Subject: Question regarding agenda Item 31.23-1762 - CDI Presentation on the new Mitigation in Rating Plans and Wildfire Risk Models

Hello,

I would like to know if actual data is available from CDI or insurers who provide Fair Plan insurance on the number of discounts, the percentage of the discount, and the total dollar amount in premium reductions given to policy holders in El Dorado County?

The Coloma Lotus Fire Safe Council is organizing to become a Firewise community and it would greatly help if we could provide this information to residents/policy holders in the community to motivate them to take additional risk reduction actions identified by the Firewise USA Program.

Thank you,

Janet Hayes
Resident of Riverwood in Placerville, CA
