

Julia McIver

Chairperson

El Dorado County Parks and Recreation Commission

Dear Ms. McIver,

For most of the past year the Coloma-Lotus Advisory Committee has had an ad-hoc committee working with local stakeholders who are looking at options for utilizing the County's Cronin Ranch property. At our past two meetings we received two proposals, with input from three major user groups, for that property from the ad-hoc committee. And although the ad-hoc committee members were not able to agree on one unified proposal, our full committee feels both proposals have important and valuable insights. We passed the following motion at our meeting on November 2nd:

"A motion was made by Member Penn, seconded by Member Sage to make a recommendation to the Parks and Recreation Commission to support the proposals from the three user groups that have presented concepts, with the acknowledgment that parking is our number one concern and although the large animal evacuation center is not part of the two proposals, the Coloma-Lotus Advisory Committee supports that proposal as well."

Both proposals are attached to the email that I am sending to you and your Commission. Please feel free to reach out to me if I can be of any further assistance.

Sincerely,

Nate Rangel

Chairperson

Coloma-Lotus Advisory Committee
