Jim, I believe John Deville was going to send you a note on this, but if he hasn't, can you please attach this email to legistar item 16-0377 for Big Hill Radio Site. Then we can do the encumbrance for the correct amount.

Thanks!

Subject: RE: Cents

Jim left me a message about this. Yes, the cents need to be left on the title recommendations, since my staff and others look here for encumbrance authorization. Jim, you can use this email and Sue's attached to attach to any board items with this issue, until we get back on track. As in the past, having the attached to the item in Legistar should alleviate any issues in payment down the road due to encumbrance, agreement and title recommendation not matching exactly.

Thanks!

Mollie

Mollie, It is sounding like the Board Clerk has been following past (very old) direction to delete the "cents" from amounts in the title recommendations of Board items. Going forward they are discontinuing this practice; however, please do not hold up encumbrances if the difference between the approved contract and the Legistar file text is less than 1\$ and attributable to this practice.
