Good afternoon,

While I actually love the idea of this ARCO going in at this location please do not approve one more project in this area until the Ponderosa interchange project is completed. This corridor is already a mess when any school gets out in the area and takes almost an hour to clear. I live along Meder Road and when my kids went to Buckeye Elementary it was actually faster for me to drive the opposite way into Cameron Park to highway 50 and back to Shingle Springs to Buckeye Elementary because Ponderosa Road was so backed up with student/parent traffic. Fixing the overpass needs to take priority over any new building in this area.

Thank you,
Andrea De Anda

I strongly oppose this project. The intersection of Durock Rd and South Shingle is already a nightmare. I understand that plans are already underway to change the North Shingle/Ponderosa/Hwy 50/Motherlode/ South Shingle/Durock Rd nightmare. Having another gas station in the mix is a terrible idea at least it is before the current problems are resolved. Currently it is not unusual for it to take 10 - 15 minutes and multiple light changes to cross Hwy 50.

Again, I strongly oppose this project.

The proposed Arco Station for the corner of South Shingle and Durock will increase the already impacted traffic congestion at the 3 stoplights. There are clearly stated reasons in the submitted emails. I have seen accidents at this and the other 2 intersections on South Shingle. What is the CHP and EDSO's input on this proposed Arco Station? Glenda Bidigare, a 5-7 day commuter on South Shingle
