Supervisors,

Please find attached, several documents for your review in advance of the cannabis discussion September 12<sup>th</sup>, 2023. We look forward to the discussion and desire for the BoD to approve sending the request for a Resolution of Intent to staff to improve the existing ordinance.

- 1) BoS Preso September – This will be our presentation during our 30 minute (hope to not take 30 minutes) time slot. I will plan on talking to each of the slides.
- 2) County Ordinance Comparison – This is sheet which does a county by county comparison of many of the differences between EDC and other counties. This data comes from CA DCC and from the reading of all other counties ordinances. These were fact checked for the PC meetings held, by staff and the PC.
- 3) Summary list – This is a summary of the proposed changes. While there are many, they correspond directly to the staff letter attached to this agenda item.
- 4) EDC Ordinance – This is a redlined county ordinance that was provided to staff and the PC and was discussed in its entirety with the attendees and EDSO of the 2 PC sessions previously held.
- 5) Cannabis Background Check – This is the actual background check document required to be completed for applicants from EDSO. This is attached for your review to illustrate the 5<sup>th</sup> amendment violations in this document and why we suggest it be changed to eliminate these violations.

General notes.

Staff did an excellent job summarizing all items discussed during the PC sessions. What is missing are much of the detail which I have included in the presentation. These details are important in this discussion as they all fall into the broader picture of what staff presented.

The point I am trying to make above, is the amount of work required by staff to make these changes should be minimal, as all items contained in these summaries was discussed at the PC sessions and were tentatively approved by the PC.

Please understand that it is not the intent of the Alliance to grossly change the existing ordinance. Nor do we want to grossly change what the voters voted for. We are suggesting many minor changes which will allow for a faster and less costly way for applicants to become legal members of the community. We do believe that the voters intended for this program to be workable and eliminate much of the illegal activity surrounding cannabis in this county, which is not currently the case. In 5 years since legalization, one new cannabis cultivation business is operational, one was just approved and another is now in the appeals process.

While there is a lot of data, it is critical to understand it at a high level as you make your decision whether or not to send this back to staff with a Resolution of Intent.

Thank you for your consideration and I look forward to seeing you all next week.

# Cannabis Ordinance Revision Discussion

Lee Tannenbaum  
President, El Dorado County Growers Alliance  
September 12<sup>th</sup>, 2023

## History - But before we get started...

- ▶ Every Supervisor is aware of the wine industry in EDC.
- ▶ As we have this discussion, please think of the cannabis farmer like you would a wine producer.
- ▶ WHY?
- ▶ A grape vine is planted and grows producing fruit. So too does a cannabis plant
- ▶ The grape is harvested, processed/manufactured into wine. So too is a cannabis plant
- ▶ Wine is sold in its final state or aged and then sold. So too is a cannabis plant
- ▶ We call these products different names, but they are the same in many ways

# History

- ▶ Cannabis legalized in 2018 by an overwhelming majority vote
- ▶ Since 2018, one grower has received a license and is growing. Two total licenses issued with one more in appeal.
- ▶ EDC county sued and settled due to issues with the ordinances
- ▶ Planning commission sessions go through entire ordinance, the issues as they currently exist and makes recommendations to this Board
- ▶ And here we are...
- ▶ There are significant issues with the current ordinances and processes which are preventing residents who desire to get a legal license from attaining one. As an example, both (yes only 2 in 5 years) approved applicants took over 3 years and several hundred thousand dollars each to get through the approval process
- ▶ The work has already been done... See below.

# Planning Commission Discussions

- ▶ As noted in the staff report, the PC, staff and interested parties (including the public) participated.
- ▶ The entire ordinance was discussed with the group. Recommendations and questions were made by the PC for this board to give direction on. While a general recommendation is presented today, there was a detailed discussion and tentative consensus on all items presented.
- ▶ Supporting documentation presented was fact checked by members of the PC.
- ▶ We will discuss all of these and offer during today's discussion, the issues presented by staff are a summary of the below presented material.
- ▶ If the Board approves and agrees with these suggestions, it will significantly speed up the process, lower costs to the applicants (while we still pay for the program). AND it will move toward eliminating more illegal grows in EDC

# Setbacks

- ▶ Removal of Nov 6<sup>th</sup>, 2018 date - This was done to prevent something which has not occurred and needs to be removed
- ▶ Distances/Setbacks - EDC Currently 500' greater than other counties
- ▶ Parcel and Premise - EDC has different definitions for cannabis than other properties/businesses. EDC has different definitions from the state as well as any other county in the state.
- ▶ Side fun facts (but not fun) - A convicted pedophile has less restrictions to living near a sensitive site (school bus stop, school, etc) than a fully vetted cannabis applicant. EDC is the only county that considers a bus stop a sensitive site.

## Expanded Canopy

- ▶ Current county regulations state maximum grow area to be no more than 2 acres. During the PC meeting, it was determined that this was an artificial number created for no apparent reason.
- ▶ Allow for cottage licenses - Current code requires even small farms (Cottage licenses designated by the state as under 2500 sq/ft of growth) to do the same, long and very expensive CEQA studies. This is too much of a burden for the smaller farmer

# Changes to Propagation and Expanded Use

- ▶ Allow Indoor growing to occur on any commercial cannabis location regardless of zoning
- ▶ Allow Processing to occur on any commercial cannabis location regardless of zoning
- ▶ Allow Non-Volatile Manufacturing to occur on any commercial cannabis location regardless of zoning
- ▶ Change lighting to emulate state lighting regulations - EDC eliminated an important lighting range.
- ▶ Mixed light definition needs to be changed to match changes in state language
- ▶ Think vineyard...

# Sheriff's Office and Background Checks

- ▶ 45-day limit was discussed, and the Alliance agrees that this is no longer an issue. The Sheriff's office providing background checks in a timely fashion is no longer an issue
- ▶ Ownership - Sheriff's position appears to be fine with our county's definition of ownership being tied to the state definition and not a special county definition.
- ▶ Alliance agrees that doing background checks spouses of owners are OK. The Alliance also agrees that if an 'owner' is the Designated Local Contact, that a background check be required.
- ▶ Alliance disagrees with the Sheriff's position on Designated Local Contact having a background check. This role, if not an owner, will have no authority over the business and falls into the ownership, or lack thereof. No critical decisions will be made by the DLC, unless they are an owner.
- ▶ A non-owner DLC could be an answering service, and so the Alliance believes this is an overreach.
- ▶ Background checks should align with state, EDC currently makes subjective, not objective decisions. EDC is also the only county who does credit analysis of applicants.
- ▶ What is the expected date EDSO will have their LiveScan vs HDL? 5 years and counting. Alternatives? Why will EDSO not use state provided background checks?
- ▶ Remove 5<sup>th</sup> amendment violations from background application. There are several self-incriminating questions. This was not addressed by the Sheriff in his letter.

## Other policy considerations

- ▶ Taxes - Current EDC Tax Collector would prefer to have a gross sales tax on cannabis cultivation, not a square foot tax. This would align with all other cannabis businesses
- ▶ Taxes - consider lowering cannabis tax rates as the high taxes by county and state are driving illegal activity
- ▶ County Wide EIR and change from commercial to agriculture - Speed up process.
- ▶ In addition to above, other counties certify scientists (for various studies - Bio, odor, etc). This will greatly speed up the CEQA review (which is the long pole in the tent)
- ▶ Direct to consumer - again, vineyard
- ▶ Ensure this ordinance is reviewed every year or two, not every five

## Easy and with total agreement from Staff

- ▶ Annual Operating Permit - Tie effective date to conditions of approval completion date
- ▶ Renewal and resubmission - Only require any changes in the original submission documents to be submitted and not the entire package.
- ▶ Allow porta potties on cultivation sites
- ▶ Not fully agreed to but saw a lot of heads nodding - Multi-year licenses should be made available.
- ▶ Transfer of ownership language reads one way, but intent is to allow for easy transfer of ownership, so language need to reflect this.

Thank you for your time and  
consideration. Questions?

#### Summary from study

EDC setbacks are significantly larger than any other county

All counties except EDC use LiveScan or State and have definitions and background checks that coincide with DCC/DOJ

Background checks are objectively defined

Lighting is consistent across all counties except EDC (i.e. 25 watts sq/ft)

Several allow for on site consumption

EDC has the lowest number of licenses issued when compared to other counties who legalized

Most counties allow non-volatile manufacturing to be done on site.

Only EDC defines parcel and premise as the same thing

Several counties consider cannabis an AG crop and AG manages the process

Many counties issue multi-year (up to 5) licenses

Every county except EDC allows for a specialty cottage license <- 2500 sq/ft

Fees should start when permit is actually usable

Resubmittal of entire application package is unnecessary and should not be a requirement of renewal

Length of time to get permitted - Nevada County is 3-6 months

Allow for operations while fulfilling conditions with a deadline for completion

Remove November, 2019 variance language - This basically disallows anyone from moving to EDC to receive a CCUP that needs any kind of a waiver.

Not in any particular order or priority.

Not in ordinance

- Agriculture not commercial
- Potential DTC and on site consumption
- Speed, or lack thereof to complete process
- Multi year licenses
- Specialty cottage license
- Annual fees to start when conditions are completed or allow for operations to begin while conditions are completed
- Remove need to resubmit entire package each year

From ordinance

- Remove seeds from cannabis definitions. No thx and feds consider hemp
- Change definition of Indoor cultivation to allow for propagation (the ability to grow for seeds or clones for business use)
- Manufacture and process/processing have same definitions
- Mixed light definition needs to be changed
- Premises and parcel need to be distinct, not the same
- Remove setback waiver language re November, 2018 date
- CEQA individual or county EIR. Goes to Ag Discussion
- Background check, change ownership definition to conform to state definition. Remove need for spouses, and all other non-decision makers to have check.
- Site plan to show propagation areas (from above)
- County cannot control crop size as there are other issues with Eid etc
- Background checks to be objective. Follow state guidelines.
- 2 hour be available for inspection is unreasonable. Vacations, travel, etc. designated local contact
- Square foot tax needs to be changed to gross sales. Tax collector agrees
- Transfer of ownership needs to be fixed
- Fines. Need to be enforced by code enforcement and not sheriff
- Revocation for flagrant violations, not small ones. Growing pains for all.
- Neighbor continual notification is not needed and no other business is required to do this
- Grow sizes. Emulate state regs
- Setbacks are significantly more than any other county
- Odor testing by qualified folks
- Allow indoor, manufacturing, distribution for outdoor cultivation. Public safety issue. Think vineyard.
- Lighting. Under 25 for mixed light. Over 25 for indoor. As long as neighbors are not disturbed, could remove this altogether.
- Allow porta potties

Several of the above should and could apply to all pieces of the ordinance.

## CHAPTER 130.41. - COMMERCIAL CANNABIS

### Sec. 130.41.100 - Commercial Cannabis Activities Permitting and Enforcement.

1. Applicability.
  - a. The purpose of this Section is to provide for the permitting and enforcement procedures to regulate commercial cannabis activities that are independently authorized in a separate chapter. Nothing in this Section is intended to authorize any commercial cannabis activity.
  - b. While the ordinance from which this Section is derived was originally enacted by voters, the Board of Supervisors retains discretion to amend the ordinance in any way, including but not limited to all procedures provided herein, permit requirements, and penalties, without further voter approval.
2. Definitions. The terms and phrases in this Section, any County Code authorizing a commercial cannabis activity, and [Chapter 3.22](#) (Taxation of Commercial Cannabis Activities) shall have the meaning ascribed below, unless the context in which they are used clearly suggests otherwise. For any term not defined, the definition shall be that given by the State in the most current cannabis statutes or regulations.

*Canopy* means the designated area(s) at a licensed premises, calculated in square feet, that will contain mature plants at any point in time, as follows:

**Deleted:** manufacture, salt, derivative, mixture, or preparation of the plant, its seeds, or resin. "Cannabis" also means the separated resin, whether crude or purified, obtained from cannabis.

- 1) For indoor and mixed-light cultivation and nurseries, canopy shall be calculated in square feet and measured using the room boundaries, walls, or ceiling-to-floor partitions of each enclosed area that will contain mature plants at any point in time, including all of the space(s) within the boundaries. If mature plants are being cultivated using a shelving system, the surface area of each level shall be included in the total canopy calculation.
- 2) For outdoor cultivation and nurseries, canopy shall be calculated in square feet and measured using physical boundaries of all area(s) that will contain mature plants at any point in time, including the space within the boundaries. Canopy may be noncontiguous, but each unique area included in the total canopy calculation shall be separated by a physical boundary, such as a fence, hedgerow, garden plot, or other stable, semi-permanent structure that clearly demarcates the canopy edge.

  - b. Location. Outdoor or mixed-light commercial cannabis cultivation shall not be located within 1,500 feet from any school, place of worship, park, public library. Distance shall be measured from the nearest point of the property line of the premises that contains the commercial cultivation to the nearest point of the property line of the enumerated use using a direct straight-line measurement. A new adjacent use does not affect the continuation of an existing use that was permitted and legally established under the standards of this Chapter.

Notwithstanding the prior issuance of a permit, the County may require installation of one or more odor control options, which may include but are not limited to the use of a greenhouse or hoop house that includes activated carbon filtration or equivalent odor abatement control equipment on the air exhaust, a vapor-phase odor control system, increasing the required setback, growing fewer plants, or growing only low odor cannabis strains. Installation of certain odor control options may require a permit. Any such notice requiring the use of one or more odor control options will provide a deadline for completion and the dilution threshold will be retested upon expiration of that deadline. The continued odor in excess of seven DT one hour upon retesting will constitute a violation of this Section subject to enforcement, abatement, and revocation of a Commercial Cannabis Use Permit and Commercial Cannabis Annual Operating Permit under Section 130.41.100 and Article 5, Section 130.54.090 (Revocation or County Mandated Modification of a Permit).

The activities associated with the cultivation of cannabis shall not create erosion or result in contaminated runoff into any spring, wetland, stream, creek, river, lake, or body of water.
- f. **Water Conservation Measures.** Cannabis cultivation operations shall include adequate measures that minimize the use of water for cultivation at the site. Water conservation measures, including but not limited to underground drip irrigation, soil moisture monitoring, water capture systems, grey water systems, or other equally effective water conservation measures, shall be incorporated into the cultivation operations in order to minimize the use of water where feasible.
- g. **Screening.** Cannabis shall be screened from public view so that no part of a plant can be seen from an adjacent street or adjacent parcel. Screening shall be accomplished by enclosure within a greenhouse or hoop house or by use of fencing or vegetation. All greenhouses, hoop houses, and fences shall comply with all building and zoning codes and any other applicable law or regulation. Greenhouses and hoop houses are the preferred means of screening.
- h. **Security and Wildlife Exclusionary Fencing.** Areas where cannabis is cultivated, the premises on which cannabis is cultivated, or a portion thereof that includes the cultivation area shall be secured by a minimum six-foot high solid wood or chain link wildlife exclusionary fence, such as cyclone or field game fencing, with locked gates built in compliance with building and zoning codes. All gates shall be lockable and remain locked at all times except to provide immediate entry and exit. A chain link fence is not sufficient for screening. - (2) It is more likely than not that any amount of funding for the commercial cannabis operation will be or was derived from illegal activity.
- (3) It is more likely than not that sales and income from the commercial cannabis operation will not be truthfully reported; or
- (4) It is more likely than not that cannabis will be illegally provided or sold to individuals under the age of 21.

Additionally, under state law, disqualifiers are typically felony convictions, or other crimes set forth in Section 26057 of the California Business and Professions Code. These convictions may include, but are not limited to the following:

#### Monitoring Program

Under County Code Section 130.41.100(8), all Commercial Cannabis Annual Operating Permits shall require the applicant(s) participation in a county-run monitoring program. The monitoring program shall be funded by the applicant(s) and will be used to conduct on-site visits and inspections of all commercial cannabis activities and verify compliance, including but not limited to all requirements of County Code and any site-specific permit conditions and state regulations, including the state track-and-trace requirements. Additionally, the El Dorado County Sheriff's Office will conduct bi-annual inspections, on/or about the sixth month permit anniversary, or at any time with or without notice. The El Dorado County Board of Supervisors shall, by resolution or ordinance, adopt such fees necessary to implement this monitoring program. **Failure to comply with these conditions may result in revocation of the Commercial Cannabis Use Permit, lack of renewal of a Commercial Cannabis Annual Operating Permit, or other administrative, civil, or criminal enforcement action, including the potential destruction of cannabis plants/products and/or asset forfeiture.**

#### Security Plan<sup>6</sup>

All applicants for a Commercial Cannabis Use Permit must present a completed security plan for review and will be required to comply with the security plan as a condition of approval. The following, at a minimum, must be included in a security plan and must be functioning prior to the commencement of operations. The minimum-security measures include:

- Perimeter Security System (i.e., physical fencing, locks, alarms, or other methods of limited access). Please note all fencing must strictly comply with the El Dorado County's Codes and Ordinances.
- Adequate perimeter lighting must be inside and around the exterior of the premises and maintained in working order. All lighting must strictly comply with County's Codes and Ordinances,<sup>7</sup> including:
  - a. Plans that identify all lighting on the lot demonstrating that all lighting will comply with the security standards outlined herein.
