

CONDITIONS OF APPROVAL

Conditional Use Permit S18-0006/Glass Hangar Planning Commission/August 23, 2018

Planning Services

1. Project Description
 - a. The Conditional Use Permit is based upon and limited to compliance with the project description, the following hearing exhibits, and conditions of approval set forth below.
 - b. The project proposes a Conditional Use Permit in order to operate a private heliport and storage hangar on an existing helipad and storage building on a 5.45 acre parcel in the Kelsey area. The heliport would be used primarily for storage and private contract wildland fire fighting support services occurring in other locations. Takeoff and return flights would typically be occurring weeks apart, with the maximum **private** flight operations at two per day, departure and arrival. The helipad may occasionally be used by local fire agencies and CalFire for fire suppression and emergency search and rescue operations.
 - c. Any deviations from the project description, exhibits, or conditions must be reviewed and approved by the County for conformity with this approval. Deviations may require approved changes to the permit and/or further environmental review. Deviations without the above described approval will constitute a violation of permit approval.
 - d. The grading, development, use, and maintenance of the property, the size, shape, arrangement, and location of structures, parking areas and landscape areas, and the protection and preservation of resources shall conform to the project description above and the hearing exhibits and conditions of approval below. The property and any portions thereof shall be sold, leased or financed in compliance with this project description and the approved hearing exhibits and conditions of approval hereto. All plans must be submitted for review and approval and shall be implemented as approved by the County.
2. No activity authorized by this special use permit may commence until all of the conditions of approval have been complied with in full.
3. Any proposed changes to the approved site plan shall be submitted to the Planning and Building Department Director for review and approval. Minor changes may be approved by the Director. Major changes will require approval by the Planning Commission.

4. In Compliance with County Code Section 130.22.250, implementation of the project must occur within 24 months of approval of this Conditional Use Permit, otherwise the permit becomes null and void. It is the responsibility of the applicant to monitor the time limit and make diligent progress toward implementation of the project and compliance with conditions of approval.
5. The applicant shall submit to Planning Services a \$50.00 recording fee and the current Department of Fish and Wildlife fee prior to filing of the Notice of Determination by the County. Please submit check for the total amount to Planning Services and make the check payable to El Dorado County. No permits shall be issued until said fees are paid.
6. In the event of any legal action instituted by a third party challenging the validity of any provision of this approval, the developer and landowner agree to be responsible for the costs of defending such suit and shall hold County harmless from any legal fees or costs County may incur as a result of such action.
 - a. The developer and land owner shall defend, indemnify, and hold harmless El Dorado County and its agents, officers, and employees from any claim, action, or proceeding against El Dorado County or its agents, officers, or employees to attack, set aside, void, or annul an approval of El Dorado County concerning a special use permit.
 - b. No development is proposed as a part of this project. In the event that future development related to this Conditional Use Permit is proposed the following shall be incorporated as a note on the grading/improvement plans:

“In the event that archeological resources are discovered during grading and construction activities, the applicant shall ensure that all such activities cease within 50 feet of the discovery until an archaeologist can examine the find in place. If the find is determined to be a “unique archeological resource”, contingency funding, and a time allotment sufficient to allow recovering an archaeological sample or to employ one of the avoidance measures may be required under the provisions set forth in Section 21083.2 of the Public Resources Code. Construction work could continue on other parts of the project site while archaeological mitigation takes place.”
 - c. If the find is determined to be a “unique archeological resource”, the archaeologist shall determine the proper method(s) for handling the resource or item in accordance with Section 21083.2(b-k). Any additional costs as a result of complying with this section shall be borne by the project applicant. Grading and construction activities may resume after appropriate measures are taken or the site is determined a “non-unique archeological resource”.

7. In the event of the discovery of human remains, all work shall cease and the County coroner shall be immediately notified pursuant to subdivision (c) of Section 7050.5 of the Health and Safety Code and Section 5097.98 of the Public Resources Code. The Coroner shall make his or her determination within two working days from the time the person responsible for the excavation, or his or her authorized representative, notifies the Coroner of the discovery or recognition of the human remains. If the Coroner determines that the remains are not subject to his or her authority and if the Coroner recognizes the human remains to be those of a Native American, or has reason to believe that they are those of a Native American, he or she shall contact, by telephone within 24 hours, the Native American Heritage Commission.

Upon the discovery of the Native American remains, the landowner shall ensure that the immediate vicinity, according to generally accepted cultural or archaeological standards or practices, where the Native American human remains are located, is not damaged or disturbed by further development activity until the landowner has discussed and conferred, as prescribed in Section 5097.98 of the Public Resources Code, with the most likely descendants regarding their recommendations. The descendants shall complete their inspection and make their recommendation within 48 hours of their notification by the Native American Heritage Commission. The recommendation may include the scientific removal and nondestructive analysis of human remains and items associated with Native American burials or other proper method(s) for handling the remains in accordance with Section 5097.98(b-h). Any additional costs as a result of complying with this section shall be borne by the project applicant. Grading and construction activities may resume after appropriate measures are taken.

County Surveyor

8. Applicant will be required to coordinate with the County Surveyor's Office to ensure that all buildings on the subject parcel are addressed in compliance with County Code, Chapter 110.04. Compliance is required with 30 days of approval.
