

Memorandum of Understanding

This Memorandum of Understanding (MOU) between Raley's and Sacramento County OES, El Dorado County OES, Placer County OES, Contra Costa County OES and Sonoma County OES reflects the parties' understanding as follows:

1. Raley's is providing each County listed above with a Water Purification Trailer, 20 gmp, see attachment of trailer specifications, at no cost to each County.
2. Each County agrees that it will be responsible to store the trailers, maintain the trailers in good working order, and make the water purification trailers available within their county to assist citizens where there is limited supply of drinking water or no drinking water.
3. Through CAL OES, State-wide Mutual Aid Agreement, if requested, each County will make the water purification trailers available to other communities that need assistance with purified water.
4. The five trailers will be delivered to Sacramento County OES Facility at 3720 Dudley Blvd, McClellan CA. The manufacturer will provide a 2-3 hour seminar on the use of the trailers and instructional guides at no cost to each County. Raley's obligation with respect to provision of these trailers ends with this delivery.
5. Each County will be responsible to take possession of its trailer at the Sacramento County OES Facility. Upon taking possession, each County will own and be solely responsible for its respective trailer, and for the transportation of the trailer to the County for storage and use.

Please sign and return via email to Raley's attn.: Helen Singmaster at hsingmas@raleys.com and Dave Tognetti at dtognett@raleys.com. When Raley's has all signed Memorandums of Understanding from participating counties, we will then provide a signed master set to all counties for their files.
