

January 13, 2009

To: El Dorado County Board of Supervisors

From: INRMP Stakeholders Advisory Committee (ISAC)

Re: Recommendations on the RFP for the Integrated Natural Resources Management Plan

This memo is in response to your direction at the November 18, 2008 board meeting. ISAC met on December 4, 2008 and January 13, 2009, to discuss your Board's direction. ISAC makes the following recommendations:

- 1) ISAC concurs with PAWTAC's recommendation dated January 5, 2009, to adopt the November, 2008 draft RFP, as modified in PAWTAC's recommendation; and
- 2) ISAC recommends further that subsequent to the completion of Task 1 of the INRMP (Map Important Habitat and Connectivity), that there be an opportunity to off ramp or restructure the consultant's scope of work for the remaining tasks, based on the result of significant discussions that will need to be held with PAWTAC, ISAC, the public, and the Board after Task 1 is completed.
