1. Provide a description that addresses the entire scope of the proposed project.

El Dorado County Health and Human Services Agency is the organization responsible for the implementation and administration of the El Dorado County Continuum of Care HMIS system. As the current HMIS grant recipient, this organization is responsible for serving as grantee, providing oversight and monitoring, coordinating individualized participating agency training and encouraging the participation of new and existing homeless service providers.

Per the request of the El Dorado County Continuum of Care, El Dorado County will seek to transfer its HMIS responsibilities and grant funding to The Center for Violence-Free Relationships at the end of the current (2011) grant; ending in July of 2013. The Center for Violence-Free Relationships has expressed its desire to assume HMIS responsibilities for the El Dorado County Continuum of Care.

The Center for Violence-Free Relationships (The Center) is a community-based non-profit agency located in El Dorado County. The Center has been in existence since 1979 and functions as the Lead Agency/Collaborative Applicant for The El Dorado County Continuum of Care. The Center has the appropriate staffing expertise to operate the HMIS project. As a domestic violence agency, The Center currently operates its own parallel internal HMIS system (meeting HUD's guidance for a separate system for domestic violence shelters). After this grant is transferred from El Dorado County Health and Human Services Agency, The Center will manage both this parallel internal system and separately the wider HMIS system for the entire CoC using Bell Data's HMIS software.

As the current grant recipient, El Dorado County is submitting the application under the 2012 Continuum of Care Funding Competition, but will work with Housing and Urban Development and The Center to effectuate the transition of any 2012 grant award from El Dorado County to The Center for Violence-Free Relationships. This funding request is for a renewal of the original dedicated HMIS project, to continue to maintain the HMIS and make it available to community agencies that serve the homeless. This project will provide HMIS user licenses, reporting, and training. HMIS increases knowledge on service usage patterns, seasonal needs and resource barriers that affect the homeless in our community, and will also provide accurate and unduplicated numbers that will be crucial for determining the CoC's unmet needs. A desired goal of the project is to assist in streamlining services to the homeless community and to ensure that the needs of user agencies are fully addressed so that the system will meet the functional needs of each agency.
