I object to the name change of the El Dorado County Arts Council to Culture of El Dorado County. The current structure of the current organization has only been in existence since 2015. In reading through their research paper partly funded by the county in which they hired an outside consultant to determine " A new take on Culture" for their Master Plan of El Dorado County.

In my experience with this organization they have not worked to understand and embrace our existing culture and art that is a historic part of El Dorado County but rather have been working to centralize, change and control the arts within El Dorado County.

I ask that you not agree to change the name of the El Dorado County Arts Council. They, as far, do not represent the "Culture of El Dorado County" and should not be given the title that makes that assumption.

Thank you for your consideration.
