrafts, insurance photographer, therapist, musician, teacher and other similar occupations normally conducted by mail or telephone on the premises where the activities do not create a traffic problem; provided that instruction or consultation is not given to groups In excess of four and concerts or recitals are not held, and no display of goods is visible from the outside of the property, such use must not be carried on in the main building and be incidental to the residential use of the premises and be carried on by a resident of the main dwelling

In-home daycare, maximum 6 children

Non-commercial accessory uses and buildings, including such structures as a swimming pool, garage, or garden shed

Public utilities distribution lines

Public parks

Churches, temples, and other places of worship

Uses permitted with a special use permit. The following uses are permitted only after obtaining a special use permit from the Planning Commission:

Schools, non-commercial playgrounds

Public utilities buildings and structures other than distribution and transmission lines

Real estate office on or adjacent to properties for sale or fronting a road leading directly thereto, for the exclusive sale of the property

Home occupations not listed above as permitted by right or which require special consideration due to the proposed use of power tools or accessory buildings, or due to potential noise generation. Such home occupations shall not be approved unless the Planning Commission finds that the use will *not* change the residential character of the premises, and will not adversely affect the other uses permitted in a residential area

Public buildings and public utilities buildings of a type and nature deemed compatible with the purposes of this zone by the Planning Director

2. Site Development Standards

Minimum Lot Area: 5,000 square feet

Maximum Lot Coverage: 50% for single story
40% for double story

Minimum Lot Frontage: Forty five (45) feet at front setback line

Minimum Setbacks: Front yard: Sixteen (16) feet to garage.
Side yard: Five feet (5'). Corner lots shall have a minimum twelve and ½ feet (12.5) on street side.

Maximum Height: Thirty feet (3D') or 2 stories.

Required Parking: Two (2) spaces off street in a garage plus the equivalent of two (2) spaces on the driveway (tandem or side-by-side). If driveways are not provided, the developer must show that the equivalent of two (2) parking spaces per unit are available in guest parking areas or on the street. Recreational vehicles, boats, or commercial trucks shall not be parked or stored in driveway or in any exterior location on the lot.

**Table HO23
Zoning District Setbacks**

Zoning District	Front Setback	Side Setback	Rear Setback	Maximum Coverage	Maximum Height
One-family Residential (R1)	20 feet	5 feet ¹	15 feet	35 percent	40 feet
Limited Multi-family Residential (R2)	20 feet	5 feet	15 feet	50 percent	40 feet
Multi-family Residential (RM)	20 feet	5 feet	10 feet	50 percent	50 feet
Tourist Residential (RT)	20 feet	5 feet	10 feet	50 percent	50 feet
Residential Agricultural Twenty-acre (RA-20)	50 feet on all yards	50 feet on all yards	50 feet on all yards	None	45 feet

Note:
 1 Side yard will be increased one foot for each additional foot of building height in excess of twenty-five feet.
 Source: El Dorado County Zoning Ordinance (as amended through 2003).

Table HO24 lists the off-street parking requirements for different residential uses in the county. The County’s parking requirements are consistent with other communities and are not considered to unnecessarily burden affordable housing construction.

**Table HO24
Schedule of Off-Street Vehicle Parking Requirements**

Use	Minimum Off-Street Parking
Conventional single-family detached	2 spaces, not in tandem
Single-family with second unit	2 spaces, not in tandem plus 1 space for each additional unit
Single-family attached	2 spaces, not in tandem per unit
Apartments	
Studio/1 bedroom	1.6 spaces per unit
2 or more bedrooms	2 spaces per unit
Rooming house, boarding home, fraternity	1 space per bedroom
Mobile Home	1 space per mobile home space plus one visitor space for every 5 units.

Source: El Dorado County Zoning Ordinance (as amended through 2003).

Table HO25 outlines the extent of housing types allowed by zone district. Consistent with state law, El Dorado County is in the process of revising its Zoning Ordinance for consistency with the 2004 General Plan. Accordingly, the number and specifications of the current zone districts may change with the Zoning Ordinance update.

Hi Mel,

I stopped and spoke with you last Monday regarding the above and its Height Maximum of 30'. You indicated that there were other docs that over road that Height Maximum and you said you would send a copy of that document to me. I have not received it at this time. We also spoke about the 40' limit in the old Housing Element and 40' in the new Housing Element.

Also, you mentioned a fellow in the DOT by the name of Bane I believe. You thought he could help me with the design defect in the parking lot at the Community Center (Resort) in Heritage. I look forward to receiving his contact information.

Thank you for your help.

Cc: **Robert Peters** | robert.peters@edcgov.us, **Cynthia Freeland** | cynthia.freeland@edcgov.us

Hi Mel

It is very clear in the old Housing Element and the new Housing Element that 40' applies to all structures as there are no other noted standards for other items such as lights and flag poles. I must believe that in the Carson Creek Specific Plan 30' applies to all structures also, until I receive a document telling me otherwise. I assume EDC has no such document. The CSD has an agreement with Lennar but Lennar is the owner/developer of the park. If the CSD had asked Lennar to build a 50' gorilla I am sure Lennar would have declined as they should.

I look forward to receiving the document that allows the 50' lights. I might add the the "Illumination Engineering Society has standards also and I have asked them to send those standards to me.

PS: CJ I am sending this correspondence to you to try to get you up to speed on this issue.

Mel Pabalinas

Friday, Jul 23, 3:19 PM  

To: Steve Ferry Cc: Robert

Hi Steve-

I apologize for the delay as this week has been hectic. Based on my discussion with our deputy director, who was involved in coordinating this issue, our Zoning Ordinance does not have a specific height limitation on park light poles. And, as we discussed last week, the maximum height limitation in the Carson Creek Specific Plan (per the attachment) of 30 feet is for residential structures and **not the light poles**. Given that the light poles are proposed in the park, We've reached out to El Dorado Hills CSD, who would own and maintain the public Carson Creek park in question, to see what height standards they've applied as part of their Park Master Plan and whether the County has been involved in the review of these plans to ensure consistency in application of the standards. **We are waiting to hear back** and we'll circle back for any follow-up information.

Monday, Aug 2, 2:52 PM  

> [To: Mel Pabalinas](#)

Your previous email states "our Zoning Ordinance does not have a specific height limitation on the park light poles." I think the enclosed Associated Structures.pdf will challenge that statement.

This Code Section 130.24.030 - Residential Zone Development Standards states that a Variance can be obtained in compliance with Section 130.52.070 (Variance) in Article 5.....

I would like a copy of the Variance that allowed the 50" Height Limit. I will be making a presentation to the BOS on 8-10 about this and would really like to have that document in the file.

Thank you for your efforts....

Steve Ferry

 1 Attachment - [Save All](#)

Associated Structures.pdf
318.20 KB

Sec. 130.24.030 - Residential Zone Development Standards.

Allowed uses and associated structures shall comply with the following development standards in Table [130.24.030](#) below in this Section, in addition to any other applicable requirements of this Title, unless a variance is obtained in compliance with [Section 130.52.070](#) (Variance) in [Article 5](#) (Planning Permit Processing) of this Title, or standards are modified pursuant to a Development Plan permit in compliance with [Section 130.52.040](#) (Development Plan Permit) in [Article 5](#) (Planning Permit Processing) of this Title.

Development Attribute ²	RM ³	R1	R20K
Residential Density Range	See G.P. Policy 2.2.1.2 (MFR)	1 primary plus 2nd dwelling unit per lot	
Setbacks ¹ : (in feet)			
Front	20	20	30
Secondary Front	10	15	20
Side ^{4,5}	5	5	10
Rear	10	15	30
Agricultural Structure	—	50	50
Maximum Height (in feet)	50	40	40

Sec. 130.52.070 - Variance.

- A. Content. This Section describes the process for County consideration of requests to modify certain standards of this Title (Title 130, Zoning Ordinance) when, because of special circumstances applicable to the property, including location, shape, size, surroundings, topography, or other physical features, the strict application of the development standards for the zone denies the property owner rights enjoyed by other property owners in the vicinity and in the same zone.
- B. Applicability. A Variance may be granted to modify any development standards as set forth in this Title. A Variance may not be used to authorize a use or activity not otherwise allowed within the zone.
- C. Approving Authority and CEQA. The Zoning Administrator shall have the review authority of original jurisdiction for a Variance authorization. The approval of a Variance is a discretionary project pursuant to CEQA.
- D. Findings Required. A Variance shall be granted by the review authority only where all of the following circumstances are found to apply:
 1. There are special circumstances or exceptional characteristics or conditions relating to the land, building, or use referred to in the application, which circumstances or conditions do not apply generally to land, buildings, or uses in the vicinity and the same zone;
 2. The strict application of the zoning regulations as they apply to the subject property would deprive the subject property of the privileges enjoyed by other property in the vicinity and the same zone (California Government Code Section 65906);

3. A variance granted shall not constitute a grant of special privileges inconsistent with the limitations upon other properties in the vicinity and zone in which such property is situated (California Government Code Section 65906); and
 4. The granting of the Variance is compatible with the maps, objectives, policies, programs, and general land uses specified in the General Plan and any applicable specific plan, and not detrimental to the public health, safety, and welfare or injurious to the neighborhood.
- E. Conditions of Approval. In approving a Variance, the review authority may impose any conditions deemed reasonable and necessary to ensure that the approval will comply with the findings required in Subsection D (Findings Required) above in this Section.

Hi Steve-

I wanted to follow up on this email string regarding your inquiry about the regulation that regulates maximum height of light poles, which in this case involves the park located at Carson Crossing Road and the entrance into Unit 2 of the Heritage development. Outside of the Carson Creek Specific Plan, the only other regulations that I am able to find that may regulate lighting is the Outdoor Lighting section of the Community Design Standards (see link below). Specifically, Section 3.5.C (Outdoor Sports and Performance Facilities) of the document provides the requirements for the design of a lighting based on a lighting plan for the facility. The regulations doesn't specifically identify a maximum height, but defaults on a case by case basis details of the lighting plan.

<https://www.edcgov.us/Government/planning/Documents/Outdoor-Lighting-Standards-adopted-12-15-2015%20fillable.pdf>

Regarding your inquiry on the 50-foot tall lights, I am not aware of any document that allows for this height for lights.

CONCERNED RESIDENTS EL DORADO HILLS HERITAGE VILLAGE
A LENNAR HOMES 55+ COMMUNITY
HeritageCarsonCreek@gmail.com

July 5, 2021

Stuart Miller, Executive Chairman
Lennar Corporation
700 NW 107 Avenue
Miami, Florida 33172

Dear Mr. Miller and Members of the Board of Directors,

Attached are 400 letters from El Dorado Hills Heritage Village residents, a Lennar 55+ community. We seek your immediate intervention to reverse the Lennar Homes of California (Sacramento region) actions that negatively impact our Lennar 55+ community.

Lennar Homes of California and the El Dorado Hills Community Services District (EDHCSD) are completing the development of a *public* sports park complex in the center of our community that includes towering 50-foot stadium-style lights and acres of impervious concrete/asphalt. These "amenities" and extended operations into nighttime hours are contrary to original agreements between those two parties and inconsistent with the concept of a quiet and sleepy neighborhood park as disclosed to Heritage residents at the time of purchase.

Please immediately intervene on behalf of *your* El Dorado Hills Lennar family to halt the construction of this park pending issue resolution. The harmful effects of extended hours, traffic, theft, vagrancy, trespassing, and lighting/noise pollution threatens the health and safety of 55+ senior residents. Please note that Heritage residents pay significant special assessments for the park with no influence on the Lennar/EDHCSD design. We are also concerned about impacts on adjacent endangered species habitats. We believe Lennar Corporation has a responsibility to mitigate the harmful effects prior to the transfer of Parkland control to EDHCSD. Said action is aligned to your pledge that "at Lennar, we are committed to doing the right thing for the right reason."

The POSTSCRIPT section of this letter expands on the significant issues and concerns. We hope to partner with you on the Lennar core company values of "quality, value, and integrity" that the public park is developed in a manner to fit within the protected population and adjacent wildlife preserve. We invite you to join us here.

Respectfully submitted on behalf of 400+ Concerned Residents,

Rick & Sharon Burgardt(5045 Del Mar), Roberta Chisam(5066 Del Mar), George Steed(3027 Las Palmas), Corde & Alma Wagner(3507 Avelin), Sue Williams(6530 Primavera), Robert Williams(6512 Primavera)

CC: Rick Beckwitt, Steven Gerard, Theron Gillman, Sherrill Hudson, Jon Jaffe, Sidney Lapidus, Teri McClure, Armando Olvera, Jeffrey Sonnenfeld, Fred Rothman, Jeff McCall, Key Howard, Jeff Roos, Board of Supervisors El Dorado County-California, Board of Directors El Dorado Hills Community Services District]

POSTSCRIPT: SUMMARIZED ISSUES AND CONCERNS

ORIGINAL PARKLAND AGREEMENT AND INAPPROPRIATE LOCATION:

The Parkland Dedication Agreement (herein "agreement") was signed in 2015 between Lennar Homes of California and the El Dorado Hills Community Services District (EDHCSD) that allowed for the construction of homes and the dedication of 17.4 acres for open space and parks. The subject land included two private recreational facilities, a community garden and, a public park. Lennar would front-end the public park construction. The cost of all maintenance, repairs, and operational costs was off-loaded to future residents. In exchange, EDHCDS returned 6.0 acres to Lennar for homesites.

This agreement predates by several years the purchase of a single Lennar home. Future residents had no input. While a matter of public record, this agreement was not explicitly referenced in any promotional sales literature or closing documents. Prospective buyers were instructed to examine for themselves public archives from prior years as part of their purchase due diligence. This omission is not reasonable disclosure.

The Heritage Carson Creek Park (the "park") is located in the center of the otherwise gated Heritage Village Community. In contrast to the promised pristine neighborhood park, the facility is promoted by EDHCSD as a competitive sports complex for the general public. Lennar sales material promotes an inviting vision: *"Nestled behind gates in the breathtaking Sierra Nevada foothills, Heritage El Dorado Hills offers a new style of living for adults aged 55 and better. Picturesque homes and resort style comforts combine in complete harmony to create a beautiful backdrop, perfect for enjoying the best years of your life."* Unfortunately, the public park's location and proposed after hours competitive sports operation negate the Lennar vision.

Homes Located Adjacent to Public Park

As outlined in the following summaries, additional issues include safety, noise, traffic, lighting, special assessments, and infectious disease issues. Many residents purchased their Lennar 55+ community homes to avoid such problems. Unfortunately, local Lennar operatives who control our HOA Board of Directors have turned a blind eye and suppressed meaningful discussion at official meetings.

NOISE, PERSONAL SAFETY, TRAFFIC, VAGRANCY, INFECTIOUS DISEASE EXPOSURE, & OTHER IMPACTS

Safety and security are of the utmost importance to an active adult community. As a general rule, public attractions are not constructed adjacent to active adult gated communities. To date, the El Dorado Hills Community Services District refuses to acknowledge any difference between this uniquely positioned public park from its other 27 public parks in El Dorado Hills.

In addition to unauthorized personnel entering the community, the location of this park near the entrance could cause traffic hazards for the protected population when entering or exiting their community. More specifically, if

an unauthorized person wanted to get through the gates, they could sit within their vehicle in the parking lot until resident approaches and opens the gate and then follow them in or casually on foot follow a person through the walking gate. The risk could increase in the evening hours.

The design is additionally flawed by unsafely locating the public parking lot exits where residents drive to their homes. The Heritage residents, a protected population, regularly walk and bike across the roads adjacent to the park's entrance and utilize the walking/biking trail that surrounds the Heritage community. Lennar or EDHCSD has not analyzed hazards associated with increased public traffic. The potential risk of accidents resulting in death is accurate given the lack of traffic controls and multiple roadway blind spots.

The Heritage "Public" Park venue includes tennis courts, pickleball courts, bocce ball courts, public restrooms, drinking fountains, benches, parking lot, and other amenities with direct access to the walking and biking trail. Noise is a significant concern, especially for early morning and after-dark play. As one of the fastest growing sports in the country, pickleball is a source of noise that has resulted in complaints and other action. No effort has been made to dampen the noise levels near sensitive residential receptors, especially the Heritage homes located adjacent to the park.

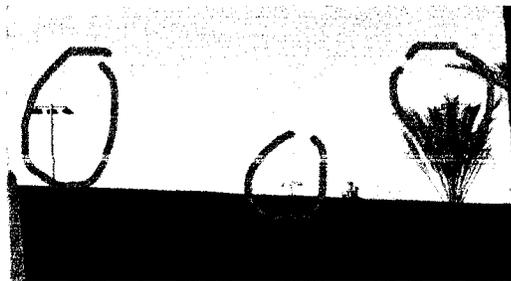

Many residents will likely use the park alongside an uncontrolled general population that, in many cases, will be younger. Given COVID-19 and other infectious disease mitigation efforts, the influx of the general public into a cluster of at-risk seniors, some that are immunocompromised or have significant underlying health conditions, concerns many within this community. The opportunity for a super-spread environment warrants a different level of review with, more than likely, considerably other health protocols than a typical public park.

UNEXPECTED AND UNNECESSARY MASSIVE STADIUM LIGHTS

A significant trigger point for residences was the previously unannounced installation of 50-foot stadium-style lights and the decision of EDHCSD to extend operating hours beyond dusk (a policy that violates its policy).

The surprise and protest of Heritage residents are documented in the leading regional newspaper, the Mountain Democrat: https://www.mtdemocrat.com/news/heritage-park-community-surprised-by-new-parks-illumination/attachment/heritagelights_web/. The scale of the lights are seen in the picture below. The lights tower over the Heritage community and can be seen for miles.

50' Tall Soccer and Baseball Field Stadium Type of Lighting at Public Park

Interestingly, the 2015 Parkland agreement between Lennar and EDHCSD stated that only two parking lot lights costing \$10,000 would be installed in the park. By contrast, Lennar has overseen the construction and installation of the massive 50-foot lights at the cost of \$400,000.

Again, it should be noted that all Heritage residents pay a significant Landscape and Lighting Assessment District annual fee for the repair and maintenance of the park and these unwanted and unnecessary lights. No other village park has lighted sports court lights. In fact, the EDHCSD Board formally voted for no lights at the Heritage Park during a May 2020 public meeting. They determined that it would operate dawn to dusk in a fashion consistent with the other neighborhood and village parks. Yet, Lennar ordered and supervised the purchase and installation of the stadium lights. In short, Heritage Village residents had no influence on the final design but still have responsibility to pay annual special assessments. EDHCSD has subsequently reversed itself and supports Lennar's stadium light installation. No explanation has been forthcoming.

Residents living closest to the park easily see the lights from their windows. The negative impact of the quality of life and property values could be substantial. Lennar has been directly involved in every aspect.

LENNAR MISREPRESENTATION AND NON-DISCLOSURE

The EDH Heritage Home Owners Association is controlled by Lennar Homes of California representatives, who are also directly involved in the public park's construction. Open and comprehensive dialogue has not been permitted. Efforts to address the lack of full disclosure have not been allowed. Due to this failure to be forthcoming, we must now turn to you.

The issues are complicated by disclosure issues that range from gross misrepresentation reported by some residents to purposefully hiding facts in Lennar's role in controlling the Homeowner Association. It is not what was disclosed, but what was withheld or incorrectly represented. Even Lennar's own sales materials infer the neighborhood park that was initially planned is unclear

Residents who purchased their home close to the park relied on the figure on the front of Heritage Community sales brochure. This was underscored by "facts" represented by some sales personnel. As shown below, it appears to be a greenbelt type of park, with no parking lot, compatible with active adult surrounding land uses.

Lennar Heritage Brochure

ENVIRONMENTAL IMPACTS ON LENNAR CONTROLLED WETLANDS AND ENDANGERED SPECIES

The creation of Carson Creek Preserve was required by the California Department of Fish and Wildlife (CDFW) Streambed Alteration Agreement (SSA), which involves the establishment of the Preserve to compensate for impacts to 0.53 acre of riparian habitat, 13.7 acres of floodplain habitat, and 6.63 acres of seasonal and temporary streams. Lennar is the current Preserve Manager until the responsibility is assumed by a land conservancy that manages and monitors the Preserve in perpetuity. *The adjacent Heritage Park was OMITTED in reports prepared on behalf of Lennar Homes by Foothill Associates, an environmental consulting firm in Rocklin, CA, and subsequent reports from other Lennar hired firms.*

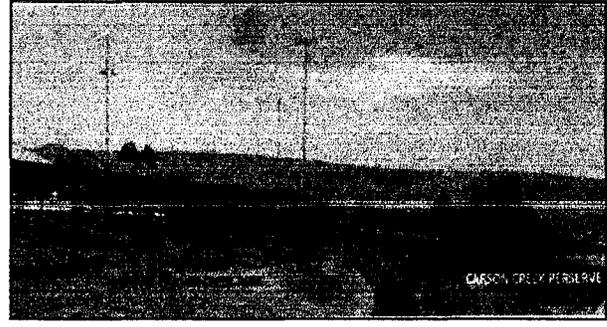

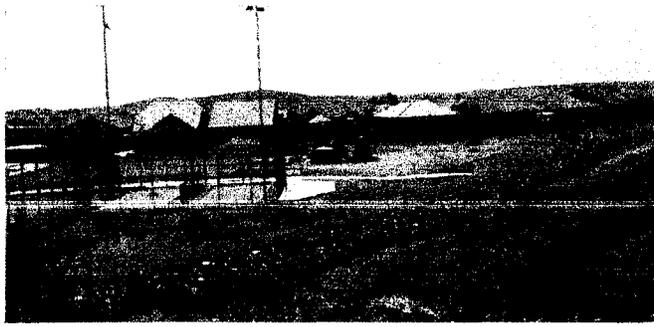

Foothill Associates identified the Preserve as being home to the Western Pond Turtle and the Burrowing Owl. Both are listed as *Species of Special Concern* by the California Dept of Fish and Wildlife (CDFW). Foothill Associates identified Purple needlegrass, listed by CDFW as a *sensitive plant*, growing throughout the Preserve. Also identified growing throughout the Preserve are non-native annual grasses, which can provide foraging habitat for the golden eagle (*Aquila chrysaetos*) and the tricolored blackbird (*Agelaius tricolor*), both of which are on the *endangered species list*. Elderberry bushes also grow in the Preserve and are a food source for the Valley Elderberry Longhorn Beetle, a CDFW *threatened species*.

Our homes are located with a view of the Preserve, and we thoroughly enjoy the herons, egrets, ducks, geese, owls, hawks, eagles, frogs, songbirds, beavers, coyotes, bobcats, and other many inhabitants that live in the Preserve. We want to see the Preserve saved as it is, for us, and for future generations.

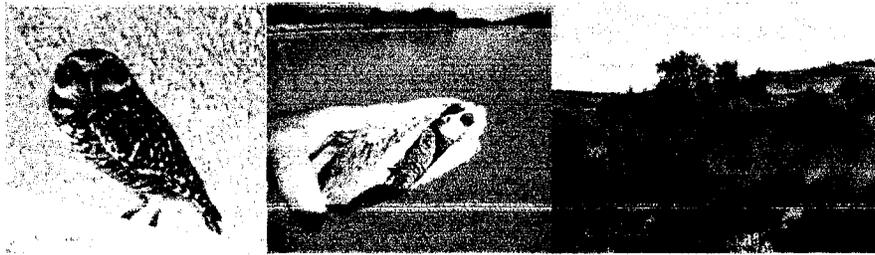

We have been unable to find any documentation showing that Lennar Homes informed the US Corp of Engineers, California Fish and Wildlife, and other regulatory bodies that a 4.65-acre park, much of which is covered in impervious surfaces, is being constructed at this location directly adjacent to the Preserve.

Lennar Controlled Wetland and Preserve Park

Example of a Few Endangered Species in Lennar Controlled Preserve

Lennar remains responsible for these sensitive wetlands. Every effort must be undertaken to prevent the loss of any sensitive species within the protected preserve.

RESIDENT PROTESTS AND MEDIA COVERAGE

In addition to the 400 letters that accompany this summary, the residents of Heritage have submitted a petition to EDHCS D to confine park hours more consistent with our population. In response, the Board of Directors voted to restrict the hour to dawn to dusk. At precisely the same time, Lennar and EDHCS D secretly ordered the offensive stadium lights. We were deceived by both Lennar and EDHCS D. This maneuver is documented by the Mountain Democrat newspaper (copy of the article is enclosed)

The residents also employed the California ballot initiative process to place a measure before the voters to repeal the special assessment for the continued maintenance and operation of a park that is not complete and is not in operation. A majority of Heritage residents signed the petition and the measure is certified for inclusion on the next general election ballot.

To date, we have refrained from engaging widespread traditional and social media in our efforts to mitigate the damage associated with the park. It is our hope that a solution can be reach before it becomes necessary to engage in a full media assault. We do not want the Lennar brand to be tarnished because of the action of local officials. We want to avoid adverse headlines. Our sole objective is to protect this community and its environment.

A negative precedent has been established. Lennar would be hard pressed to identify another active adult community where a *public* park with these types of characteristics was knowingly developed in direct proximity of homes of a protected senior population.

Miami, Florida 33172

Dear Honorable Members of the Board of Directors and Senior Executives,

We urge your aggressive action to mitigate the construction and operation of a "competitive sports complex park" that includes 50-foot stadium-style lights and other "improvements" that negatively impact us as residents. This public Park developed by Lennar on behalf of a local agency is surrounded by Lennar Heritage homes in a very quiet community setting. The harmful effects of extended hours, traffic, theft, vagrancy, and lighting/noise pollution ignores the health and safety of 55+ senior residents. We are also concerned about the impacts on the endangered species habitats in the wildlife preserve located just a few feet away.

The EDH Heritage Home Owners Association is controlled by Lennar Homes of California representatives, who are also directly involved in the public park's construction. Open and comprehensive dialogue has not been permitted. Efforts to address the lack of full disclosure have not been allowed. Due to this failure to be forthcoming, we must now turn to you.

Lennar has built a national reputation for developing 55+ protected population communities. We also want to help protect your excellent brand name while we safeguard our own homes and the surrounding community. Please immediately intervene on behalf of your EDH Lennar family. We have faith that you will honor your core company values of "quality, value, and integrity" to ensure this public park is developed to fit within the protected population and adjacent wildlife preserve.

Sincerely,

Susan Bilotta Date: 6/12/21

Lennar Corporation
700 NW 107 Avenue
Miami, Florida 33172

Dear Honorable Members of the Board of Directors and Senior Executives,

We urge your aggressive action to mitigate the construction and operation of a "competitive sports complex park" that includes 50-foot stadium-style lights and other "improvements" that negatively impact us as residents. This public Park developed by Lennar on behalf of a local agency is surrounded by Lennar Heritage homes in a very quiet community setting. The harmful effects of extended hours, traffic, theft, vagrancy, and lighting/noise pollution ignores the health and safety of 55+ senior residents. We are also concerned about the impacts on the endangered species habitats in the wildlife preserve located just a few feet away.

The EDH Heritage Home Owners Association is controlled by Lennar Homes of California representatives, who are also directly involved in the public park's construction. Open and comprehensive dialogue has not been permitted. Efforts to address the lack of full disclosure have not been allowed. Due to this failure to be forthcoming, we must now turn to you.

Lennar has built a national reputation for developing 55+ protected population communities. We also want to help protect your excellent brand name while we safeguard our own homes and the surrounding community. Please immediately intervene on behalf of your EDH Lennar family. We have faith that you will honor your core company values of "quality, value, and integrity" to ensure this public park is developed to fit within the protected population and adjacent wildlife preserve.

Sincerely,

 Date: 6/17/21

The EDH Heritage Home Owners Association is controlled by Lennar Homes of California representatives, who are also directly involved in the public park's construction. Open and comprehensive dialogue has not been permitted. Efforts to address the lack of full disclosure have not been allowed. Due to this failure to be forthcoming, we must now turn to you.

Lennar has built a national reputation for developing 55+ protected population communities. We also want to help protect your excellent brand name while we safeguard our own homes and the surrounding community. Please immediately intervene on behalf of your EDH Lennar family. We have faith that you will honor your core company values of "quality, value, and integrity" to ensure this public park is developed to fit within the protected population and adjacent wildlife preserve.

Sincerely,

Dear Honorable Members of the Board of Directors and Senior Executives,

We urge your aggressive action to mitigate the construction and operation of a "competitive sports complex park" that includes 50-foot stadium-style lights and other "improvements" that negatively impact us as residents. This public Park developed by Lennar on behalf of a local agency is surrounded by Lennar Heritage homes in a very quiet community setting. The harmful effects of extended hours, traffic, theft, vagrancy, and lighting/noise pollution ignores the health and safety of 55+ senior residents. We are also concerned about the impacts on the endangered species habitats in the wildlife preserve located just a few feet away.

The EDH Heritage Home Owners Association is controlled by Lennar Homes of California representatives, who are also directly involved in the public park's construction. Open and comprehensive dialogue has not been permitted. Efforts to address the lack of full disclosure have not been allowed. Due to this failure to be forthcoming, we must now turn to you.

Lennar has built a national reputation for developing 55+ protected population communities. We also want to help protect your excellent brand name while we safeguard our own homes and the surrounding community. Please immediately intervene on behalf of your EDH Lennar family. We have faith that you will honor your core company values of "quality, value, and integrity" to ensure this public park is developed to fit within the protected population and adjacent wildlife preserve.

We are also concerned about the impacts on the endangered species habitats in the wildlife preserve located just a few feet away.

The EDH Heritage Home Owners Association is controlled by Lennar Homes of California representatives, who are also directly involved in the public park's construction. Open and comprehensive dialogue has not been permitted. Efforts to address the lack of full disclosure have not been allowed. Due to this failure to be forthcoming, we must now turn to you.

Lennar has built a national reputation for developing 55+ protected population communities. We also want to help protect your excellent brand name while we safeguard our own homes and the surrounding community. Please immediately intervene on behalf of your EDH Lennar family. We have faith that you will honor your core company values of "quality, value, and integrity" to ensure this public park is developed to fit within the protected population and adjacent wildlife preserve.

Sincerely,

Linda Shafer

Dear Honorable Members of the Board of Directors and Senior Executives,

We urge your aggressive action to mitigate the construction and operation of a "competitive sports complex park" that includes 50-foot stadium-style lights and other "improvements" that negatively impact us as residents. This public Park developed by Lennar on behalf of a local agency is surrounded by Lennar Heritage homes in a very quiet community setting. The harmful effects of extended hours, traffic, theft, vagrancy, and lighting/noise pollution ignores the health and safety of 55+ senior residents. We are also concerned about the impacts on the endangered species habitats in the wildlife preserve located just a few feet away.

The EDH Heritage Home Owners Association is controlled by Lennar Homes of California representatives, who are also directly involved in the public park's construction. Open and comprehensive dialogue has not been permitted. Efforts to address the lack of full disclosure have not been allowed. Due to this failure to be forthcoming, we must now turn to you.

This public Park developed by Lennar on behalf of a local agency is surrounded by Lennar Heritage homes in a very quiet community setting. The harmful effects of extended hours, traffic, theft, vagrancy, and lighting/noise pollution ignores the health and safety of 55+ senior residents. We are also concerned about the impacts on the endangered species habitats in the wildlife preserve located just a few feet away.

The EDH Heritage Home Owners Association is controlled by Lennar Homes of California representatives, who are also directly involved in the public park's construction. Open and comprehensive dialogue has not been permitted. Efforts to address the lack of full disclosure have not been allowed. Due to this failure to be forthcoming, we must now turn to you.

Lennar has built a national reputation for developing 55+ protected population communities. We also want to help protect your excellent brand name while we safeguard our own homes and the surrounding community. Please immediately intervene on behalf of your EDH Lennar family. We have faith that you will honor your core company values of "quality, value, and integrity" to ensure this public park is developed to fit within the protected population and adjacent wildlife preserve.

Sincerely,

Members, Board of Directors and Senior Executives
Lennar Corporation
700 NW 107 Avenue
Miami, Florida 33172

Dear Honorable Members of the Board of Directors and Senior Executives,

My wife Elizabeth, and I, have been residents of Heritage EDH for 3 1/2 years. We were attendees at the first "public forum" regarding the park, held at our "Retreat" facility within Heritage. The current plans and stage of construction for the park diametrically differ from what we were told at that forum.

The current plan and configuration for the park only serve to satisfy a predominately younger clientele and are a disservice to the surrounding community (that had a special tax assessment to pay for the maintenance of the park). Not only have we (the over 55 community) had to pay for the maintenance, but our concerns regarding the park are largely if not completely ignored.

I would hope that Lennar has "more skin in the game" than simply dollars and cents and a "buyer beware sales approach".

Sincerely,

Dear Honorable Members of the Board of Directors and Senior Executives,

We urge your aggressive action to mitigate the construction and operation of a "competitive sports complex park" that includes 22-foot stadium-style lights and other "improvements" that negatively impact us as residents. This public Park developed by Lennar on behalf of a local agency is surrounded by Lennar Heritage homes in a very quiet community setting. The harmful effects of extended hours, traffic, theft, vagrancy, and lighting/noise pollution ignores the health and safety of 55+ senior residents. We are also concerned about the impacts on the endangered species habitats in the wildlife preserve located just a few feet away.

The EDH Heritage Home Owners Association is controlled by Lennar Homes of California representatives, who are also directly involved in the public park's construction. Open and comprehensive dialogue has not been permitted. Efforts to address the lack of full disclosure have not been allowed. Due to this failure to be forthcoming, we must now turn to you.

Lennar has built a national reputation for developing 55+ protected population communities. We also want to help protect your excellent brand name while we safeguard our own homes and the surrounding community. Please intervene on behalf of your EDH Lennar Family. We have faith that you will honor your core company values of "quality, value, and integrity" to ensure this public park is developed to fit within the protected population and adjacent wildlife preserve.

Sincerely,

Miami, Florida 33172

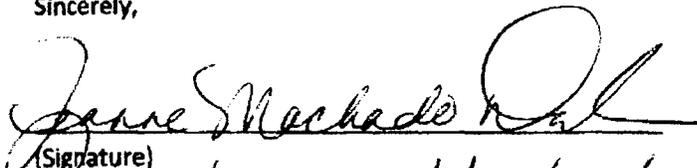

Dear Honorable Members of the Board of Directors and Senior Executives,

We urge your aggressive action to mitigate the construction and operation of a "competitive sports complex park" that includes 50-foot stadium-style lights and other "improvements" that negatively impact us as residents. This public Park developed by Lennar on behalf of a local agency is surrounded by Lennar Heritage homes in a very quiet community setting. The harmful effects of extended hours, traffic, theft, vagrancy, and lighting/noise pollution ignores the health and safety of 55+ senior residents. We are also concerned about the impacts on the endangered species habitats in the wildlife preserve located just a few feet away.

The EDH Heritage Home Owners Association is controlled by Lennar Homes of California representatives, who are also directly involved in the public park's construction. Open and comprehensive dialogue has not been permitted. Efforts to address the lack of full disclosure have not been allowed. Due to this failure to be forthcoming, we must now turn to you.

Lennar has built a national reputation for developing 55+ protected population communities. We also want to help protect your excellent brand name while we safeguard our own homes and the surrounding community. Please immediately intervene on behalf of your EDH Lennar family. We have faith that you will honor your core company values of "quality, value, and integrity" to ensure this public park is developed to fit within the protected population and adjacent wildlife preserve.

Sincerely,

Date: 6-18-21

Miami, Florida 33172

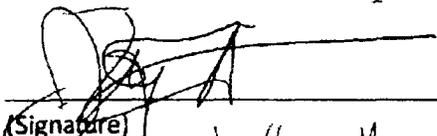

Dear Honorable Members of the Board of Directors and Senior Executives,

We urge your aggressive action to mitigate the construction and operation of a "competitive sports complex park" that includes 50-foot stadium-style lights and other "improvements" that negatively impact us as residents. This public Park developed by Lennar on behalf of a local agency is surrounded by Lennar Heritage homes in a very quiet community setting. The harmful effects of extended hours, traffic, theft, vagrancy, and lighting/noise pollution ignores the health and safety of 55+ senior residents. We are also concerned about the impacts on the endangered species habitats in the wildlife preserve located just a few feet away.

The EDH Heritage Home Owners Association is controlled by Lennar Homes of California representatives, who are also directly involved in the public park's construction. Open and comprehensive dialogue has not been permitted. Efforts to address the lack of full disclosure have not been allowed. Due to this failure to be forthcoming, we must now turn to you.

Lennar has built a national reputation for developing 55+ protected population communities. We also want to help protect your excellent brand name while we safeguard our own homes and the surrounding community. Please immediately intervene on behalf of your EDH Lennar family. We have faith that you will honor your core company values of "quality, value, and integrity" to ensure this public park is developed to fit within the protected population and adjacent wildlife preserve.

Sincerely,

 Date: 6/12/21

Miami, Florida 33172

Dear Honorable Members of the Board of Directors and Senior Executives,

We urge your aggressive action to mitigate the construction and operation of a "competitive sports complex park" that includes 50-foot stadium-style lights and other "improvements" that negatively impact us as residents. This public Park developed by Lennar on behalf of a local agency is surrounded by Lennar Heritage homes in a very quiet community setting. The harmful effects of extended hours, traffic, theft, vagrancy, and lighting/noise pollution ignores the health and safety of 55+ senior residents. We are also concerned about the impacts on the endangered species habitats in the wildlife preserve located just a few feet away.

The EDH Heritage Home Owners Association is controlled by Lennar Homes of California representatives, who are also directly involved in the public park's construction. Open and comprehensive dialogue has not been permitted. Efforts to address the lack of full disclosure have not been allowed. Due to this failure to be forthcoming, we must now turn to you.

Lennar has built a national reputation for developing 55+ protected population communities. We also want to help protect your excellent brand name while we safeguard our own homes and the surrounding community. Please immediately intervene on behalf of your EDH Lennar family. We have faith that you will honor your core company values of "quality, value, and integrity" to ensure this public park is developed to fit within the protected population and adjacent wildlife preserve.

Sincerely,

Dear Honorable Members of the Board of Directors and Senior Executives,

We urge your aggressive action to mitigate the construction and operation of a "competitive sports complex park" that includes 50-foot stadium-style lights and other "improvements" that negatively impact us as residents. This public Park developed by Lennar on behalf of a local agency is surrounded by Lennar Heritage homes in a very quiet community setting. The harmful effects of extended hours, traffic, theft, vagrancy, and lighting/noise pollution ignores the health and safety of 55+ senior residents. We are also concerned about the impacts on the endangered species habitats in the wildlife preserve located just a few feet away.

The EDH Heritage Home Owners Association is controlled by Lennar Homes of California representatives, who are also directly involved in the public park's construction. Open and comprehensive dialogue has not been permitted. Efforts to address the lack of full disclosure have not been allowed. Due to this failure to be forthcoming, we must now turn to you.

Lennar has built a national reputation for developing 55+ protected population communities. We also want to help protect your excellent brand name while we safeguard our own homes and the surrounding community. Please immediately intervene on behalf of your EDH Lennar family. We have faith that you will honor your core company values of "quality, value, and integrity" to ensure this public park is developed to fit within the protected population and adjacent wildlife preserve.

Sincerely,

Mike McFerran Date: 6/17/21

Dear Honorable Members of the Board of Directors and Senior Executives,

We urge your aggressive action to mitigate the construction and operation of a "competitive sports complex park" that includes 50-foot stadium-style lights and other "improvements" that negatively impact us as residents. This public Park developed by Lennar on behalf of a local agency is surrounded by Lennar Heritage homes in a very quiet community setting. The harmful effects of extended hours, traffic, theft, vagrancy, and lighting/noise pollution ignores the health and safety of 55+ senior residents. We are also concerned about the impacts on the endangered species habitats in the wildlife preserve located just a few feet away.

The EDH Heritage Home Owners Association is controlled by Lennar Homes of California representatives, who are also directly involved in the public park's construction. Open and comprehensive dialogue has not been permitted. Efforts to address the lack of full disclosure have not been allowed. Due to this failure to be forthcoming, we must now turn to you.

Lennar has built a national reputation for developing 55+ protected population communities. We also want to help protect your excellent brand name while we safeguard our own homes and the surrounding community. Please immediately intervene on behalf of your EDH Lennar family. We have faith that you will honor your core company values of "quality, value, and integrity" to ensure this public park is developed to fit within the protected population and adjacent wildlife preserve.

Sincerely,

(Signature)

Dear Honorable Members of the Board of Directors and Senior Executives,

We urge your aggressive action to mitigate the construction and operation of a "competitive sports complex park" that includes 50-foot stadium-style lights and other "improvements" that negatively impact us as residents. This public Park developed by Lennar on behalf of a local agency is surrounded by Lennar Heritage homes in a very quiet community setting. The harmful effects of extended hours, traffic, theft, vagrancy, and lighting/noise pollution ignores the health and safety of 55+ senior residents. We are also concerned about the impacts on the endangered species habitats in the wildlife preserve located just a few feet away.

The EDH Heritage Home Owners Association is controlled by Lennar Homes of California representatives, who are also directly involved in the public park's construction. Open and comprehensive dialogue has not been permitted. Efforts to address the lack of full disclosure have not been allowed. Due to this failure to be forthcoming, we must now turn to you.

Lennar has built a national reputation for developing 55+ protected population communities. We also want to help protect your excellent brand name while we safeguard our own homes and the surrounding community. Please immediately intervene on behalf of your EDH Lennar family. We have faith that you will honor your core company values of "quality, value, and integrity" to ensure this public park is developed to fit within the protected population and adjacent wildlife preserve.

Sincerely,

(Signature)

We are also concerned about the impacts on the endangered species habitats in the wildlife preserve located just a few feet away.

The EDH Heritage Home Owners Association is controlled by Lennar Homes of California representatives, who are also directly involved in the public park's construction. Open and comprehensive dialogue has not been permitted. Efforts to address the lack of full disclosure have not been allowed. Due to this failure to be forthcoming, we must now turn to you.

Lennar has built a national reputation for developing 55+ protected population communities. We also want to help protect your excellent brand name while we safeguard our own homes and the surrounding community. Please immediately intervene on behalf of your EDH Lennar family. We have faith that you will honor your core company values of "quality, value, and integrity" to ensure this public park is developed to fit within the protected population and adjacent wildlife preserve.

Sincerely,

Dear Honorable Members of the Board of Directors and Senior Executives,

We urge your aggressive action to mitigate the construction and operation of a "competitive sports complex park" that includes 50-foot stadium-style lights and other "improvements" that negatively impact us as residents. This public Park developed by Lennar on behalf of a local agency is surrounded by Lennar Heritage homes in a very quiet community setting. The harmful effects of extended hours, traffic, theft, vagrancy, and lighting/noise pollution ignores the health and safety of 55+ senior residents. We are also concerned about the impacts on the endangered species habitats in the wildlife preserve located just a few feet away.

The EDH Heritage Home Owners Association is controlled by Lennar Homes of California representatives, who are also directly involved in the public park's construction. Open and comprehensive dialogue has not been permitted. Efforts to address the lack of full disclosure have not been allowed. Due to this failure to be forthcoming, we must now turn to you.

Lennar has built a national reputation for developing 55+ protected population communities. We also want to help protect your excellent brand name while we safeguard our own homes and the surrounding community. Please immediately intervene on behalf of your EDH Lennar family. We have faith that you will honor your core company values of "quality, value, and integrity" to ensure this public park is developed to fit within the protected population and adjacent wildlife preserve.

Miami, Florida 33172

Dear Honorable Members of the Board of Directors and Senior Executives,

We urge your aggressive action to mitigate the construction and operation of a "competitive sports complex park" that includes 50-foot stadium-style lights and other "improvements" that negatively impact us as residents. This public Park developed by Lennar on behalf of a local agency is surrounded by Lennar Heritage homes in a very quiet community setting. The harmful effects of extended hours, traffic, theft, vagrancy, and lighting/noise pollution ignores the health and safety of 55+ senior residents. We are also concerned about the impacts on the endangered species habitats in the wildlife preserve located just a few feet away.

The EDH Heritage Home Owners Association is controlled by Lennar Homes of California representatives, who are also directly involved in the public park's construction. Open and comprehensive dialogue has not been permitted. Efforts to address the lack of full disclosure have not been allowed. Due to this failure to be forthcoming, we must now turn to you.

Lennar has built a national reputation for developing 55+ protected population communities. We also want to help protect your excellent brand name while we safeguard our own homes and the surrounding community. Please immediately intervene on behalf of your EDH Lennar family. We have faith that you will honor your core company values of "quality, value, and integrity" to ensure this public park is developed to fit within the protected population and adjacent wildlife preserve.

Sincerely,

 Date: 6/20/21

Miami, Florida 33172

Dear Honorable Members of the Board of Directors and Senior Executives,

We urge your aggressive action to mitigate the construction and operation of a "competitive sports complex park" that includes 50-foot stadium-style lights and other "improvements" that negatively impact us as residents. This public Park developed by Lennar on behalf of a local agency is surrounded by Lennar Heritage homes in a very quiet community setting. The harmful effects of extended hours, traffic, theft, vagrancy, and lighting/noise pollution ignores the health and safety of 55+ senior residents. We are also concerned about the impacts on the endangered species habitats in the wildlife preserve located just a few feet away.

The EDH Heritage Home Owners Association is controlled by Lennar Homes of California representatives, who are also directly involved in the public park's construction. Open and comprehensive dialogue has not been permitted. Efforts to address the lack of full disclosure have not been allowed. Due to this failure to be forthcoming, we must now turn to you.

Lennar has built a national reputation for developing 55+ protected population communities. We also want to help protect your excellent brand name while we safeguard our own homes and the surrounding community. Please immediately intervene on behalf of your EDH Lennar family. We have faith that you will honor your core company values of "quality, value, and integrity" to ensure this public park is developed to fit within the protected population and adjacent wildlife preserve.

Sincerely,

Darlene A. Clift Date: 6-23-21
