Supervisors,

Regarding the SPT Corridor on the BOS agenda today, There should be background information provided, beyond public comment.

Questions to ask:

1. Is this item time critical? What are the next action dates when determinations are needed? Shouldn't this have been dealt with earlier?
2. Shouldn't this item be considered by the Trails Advisory Committee so the committee can advise the Park and Recreation Commission, and the Board of Supervisors?

This is another case of items coming straight to the Board of Supervisors, by passing the appropriate advisory committees. Let the advisory structure work as an avenue for input for the people of the County.
