9	Too many groups are seeking to change the monument to thier own criteria and standards. Uphold the monument's design and stop trying to change it. Recognize that no additional plaques or benches can be installed because there is no more space under the current design. Maintain the remaining bricks for engraving for those veterans who live or have lived in EDC. Keep the uniform design of the bricked areas and stop adding non-authorized grey granite markers, which have never been approved under BOS criteria.	1/22/2025 2:06 PM

8	Veterans Affairs Commissioners are obligated to oversee all matters and issues dealing with Veterans in El Dorado Co. Those responsibilities should include receiving all applications for bricks, stones and plaques to be placed in the monument area. The Commissioners should have the power to delegate to the Veterans Alliance for processing. Part of that process is a review by federally-recognized veteran organizations chartered in El Dorado County ie. VFW, AMERICAN LEGION, MARINE CORPS LEAGUE, FLEET RESERVE ASSOC., DAV, and their suggestions/recommendations be considered. After processing the veteran's alliance submits approved applications back to the commissioners where they present to the Board of Supervisors. The Veteran Service Officer's only responsibility is to verify documents presented. His job is to assist veterans and families in filing for veterans' benefits and entitlements. He is not to be involved in monument issues.	2/5/2025 11:03 AM

It's rare, but needed and deserved. Eliminate the sentence reading, "As of November 11, 2006, no further integration ..." 3. Specify that only Memorial Bricks and Memorial Benches are available for public purchase. 4. Correct the wording, "Recipients of Medals of Valor, i.e., Medal of Honor, Service Crosses or the Silver Star, or any person or unit who, while serving with the military, distinguishes him/herself in action by extraordinary heroism. 5. Include statement specifying that once a memorial is placed, it shall not be modified, relocated or removed, unless it is determined by the VSO that claims on it are false. 6. The proper legal term would be, "federally recognized and/or congressionally chartered veteran organizations within El Dorado County." 7. 16	I remain concerned that assigning the VSO to approve all memorials is unnecessary and will reduce service to veterans and the public. Instead, the VSO should only vet military records. 99% of applications for memorials are routine and require no extensive review. Only those claiming Medals of Valor, multiple Purple Hearts or special units (Navy Seals, Special Forces, Army Rangers, Astronauts) require the VSO's attention. By requiring the VSO to review every application, the County risks generating lots of bad will among veterans and their families (due to delays) and reduced services to veterans who urgently need the VSO's full attention.	1/31/2025 11:27 AM

23	Management should examine all parameters regarding this issue and decide to enforce policy and law and/or persistent violators. This is not a decision that can be left to people that are not appraised of all relevant parameters. No policy is useful unless enforced and consequences for violators are administered. We elect officials and they create a justice system to do that. Juries of peers can be appointed after indictments. They can decide based on evidence. Has the criteria been enforced? Has it been violated? What are the consequences?	1/28/2025 6:28 PM

33	If the various stakeholders cannot agree on the monument's honoraria the Board of Supervisors should not let any changes occur. They tasked County staff to resolve these issues in 2021 and the staff has not done so, forcing the Board to be referees instead of strategically minded caretakers of the monument. Restricting honoraria to engraved bricks for EDC veterans will not change the monument's design, whereas others continue to seek implementing changes which they have not justified as necessary. Remove the Veterans Alliance from the monument's management; they have caused many of the problems facing the monument's governance because they claim they have sole authority of the monument. They don't--the monument belongs to all the people of El Dorado County and was established through the generosity of public funding and benefactors. We should honor what was created, in form and governance, and stop trying to make it something other than what was built and approved by previous Supervisors. If local veterans want to recognize everyone and everything through additional honoraria, the Board of Supervisors should recognize the current monument cannot support all those independent wishes. If others want to recreate the monument, perhaps they should do what the monument's founders did...raise a million dollars, obtain suitable land, design their own monument to support thier personal wishes, and stop interfering with the current monument.	1/22/2025 2:06 PM
