RE: Retroactive Memorandum of Understanding #4558

The purpose of this memorandum is to provide context on behalf of the Probation Department as to the retroactive nature of the MOU between HHSA and Probation as part of the Contract with Binti #7191.

Memorandum of Understanding #4761 between the Probation Department & Health and Human Services provides shared user access to Binti Software paid for as a part of agreement #4558 between Binti Inc., and Health and Human Services.

The Probation Department has agreed to pay one half of the Software License fee in order to maintain access to the system to aid in identifying Resource Families.

Due to the expiration of Agreement #4558, and MOU #4761, there is not a current MOU in place. Upon execution of Agreement #7191, the Probation Department will work in coordination with Health and Human Services to re-establish an MOU through the term of Agreement #7191.

As agreed to in prior years, the Probation Department is prepared to pay half of the annual software license fee (\$20,046.98) at \$10,023.49, not to exceed \$30,070.47 over the term of the contract.
