

In stream trash and mercury recovered by gold dredgers on South Fork of the American River.

You can see the trash at the bottom of the river.

Removal of trash and mercury from our river beds by the local Gold Dredgers

Gold

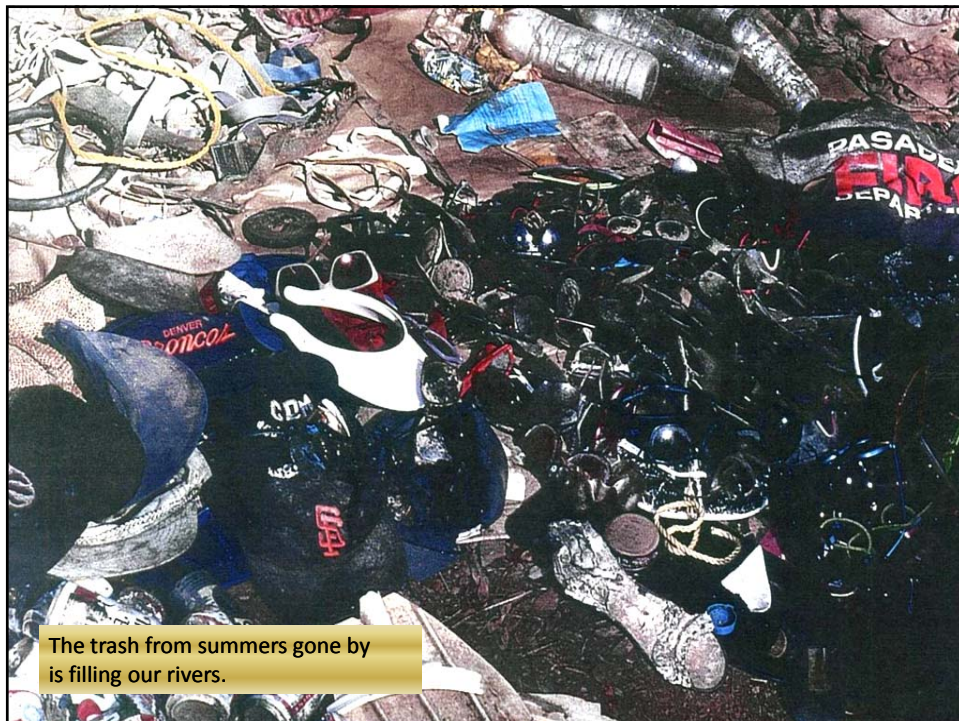

Removal of lost money and other lost items while suction dredging for gold.

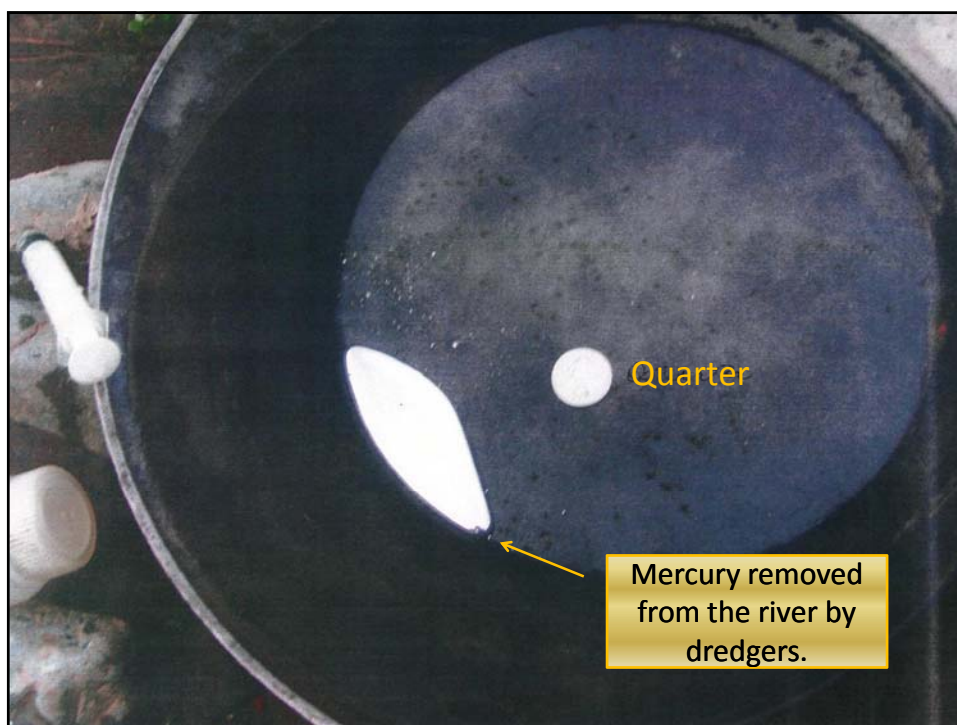

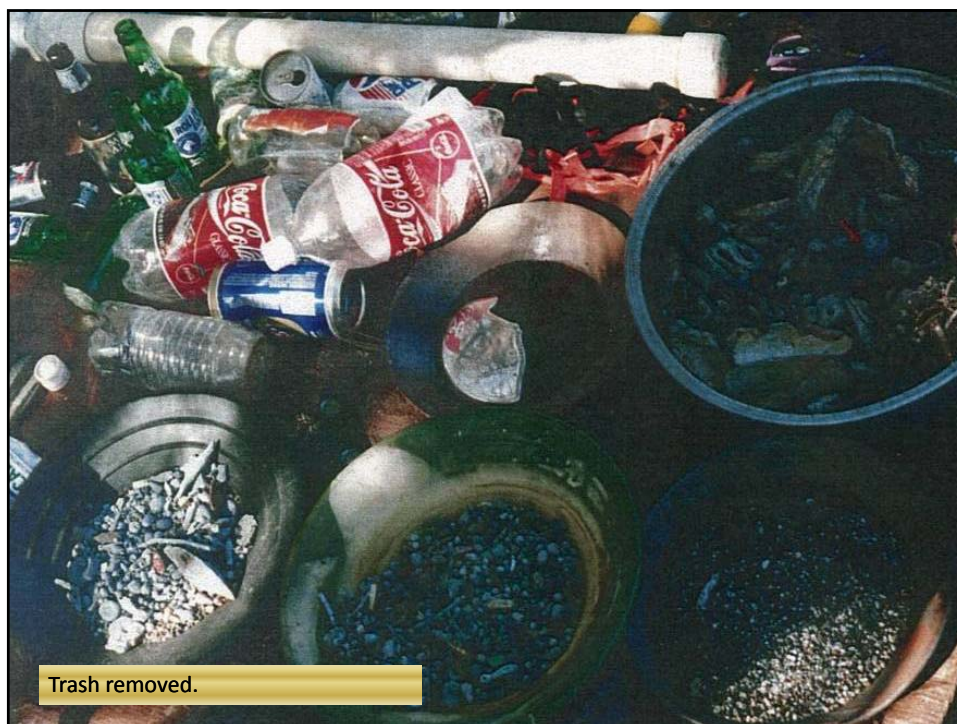

Lead weights and other toxic and dangerous items.

Did anyone loose a paddle?

The trash from summers gone by is filling our rivers.

Who will take this trash out of the rivers with the suction dredgers gone?
