May 20, 2010

To whom it may concern,

On May 10, 2010, Sierra County, one of the participating agencies in the Northern Region, Southern Initiative CalMMET grant confirmed they would be unable to expend their allocation of funds by the grant end date of June 30, 2010. At this time, all other participating counties were notified that because of Sierra County's decision, an additional \$164,500 in CalMMET funds were available. Each county was tasked with providing a list of requested items so that the Initiative could fully expend the total grant award and not return any funding back to the state.

Unfortunately CALEMA will not extend the end date of this grant and each county is now facing end of year purchasing deadlines. I have completed the formal modification necessary for the changes and in addition I have also requested an informal approval from CALEMA In order to expedite the purchase of items. On May 13, 2010 our CALEMA rep confirmed: "go ahead and use these additional funds to get the teams whatever they need to continue the objectives". On May 20, 2010 the rep again confirmed: "I have seen the budget and although you don't have the mod approved yet, go ahead and get going on it".

The total funds allocated to El Dorado County from the Sierra's released funds are \$40,000 to be used to purchase a 4x4 vehicle for their SLEDNET task force. Please note that the total Southern Initiative grant award for 2008-2009 and 2009-2010 did not change and there will be no paperwork from OES to indicate a change in funding.

Please let me know if I can provide any further information to you.

Sincerely,

Serena Hobbs
