Supervisors,

This is a short Ted talk by Dawn Emerick the person who worked under Colleen Bridger for five months before resigning. Colleen's not someone we would want to bring in. Please watch.

## The El Dorado County Board Of Supervisors

### To all the Supervisors:

I am writing this letter with deep concern and opposition of the possible employment of Colleen Bridger from San Antonio, Texas. I oppose her position. For many reasons I have determined she is unfit for the job. In 2019, She went from being Metro Health Director to being assistant city manager. Dr. Dawn Emerick went through an extensive interviewing process and was hired to take her place as Metro Health director. I have taken the time to dig deep online and there are quite a few articles one from the Santorio Report. I saw that Dr. Dawn Emerick under the leadership of Colleen Bridger, had only held the position for five months.

I then found Dr Dawn Emericks TED TALK. I could clearly see that she was abused by her former boss. Take the time and watch her TED TALK. Clearly Colleen Bridger does not play well with others. It is her way or the highway. Colleen was also on the list among others that sued our Federal government, for the cruise lines not having strict enough COVID protocol. I believe from articles and information I have received that Colleen Bridger is a tyrant, verbally abusive and if things don't go her way, she will slap a law suit on this county for what ever reason.

I have been happy seeing how our county is moving forward with COVID protocol. At this point I'm hoping we have all learned a lot. I have learned the vaccines have killed over 200,000 people in the SAERS report, which is under reported. I have learned that government protocol in the hospitals is a drug called Remdesavir, they give you 5 treatments that by the 5th you are lucky if you don't have heart, liver, neuropathy and lung embolisms or death. So many people are getting cancers now after the vaccines and other ailments. We have a God given immune system that works amazing. Nobody talks about that. In Sonoma County, the Sheriff has filed a criminal case into the charges of Crimes against Humanity regarding the COVID injections, case number #220125009. It is happening in the U.K. they are being sued for crimes against humanity. I would hate for that to happen in this county. Having a COVID police at this point in the game such as Colleen Bridger would be a step down. Times have change. Governments are being held accountable. She would take this county deep down into Crimes Against Humanity and held accountable. Please make the right decision.

Sincerely

Amanda Reinhard

Dear Board Members,

I am concerned about this contract in general and I am concerned about the recommended wording on the agenda that authorizes the HHS Director, or his designee to make significant amendments to this contract, including changes to the scope, without coming back to the Board of Supervisors. I strongly recommend that part 3 of this recommendation be eliminated or significantly tightened up.
