

CALIFORNIA TRANSPORTATION COMMISSION
Adoption of Proposition 1B Letter of No Prejudice (LONP) Guidelines
December 10, 2009

RESOLUTION LONP1B-G-0910-01

- 1.1 WHEREAS the Highway Safety, Traffic Reduction, Air Quality, and Port Security Bond Act of 2006, approved by the voters as Proposition 1B on November 7, 2006, authorized the issuance of \$19.925 billion in State general obligation bonds for specific transportation programs intended to relieve congestion, facilitate goods movement, improve air quality, and enhance the safety of the state's transportation system, and
- 1.2 WHEREAS the state's current economic condition has placed these programs at risk due to the difficulty in selling bonds and the lack of bond funds, and
- 1.3 WHEREAS Assembly Bill 672, signed by the Governor on October 11, 2009, authorizes approval of a Letter of No Prejudice (LONP) for projects programmed or otherwise approved for funding from Proposition 1B programs, and
- 1.4 WHEREAS the LONP allows the regional or local agency to expend its own funds and incur reimbursable expenses for any component of a program project prior to actual allocation of Proposition 1B funds, and
- 1.5 WHEREAS approval of LONPs for Proposition 1B projects will benefit both the State and regional agencies in allowing projects to begin construction that otherwise would be delayed, and
- 1.6 WHEREAS the legislation authorizes the California Transportation Commission (Commission) to adopt guidelines to establish a process to approve LONPs for projects programmed or otherwise approved for funds from Commission administered Proposition 1B programs, and
- 1.7 WHEREAS the Commission provided draft guidelines to local agencies for comments and held a workshop on the proposed guidelines on December 9, 2009 in Sacramento,
- 2.1 NOW THEREFORE BE IT RESOLVED that the Commission adopts the Proposition 1B LONP guidelines, as presented by staff on December 10, 2009, and
- 2.2 BE IT FURTHER RESOLVED that the purpose of these guidelines is to identify the Commission's policy and expectations for the LONP and thus to provide guidance to eligible applicants and implementing agencies in carrying out their responsibilities under the program, and
- 2.3 BE IT FURTHER RESOLVED that the Commission directs staff to post these guidelines on the Commission's website and requests that the Department assist Commission staff in making copies available to eligible implementing agencies.

Proposition 1B Bond Letter of No Prejudice Guidelines

1. Authority and Scope: Government Code Section 8879.501, added by Chapter 463 (AB 672) of the Statutes of 2009, authorizes the California Transportation Commission (Commission) to adopt guidelines to establish a process to approve a Letter of No Prejudice (LONP) for one or more projects or project components that the Commission has programmed or otherwise approved for funding from the following Proposition 1B programs:

- Corridor Mobility Improvement Account (CMIA)
- State Route 99 Account (SR 99)
- Trade Corridors Improvement Fund (TCIF)
- Local Bridge Seismic Retrofit Account (LBSRA)
- Traffic Light Synchronization Program (TLSP)
- State-Local Partnership Program Account (SLPP)

The LONP applies only to the Proposition 1B funds programmed or otherwise approved for the project.

The Commission may amend these guidelines at any time after first giving notice of the proposed amendments.

2. LONP for TCIF: In programming TCIF, the Commission programmed approximately 20 percent more than the \$2.5 billion available from the TCIF and the State Highway Account (SHA). This over programming assumed that new revenue sources would become available and be dedicated to funding the adopted program. New revenue for the TCIF program now appears unlikely to materialize in the current economic environment. Therefore, the Commission does not intend to approve LONPs for TCIF projects until a reasonable level of confidence in availability of these new revenue sources is achieved, or the program is prioritized commensurate with available TCIF and SHA funds.

If SHA funds are programmed to the project, the LONP request for TCIF funds must be accompanied by a request for SHA allocation. If SHA funds are not available for allocation, the LONP request will be deferred until the SHA allocation can be made.

3. Intent of LONP: A regional or local entity that is a lead applicant agency under one of the programs referenced in Section 1, with the exception of TCIF, may apply to the Commission for an LONP for the program project. If approved by the Commission, the LONP allows the regional or local agency to expend its own funds (incur reimbursable expenses) for any component of the project (in practice, Proposition 1B funds are generally programmed for construction). A region's own funds are any non-state funds available to the region, including federal funds. This does not relieve the regional or

local agency from the applicable match requirements of the program. The match must be spent along with the funds replacing bond funds, in accordance with program guidelines.

It is the intent of the Commission to give equal opportunity for allocation of available funding to applicants with an approved LONP, as well as those that require an allocation in order to begin or continue work on a project. The Commission further intends that applicants considering the use of an LONP have the most accurate information available to assess the likelihood of allocation and reimbursement as planned. Applicants proceed at their own risk, as reimbursement of the LONP is dependent on availability of Proposition 1B bond funds.

4. Submittal of LONP Request: LONP requests shall be submitted to the Department of Transportation (Department) by the applicant in accordance with established timeframes for project amendments to be placed on the agenda for timely consideration by the Commission.

In order to be considered by the Commission, an LONP request shall:

- Be signed by a duly authorized agent(s) of the applicant agency and implementing agency if different.
- Include all relevant information as described in Section 5.
- Indicate that the implementing agency is ready to start (or continue) work on the project component covered by the LONP request (likely construction).
- Have a full and committed funding plan for the component covered by the LONP request.
- Indicate anticipated schedule for expenditures and completion of the component.

5. Content and Format of LONP Request: The Commission expects a complete LONP request to include, at a minimum, the following information as applicable:

- A letter requesting LONP approval, including a summary of the following information as applicable.
- Documents needed for obtaining concurrent Commission approval of any needed actions such as a project programming request or project/baseline agreement amendment, in accordance with appropriate program guidelines and standards.
- Alternate local funding source(s) that will be substituted for the bond funds and a demonstration of commitment of those funds (e.g., resolution, minute order) from its policy board.
- An expenditure schedule for the component covered by the LONP.
- If jointly funded with funds from the State Transportation Improvement Program (STIP), a STIP allocation request or STIP AB 3090 request must be included.
- LONP requests must include documentation for Commission review of the final environmental document and approval for consideration of future funding, as appropriate.

6. Review and Approval of LONP Requests: The Department will review LONP requests for consistency with these guidelines and place the requests on the Commission meeting agenda. The Commission will consider requests for LONPs that meet the

guidelines, except for LONP requests for components jointly funded with funds requiring concurrent action, such as:

- The STIP, which shall be dependent upon concurrent approval of the STIP allocation or STIP AB 3090 request, and
- Other Proposition 1B funds, which may be dependent upon concurrent LONP approval from the appropriate administering agency (such as the Department for PTMISEA funds).

An LONP will only be granted for work consistent with the approved project's scope, schedule and funding.

Upon Commission approval of an LONP, the Department will execute a cooperative agreement or Master Agreement/Program Supplement with the implementing agency. Although the agency may begin work once the LONP is approved, an agreement must be in place before the Department can provide reimbursement for eligible project expenditures.

7. Initiation of Work: The project component covered by an approved LONP should be ready to proceed to contract award (or equivalent) once the LONP is approved. The agency shall report to the Department within four months following LONP approval on progress in executing agreements and third-party contracts needed to execute the work.

8. Monitoring Progress of Projects with a LONP: The agency with an approved LONP shall report on progress to date in accordance with the applicable bond program guidelines. This report should include expenditures to date, work completed, problems and issues with the project, and any funding plan updates for the project.

9. Project Changes: Proposed changes in funding, schedule or project scope must be approved by the Commission in accordance with the applicable bond program guidelines, including a concurrent LONP amendment if necessary.

10. Diligent Progress and Rescinding a LONP: If progress reports from an agency on a project with an approved LONP show that diligent progress is not being made in completing the project, the Commission may request that the agency explain its lack of progress. The Commission may rescind the LONP or may direct the agency to demonstrate diligent progress within the next reporting period. If the Commission finds the agency is not pursuing project work diligently, the Commission may rescind the LONP. If an LONP is rescinded, an allocation to reimburse expenditures to date is at the discretion of the Commission.

11. Allocations for LONPs: Upon completion of the component covered under an LONP approved by the Commission, the agency may send a request to the Department to have its LONP reimbursed with an allocation by the Commission. The agency shall identify the source(s) and expenditures of all funds used in completing the component for which the agency is seeking an allocation from the Commission. The agency must show expenditures of the applicable match for the bond funds, if required for the project. The

Department will place the request for allocation on the agenda for timely consideration by the Commission.

If sufficient Proposition 1B bond allocation capacity exists, an agency with a partially completed component may request an allocation for reimbursement of eligible costs to date and to convert the remaining LONP to a standard allocation for periodic reimbursement for the remainder of the component.
