These three items are classic examples of late 19th-century household lighting, likely dating from the Victorian era (roughly 1870–1900). These appear to have been donated to the El Dorado County Historical Society.</p> <p>There are no accession numbers on the items, nor anywhere on the box. Given that the El Dorado County Historical Museum already maintains a sufficient collection of similar lamps in comparable condition, we recommend formally offering these items back to the El Dorado County Historical Society to ensure they are housed with their rightful owner.</p>	Deaccession
