Board of Supervisors  
330 Fair Lane  
Placerville, CA 95667

Dear Board of Supervisors,

Per the Public Records Act, I am requesting the following:

Documents that show the Silva Valley Interchange debt will stay in Zone 8.

Documents that indicate what El Dorado County's financial share is for the Southeast Connector, and how that sum was determined.

Documents showing what the true window is, (60, or 90 days) and when it will expire, within which the County can amend the Southeast Connector's JPA Financing Plan.

Any and all documents which declare if and at what level the County's Taxpayers have been or will be exposed, to the debt being incurred by Southeast Connector JPA?

Regarding the Pollock Pines I.D. Committee being created:

1. A Copy of the rules and regulations the Committee will be functioning under and by what authority.
2. Documentation as to the area boundary lines this committee will have jurisdiction over.

Thank you,

Sue Taylor
