Hello Ron,

I'm writing to ask you to support the request from Marshall Medical Center and Marshall Foundation for Tobacco Settlement Funds at next Tuesday's board meeting. These funds will be used for local cancer facilities. As a cancer survivor and MMC board member I can attest to the need and to how well the funds will be spent.

I appreciate your support.

Dear Supervisors,

We enthusiastically support the request from Marshall Medical Center and Marshall Foundation for \$800,000 (less than 10%) of Tobacco Settlement Funds to be used for the new Marshall Cancer Center that will ease the journey of community cancer patients by consolidating services into one central location in Cameron Park. The many cancer suffers in our community deserve all of our support.

County Supervisors-

Wofford Acres Vineyards has made it a priority for over 10 years to support cancer research and cancer survivors through fundraisers at the winery. I urge you to do the same through supporting the Tobacco Settlement Fund request from Marshall Medical Center and Marshall Foundation on next Tuesday's agenda. This funding will send a clear message to the community that our county supports those who are suffering from cancer.

I, and those living with cancer, appreciate your support!

Ann Wofford

Long, Krista <klong@marshallmedical.org>  
To: edc.cob@edcgov.us

Mon, Apr 7, 2014 at 1:17 PM

To whom it may concern:

I currently work at Marshall Hematology and Oncology as the chemotherapy scheduler, as well as the phlebotomist/medical assistant. Although I have only had the privilege to work here 2 years, I see daily the significant impact we make on the patients and families that we serve in El Dorado County. Without our services patients would be traveling numerous miles and hours in traffic for doctor visits and necessary chemotherapy treatments. Chemotherapy alone is difficult, and many of the treatment regimens require concurrent days of treatment and supportive injections in an effort to ensure blood counts are not compromised. During treatment, the average chemotherapy patient comes to our clinic 2-3 times every other week, and to be able to do so locally is a huge blessing especially with high gas prices. On a more personal note, we are extremely limited in the services we are able to provide patients right now. We have 11 treatment chairs in which to treat patients, and on very busy days patients have to wait until a space is available. I recognize we have intentions of expanding, and I truly hope that we can. When a patient comes in for treatment it is valuable to have a family member or two included to make it less intimidating and overwhelming. Not only that but I heard we will ultimately have a healing garden, which would give patients, employees, and family members an amazing opportunity to grieve and heal during these difficult times.

Cancer touches so many lives in our community and it would be so helpful to have all cancer needs met under one roof. Patients are going through so much to begin with, and anything our community can do to make their road easier, should be done. I have grown to know and respect all of our patients; they have taught me so much about life and courage. It is my sincere hope that the Board of Supervisors will seriously consider financial assistance towards a Collaborative Comprehensive Cancer Center. One never knows when cancer services will be needed and to strategically apply tobacco funding to achieve placing all services in one location is definitely the right thing to do! Thank you for consideration of this plea in support of our community.

Respectfully Submitted,

Krista Long

Dear Supervisors,

I urge you to support the Tobacco Settlement Fund request from Marshall Medical Center and Marshall Foundation on this Tuesday's agenda. This funding will send a clear message to the community that our county supports those who are suffering from cancer now and into the future.

The source of the money stemming from a Tobacco related fund and being used for a Cancer Center could not be more appropriate. Cancer has affected my family; from my grandmother 1981, to my Aunt in 1995 to my own mother in 2013. I feel very strongly about the need for this Cancer Center to help all El Dorado County residents find assistance in dealing with this horrible disease.

I appreciate your support and your vote in favor of this request.

Sincere Regards,  
Greg Witherow
