To: Planning Department <planning@edcgov.us>

Dear Planning Department,

P.C. 03/14/24
Item #3
2 pages

I am writing to bring to your attention the variances currently under consideration, with a particular emphasis on the pressing issue of our housing crisis. As you are well aware, the state of California has been actively advocating for the construction of Accessory Dwelling Units (ADUs) by private property owners as a means to alleviate the housing shortage.

Given the urgency of the situation, it is important that we prioritize the creation of 'generation' housing to meet the escalating demand. The proposed variances are integral to the development of several subdivisions, which align with the state's objectives in addressing the housing crisis.

I urge you to carefully consider the broader implications and societal benefits of granting these variances. By doing so, we can take significant strides towards ameliorating the housing shortage and providing much-needed relief to our communities.

Thank you for your attention to this matter, and I trust that you will make a decision that reflects the urgency and importance of the housing crisis.
