

Conditions of Approval

1. This Conditional Use Permit is based upon and limited to compliance with the project description, Conditions of Approval set forth below, and the hearing exhibits marked:

Exhibit H.....Site Plan
Exhibit K.....Security Plan

Any deviations from the project description, exhibits, or conditions must be reviewed and approved by the County for conformity with this approval. Deviations may require approved changes to the permit and/or further environmental review. Deviations without the above described approval would constitute a violation of permit approval.

The project description is as follows:

The project includes a Commercial Cannabis Use Permit (CCUP) for the construction and operation of a cannabis cultivation facility on 5.5 acres of premise for medicinal and adult-use recreational cannabis. The first cannabis cultivation compound (Site 1) would contain approximately 45,000 square feet (sf) of cannabis cultivation while the second compound (Site 2) would contain approximately 30,000 sf of cultivation. Additionally, the project would include a 1-acre nursery operation, a 2,000-sf main building with an office and processing room, a 2,500-sf building with storage and drying rooms, and a solar array system to power the proposed structures. Up to twenty-four (24) greenhouses would be installed on Site 1 and up to fourteen (14) greenhouses would be installed on Site 2. The proposed greenhouses would each be approximately 2,700 sf (30' x 90') and combined would house a maximum of 2 acres of cannabis cultivation at any one time in addition to the proposed 1-acre of nursery.

Phase I of the proposed project would solely consist of outdoor cultivation, totaling approximately 45,000 sf of cannabis canopy at Site 1. Eventual buildout of Phase II would add approximately 30,000 sf cannabis canopy at Site 2. The 30,000 sf of cannabis canopy proposed in Phase II would be housed within approximately fourteen (14) greenhouses. Phase II would also include construction of twenty-four (24) greenhouses on Site 1 to convert the 45,000 sf of outdoor cannabis cultivation to mixed light cannabis cultivation. The greenhouses are anticipated to be 2,700 sf each and would include solar panels on their roofs to power the proposed mixed light cannabis cultivation. The final sizes of the greenhouses would be determined upon final project design and is subject to variation. The total cannabis cultivation area after the final buildout of Phase II would not exceed two acres of cannabis cultivation at any one time, plus the nursery growing area. The two acres of cannabis cultivation may be a mix of outdoor and mixed light as the project transitions. The total square footage of greenhouses at maximum capacity (when Sites 1 and 2 are completely built out) would be approximately 120,000 sf (3 acres) and consist of 2 acres of cannabis canopy with 1 acre of nursery/commercial nursery.

The Owner of the project approved in this CCUP is Cybele Holdings.

The development, use, and maintenance of the property, the size, shape and the protection and preservation of resources shall conform to the project description above and the hearing exhibits and conditions of approval below. The property and any portions thereof shall be sold, leased or financed in compliance with this project description and the approved hearing exhibits and conditions of approval hereto. All plans must be submitted for review and approval and shall be implemented as approved by the County.

Planning Services Division

2. **Permit Implementation:** In Compliance with County Code Section 130.54.060, implementation of the project must occur within 24 months of approval of this Commercial Cannabis Use Permit or the permit becomes null and void. It is the responsibility of the applicant to monitor the time limit and make diligent progress toward implementation of the project and compliance with conditions of approval.
3. **Conditions Compliance:** Prior to issuance of a building permit or commencement of any use authorized by this permit, the applicant shall provide a written description, together with appropriate documentation, showing conformance of the project with each condition imposed as part of the project approval. The applicant shall also schedule an inspection by Planning Services prior to initiation of cultivation for verification of compliance with applicable Conditions of Approval.
4. **Payment of Processing Fees-Development Services:** The applicant shall make the actual and full payment of Planning and Building Services processing fees for the use permit and building permit prior to initiation of cultivation.

5. **Heritage Resources:** In the event a heritage resource or other item of historical or archaeological interest is discovered during grading and construction activities, the project proponent shall ensure that all such activities cease within 50 feet of the discovery until an archaeologist can examine the find in place and determine its significance. If the find is determined to be significant and authenticated, the archaeologist shall determine the proper method(s) for handling the resource or item. Grading and construction activities may resume after the appropriate measures are taken or the site is determined not to be of significance.

6. **Archeological Resources:** In the event of the discovery of human remains, all work shall cease and the County coroner shall be immediately notified pursuant to subdivision(c) of Section 7050.5 of the Health and Safety Code and Section 5097.98 of the Public Resources Code. The coroner shall make his or her determination within two working days from the time the person responsible for the excavation, or in his or her authorized representative, notifies the coroner of the discovery or recognition of the human remains. If the coroner determines that the remains are not subject to his or her authority and if the coroner recognizes the human remains to be those of a Native American, he or she shall contact, by telephone within 24 hours, the Native American Heritage Commission. The Native American Heritage Commission will immediately notify the person it believes to be the most likely descendant of the deceased Native American.

Upon the discovery of the Native American remains, the landowner shall ensure that the immediate vicinity, according to generally accepted cultural or archaeological standards or practices, where the Native American human remains are located, is not damaged or disturbed by further development activity until the landowner has discussed and conferred, as prescribed in Section 5097.98 of the Public Resources Code, with the most likely descendants regarding their recommendations. The descendants shall complete their inspection and make their recommendations or preferences for treatment within 48 hours of being granted access to the site. The descendants' preferences for treatment may include the nondestructive removal and analysis of human remains and items associated with Native American burials or other culturally appropriate treatment in accordance with Section 5097.98(b). Any additional costs as a result of complying with this section shall be borne by the project applicant. The project applicant may continue grading and construction activities may resume after complying with Section 5097.8(e).

7. **Indemnity:** In the event of any legal action instituted by a third party challenging the validity of any provision of this approval, the developer and landowner agree to be responsible for the costs of defending such suit and shall hold County harmless from any legal fees or costs County may incur as a result of such action.

The developer and land owner shall defend, indemnify, and hold harmless El Dorado County and its agents, officers, and employees from any claim, action, or proceeding against El Dorado County or its agents, officers, or employees to attack, set aside, void, or annul an approval of El Dorado County concerning this approval and all other approvals for this Project, including but not limited to all future Commercial Cannabis Annual Operating Permits.

The permittee and all Owners shall defend, indemnify, and hold harmless the County of El Dorado and its agents, officers, elected officials, and employees for any claims, damages, or injuries brought by affected property owners or other third parties due to the issuance of a permit or the commercial cannabis activities and for any claims brought by any person for problems, injuries, damages, or liabilities of any kind that may arise out of the issuance of a permit or the commercial cannabis activities.

The County will notify the applicant of any claim, action, or proceeding, and the County may cooperate fully in the defense.

8. **Change in Ownership:** In the event of any change of ownership of the subject parcels, change in the operator, or any change in business ownership, it is the responsibility of the future owners or operators to ensure all changes are consistent with this Commercial Cannabis Use Permit, Commercial Cannabis Annual Operating Permit, the El Dorado County General Plan, Zoning Ordinance, and all applicable standards in place at such time. Pursuant to Section 130.41.100.5.E, “A Commercial Cannabis Annual Operating Permit is not transferrable and automatically expires upon any change of ownership to the applicant that results in a new owner or owners or new funding source. Before or upon the transfer of the business or addition of a new owner, an application for a new Commercial Cannabis Annual Operating Permit must be submitted. While the Commercial Cannabis Use Permit may be transferred, upon issuance of the new Commercial Cannabis Annual Operating Permit, conditions to the Commercial Cannabis Use Permit and Commercial Cannabis Annual Operating Permit may be added or removed. The Director of Planning and Building may require a decision by the Planning Commission to impose any new conditions or remove any existing conditions of a Commercial Cannabis Use Permit or Commercial Cannabis Annual Operating Permit under this subsection consistent with Article 5, Section 130.54.070 (Revisions to an Approved Permit or Authorization).”
9. **Mixed Light Shielding:** The greenhouses shall be shielded so little to no light escapes. Light shall not escape at a level that is visible from neighboring properties between sunset and sunrise.
10. **Track and Trace:** All state licensees associated with operations on the project parcels shall provide read only access to the California Cannabis Track and Trace (CCTT) system to track the movement of cannabis and cannabis products through the supply chain. Access shall be provided when requested by the County.

11. **Setbacks:** All cultivation and nursery use areas shall meet the 800 foot setback as shown on the site plan.
12. **Screening:** Cannabis shall be screened from public view so that no part of a plant can be seen from an adjacent street or adjacent parcel. Screening shall be accomplished by enclosure within a greenhouse or hoop house or by use of fencing or vegetation.
13. **Regulatory Consistency:** Commercial cannabis activity shall be conducted in compliance with all laws and regulations as set forth in the El Dorado County Zoning Ordinance and the California Code of Regulations, as may be amended from time to time, as applicable to the permit type.
14. **Inspections:** The permit holder and subject property owner are to permit the County or representative(s) or designee(s) to make inspections at any reasonable time deemed necessary to assure that the activities being performed under the authority of this permit are in accordance with the terms and conditions prescribed herein. The property owner and operator shall Consent for onsite inspection by County officials during the permittee's regular business hours and outside of the permittee's regular business hours if the County has reason to believe that violations are occurring outside of regular business hours.
15. **County and State Compliance:** The premises shall be in full compliance with all other applicable requirements of State law and the County Code, including but not limited to the building, safety, sanitation, labor, and technical codes and requirements relevant to obtaining necessary building, plumbing, electrical, mechanical, grading, or other permits, inspection of structures requiring permits, and, as appropriate, the issuance of certificates of occupancy. All structures on the premises shall be permitted as required by Title 130of the County Code. "Structures", for purposes of this paragraph, shall have the same meaning as it does in California Health & Safety Code § 18908.
16. **Exterior Lighting:** All lighting provided in conjunction with facility security or other lighting not associated with the cultivation of live plants shall be installed, directed downward and away from nearby property lines, and shielded to confine all direct rays of light within the boundaries of such facilities.
17. **Generators:** No generator shall be used for any cultivation activities, including pumping, except as an emergency backup to another power source. The term "emergency", for purposes of this provision, means a temporary outage of the primary power source due to circumstances that are verifiably beyond the permittee's control and unrelated to non-payment of a utility or other vendor providing or servicing the primary power source.

18. **Cannabis Taxes:** Timely payment shall be made of the Commercial Cannabis Activities Tax and all other applicable County taxes and assessments, including providing information related to such taxes and assessments to the County Treasurer-Tax Collector and Assessor upon request. Upon request, permit holder shall also provide County Treasurer-Tax Collector and Assessor all records identifying the Distributors from which cannabis products were purchased and the quantities and price for each purchase.
19. **Odor Control Plan:** The operating permit holder and property owner shall implement all of the recommended measures in the odor control plan (Exhibit I, Appendix A).

The business operator shall ensure that air filtration and ventilation equipment is maintained in good working condition and monitored on an on-going basis to limit potential adverse odor emission impacts to employees and/or properties located in the vicinity of the business.

Any cannabis odor shall not be equal or greater than a seven dilution threshold ("DT") when measured by the County with a field olfactometer at the property line on which the commercial cannabis activity occurs for a minimum of two olfactometer observations not less than 15 minutes apart within a one hour period ("seven DT one hour"). If the odor from a commercial cannabis activity violates this subsection, the permittee must reduce the odor below the seven DT one hour at property line threshold within 30 days of the verification of a violation.

20. **Security Plan Compliance:** At all times, the operating permit holder and the property owner shall comply with the security plan reviewed and approved by the El Dorado County Sheriff's Office and shall operate and maintain a real-time access of the surveillance video for the Sheriff's Office. Video footage must be given to El Dorado County Sheriff's Office upon demand.
21. **Disposal of Waste Material.** Cannabis waste material shall be disposed of in accordance with existing state and local laws and regulations at the time of disposal. Burning of cannabis waste material is prohibited.
22. **Monitoring Program (Section 130.41.100.8).** All Commercial Cannabis Annual Operating Permits shall require the applicant's participation in a County-run monitoring program. The monitoring program shall be funded by applicants and will be used to conduct site visits and inspections of all commercial cannabis activities and verify compliance, including but not limited to all requirements of County Code and any site specific permit conditions and State regulations, including the State track-and-trace requirements.

23. **Violation Notification:** The Permit Holder shall notify the Sheriff's Office within three (3) days of any notices of violations or other corrective action ordered by a State or other local licensing authority, and provide copies of the relevant documents. Permit Holder is required to comply with applicable state law and state regulations at all times. Failure to do so shall constitute grounds for suspending or revoking this permit, and denying any renewals and/or modifications to the permit.
24. **Revocation After Three Violations (Section 130.41.100.7).** In addition to revocation of a Commercial Cannabis Use Permit or Commercial Cannabis Annual Operating Permit under Article 5, Section 130.54.090 (Revocation or County Mandated Modification of a Permit), upon receipt of any combination of three administrative citations, verified violations, or hearing officer determinations of violation of any of the permit requirements or standards issued to one or more of the owners or operators at any property or combination of properties of one or more of the same owners or operators within a two-year period, the Commercial Cannabis Annual Operating Permit shall be nullified, voided, or revoked, subject to prior notice and appeal under Section 130.54.090 (Revocation or County Mandated Modification of a Permit) and the Commercial Cannabis Use Permit may be revoked, subject to prior notice and appeal under Section 130.54.090. Upon revocation, an application for a Commercial Cannabis Annual Operating Permit to reestablish a cannabis operation by one or more of the same owners or operators or at the subject property shall not be accepted for a minimum period of two years. If only the Commercial Cannabis Annual Operating Permit is revoked under this Section, reissuance shall be subject to the procedures to issue a Commercial Cannabis Use Permit, including hearing before and decision of the Planning Commission and any new or amended conditions may be added to the Commercial Cannabis Use Permit.
25. **Designated Local Contact:** The Designated Local Contact is Lee Tannenbaum. No Commercial Cannabis Use Permit or Commercial Cannabis Annual Operating Permit may be issued unless a current name and contact information for a Designated Local Contact is included. The Designated Local Contact must be available by telephone on a 24-hour basis, seven days per week and be able to respond to the County within two hours and corrective action, if required, must be completed within the time requested by the County. Any change to the Designated Local Contact shall be approved in advance and is subject to a background check consistent with Section 130.41.100.4.G. Each Commercial Cannabis Annual Operating Permit shall include the name of the Designated Local Contact and any change to the Designated Local Contact shall require a revised Commercial Cannabis Annual Operating Permit.

No less than one week before commercial cannabis operations commence, the permittee must notify the property owners and residents of property located within 1,000 feet of the perimeter of the parcel(s) upon which the commercial cannabis operations will occur and provide the name and contact information for the Designated Local Contact. Complaints made to the Designated Local Contact by any member of the public must be responded to within 24 hours of the initial complaint and corrective action, if required under any State or local law or regulation, must commence within a reasonable time based on the nature of the corrective action required. Complaints by any member of the public shall be logged in writing and the complaint log, including any corrective action taken, shall be provided to the Building and Planning Department annually with the application to renew the Commercial Cannabis Annual Operating Permit.

The permittee must immediately notify the County and owners and residents of property located within 1,000 feet of the perimeter of the parcel(s) upon which the commercial cannabis operations occur of any change to the Designated Local Contact or change to the telephone number for the Designated Local Contact.

Mitigation Measures

26. **Mitigation Measure BIO-1: Pre-Construction Survey for Special-Status Species**

A pre-construction survey for special-status species shall be performed by a qualified biologist prior to project construction to ensure that special-status species are not present. If any listed species are detected, construction shall be delayed, and the appropriate wildlife agency (CDFW and/or USFWS) shall be consulted and project impacts and mitigation reassessed.

If construction or tree removal activities would occur during the nesting season (February 1 through August 31), a pre-construction survey for the presence of special-status bird species or any nesting bird species shall be conducted by a qualified biologist within 500 feet of proposed construction areas. If active nests are identified in these areas, CDFW and/or USFWS shall be consulted to develop measures to avoid “take” of active nests prior to the initiation of any construction activities. Avoidance measures may include establishment of a buffer zone using construction fencing, the postponement of construction activities or tree removal until after the nesting season, or until after a qualified biologist has determined the young have fledged and are independent of the nest site.

Monitoring Responsibility: El Dorado County Planning and Building Department.

Building Services Division

27. **Grading Permit:** The applicant shall submit an application for a commercial grading permit for those areas shown to be used for cultivation on the approved site plan. The permit shall be finalized prior to initiation of any cannabis related uses on the property.

County of El Dorado Air Quality Management District (AQMD)

28. **Fugitive Dust:** Future project construction will involve grading and excavation operations, which will result in a temporary negative impact on air quality with regard to the release of particulate matter (PM10) in the form of dust. A Fugitive Dust Mitigation Plan (FDP) Application with appropriate fees shall be submitted to and approved by the AQMD prior to start of project construction if a grading permit is required from the Planning and Building Department. Mitigation measures for the control of fugitive dust shall comply with the requirements of Rule 223, Fugitive Dust – General Requirements, and Rule 223.1, Fugitive Dust – Construction, Bulk Material Handling, Blasting, Other Earthmoving Activities and Trackout Prevention.
29. **Paving:** Project construction may involve road development and shall adhere to AQMD Cutback and Emulsified Asphalt Paving Materials (Rule 224).
30. **Painting/Coating:** The project construction may involve the application of architectural coating, which shall adhere to AQMD Rule 215 Architectural Coatings.

31. **Open Burning:** Burning of wastes that result from "Land Development Clearing" must be permitted through the AQMD. Only dry vegetative waste materials originating from the property may be disposed of using an open outdoor fire (Rule 300 Open Burning).
32. **Construction Emissions:** During construction, all self-propelled diesel-fueled engines greater than 25 horsepower shall be in compliance with the California Air Resources Board (ARB) Regulation for In-Use Off-Road Diesel Fueled Fleets (§ 2449 et al, title 13, article 4.8, chapter 9, California Code of Regulations (CCR)).
33. **New Point Source:** Prior to construction/installation of any new point source emissions units (e.g., tub grinders, conveyors, etc.), Authority to Construct applications shall be submitted to the AQMD. Submittal of applications shall include facility diagram(s), equipment specifications and emission factors. (Rule 501 and 523).
34. **Portable Equipment:** All portable combustion engine equipment with a rating of 50 horsepower or greater shall be registered with the California Air Resources Board (CARB). A copy of the current portable equipment registration shall be with said equipment. The applicant shall provide a complete list of heavy-duty diesel-fueled equipment to be used on this project, which includes the make, model, year of equipment, daily hours of operations of each piece of equipment.
35. **Odors:** Odors that may result from the cannabis cultivation operation shall comply with AQMD Rule 205, Nuisance.

El Dorado County Office of County Surveyor

36. **Addressing:** Applicant will be required to coordinate with the County Surveyor's Office to ensure that all buildings on the subject parcel are addressed in compliance with County Code, Chapter 110.04. Compliance is required with 30 days of approval.
37. **Boundary Determination:** Property boundary determination and mapping required by Section 8762 of the Professional Land Surveyor's Act, shall be conducted by a California Licensed Land Surveyor.

Diamond Springs / El Dorado Fire Protection District

38. **Annexation:** Community Facilities District Approval of the subject project is conditioned on meeting the public safety and fire protection requirements of the County of El Dorado General Plan, which shall include the provision of a financing mechanism for said services. The financing mechanism shall include inclusion within, or annexation into, a Community Facilities District (CFD) established under the Mello-Roos Community Facilities Act of 1982 (Government Code § 53311 et seq.), established by the Diamond Springs / El Dorado Fire Protection District (District) for the provision of public services permitted under Government Code § 53313, including fire suppression services, emergency medical services, fire prevention activities and other services (collectively Public Services), for which proceedings are under consideration, and as such, shall be subject to the special tax approved with the formation of such CFD with the Tract's inclusion or annexation into the CFD.
39. **Fire Flow and Water supply:** An approved water supply capable of supplying the required fire flow for fire protection as per Fire District requirements. Due to the location and water availability issues, use of the El Dorado County Fire Prevention Officers "Fire Water Supply without a Purveyor - Residential & Commercial 5-10-16" Standard is an acceptable alternative for fire suppression and fire sprinkler system water. A set of engineering calculations reflecting the fire flow capabilities of this system shall be supplied to the Fire Department for review and approval.
40. **Underground Private Fire Mains:** After installation, all rods, nuts, bolts, washers, clamps, and other underground connections and restraints used for underground fire main piping and water supplies, except thrust blocks, shall be cleaned and thoroughly coated with a bituminous or other acceptable corrosion retarding material. All private fire service mains shall be installed per NFPA 24 and shall be inspected, tested, and maintained per NFPA 25 California Edition.
41. **Sprinklers:** Commercial building(s) greater than 3600 square feet in size shall have fire sprinklers installed in accordance with NFPA 13, including all Building Department and Fire Department requirements. Buildings which have the capacity of storage above 12 feet in height will need to have the sprinkler system(s) designed to accommodate the appropriate high-pile storage.
 - a. It is understood that due to the rural nature of this project that the required fire flow will not be obtainable. The system may be designed to the El Dorado County Fire Prevention Officers "Fire Water Supply without a Purveyor - Residential & Commercial 5-10-16" Standard in combination with NFPA 13.
 - b. As of 6/10/2020 there are no buildings in the plan that are greater than 3600 square feet.
42. **Fire Detection and Alarm Systems:**

- i. Ensure that the project meets all acceptable current code requirements (California Fire Code (CFC) Title 24, Part 9, Chapter 9 / NFPA 72. Etc.) and all other relevant sections. Examples of applicable codes are:
 - a. 901.2
 - b. 901.4
 - c. 901.5
 - d. 901.6
 - e. 907 (all applicable)
 - f. NFPA 72 modified locally to provide back-up power for 72 hours due to power outages.
 - i. 10.6.7.2 Capacity
 - ii. Ensure that all alarm components are listed and current with the California Office of the State Fire Marshal Listing Service (OSFM).
 - a. Include all current OSFM listings with the submittal
 - b. Include all current device cut sheets with the submittal
 - c. Assure overall compatibility between all components that may be present from prior installations.
43. **Hydrants:** This development shall install Dry Barrel Drafting Fire Hydrants, which conform to El Dorado County “Fire Water Supply without a Purveyor - Residential & Commercial 5-10-16” specifications to provide water for fire protection. The exact location of each hydrant shall be determined by the Fire Department. Per Section 507.5.1 of locally amended code, where required. If a portion of the facility or building hereafter constructed or moved into or within the jurisdiction is more than 150 feet from a hydrant on a fire apparatus access road, as measured by an approved route around the exterior of the facility or building, the applicant shall provide on-site fire hydrants and mains at the location required by the fire code official.
44. **Fire Department Access:** Approved fire apparatus access roads and driveways shall be provided for every facility, building, or a portion of a building. The following conditions pertain only to the project located at 3029 Freshwater Lane, El Dorado, CA 95623 APNs 046-071-011 and 046-071-010 and roads that directly front the described properties. The fire apparatus access roads and driveways shall comply with the requirements of Section 503 and Appendix D of DSP as well as SRA/VHFHSZ Fire Safe Regulations (14 California Code of Regulations Section 1270.00) as stated below (but not limited to):
 - a. For this project, all roadways shall be a minimum of 20 feet wide, providing two ten (10) foot traffic lanes and no parking will be allowed on either side of the roadway. The 20 foot roadway does not include shoulder and striping if it exists.
 - b. Each dead-end road shall have a turnaround constructed at its terminus.

- c. Where maximum dead-end road lengths are exceeded, there shall be a minimum of two access roadways allowing for the safe access of emergency apparatus and civilian evacuation concurrently.
- d. The fire apparatus access roads and driveways shall extend to within 150 feet of all portions of each facility and all portions of the exterior of the first story of the building as measured by an approved route around the exterior of the building or facility.
- e. Driveways and roadways shall have an unobstructed vertical clearance of 15' and a horizontal clearance providing a minimum 2' on each side of the required driveway or roadway width.
 - i. Per the submitted Firesafe plan (Pickett, RPF) there will be a 50 foot vegetation reduction zone on either side of the entire roadway/driveway providing a shaded fuel break.

Depending on the final heights of each building, the final layout of fire apparatus access roads shall be determined and approved by the fire code official with consideration of whether a ladder truck or ground ladders would be used for firefighting operations.

- 45. **Roadways:** Roadways shall be designed to support the imposed load of fire apparatus weighing at least 75,000 pounds and provide all-weather driving conditions. All-weather surfaces shall be asphalt, concrete or other approved driving surface. The project proponent shall provide engineering specifications to support design if request by the local AHJ. The following conditions pertain only to the project located at 3029 Freshwater Lane, El Dorado, CA 95623 APNs 046-071-011 and 046-071-010 and roads that directly front the described properties.
- 46. **Roadway Grades:** The grade for all roads, streets, private lanes, and driveways shall not exceed 16%.
- 47. **Traffic Calming/Security Devices:** This development shall be prohibited from installing any type of traffic calming device that utilizes a raised bump/dip section of the roadway. All other proposed traffic calming devices shall require approval by the fire code official.
 - a. Security road access devices designed for this project will provide for immediate Knox Key deactivation/activation for emergency apparatus.

48. **Turning Radius:** The required turning radius of a fire apparatus access road/driveway shall be determined by the fire code official. Current requirements are 40' inside and 56' outside.
49. **Gates:** All gates shall meet the El Dorado County Regional Protection Standard B-002 and this design standard shall be incorporated into the design and activation of access security devices.
50. **Fire Access During Construction:** In order to provide this project with adequate fire and emergency medical response during construction, all-access roadways and fire hydrant systems shall be installed and in service prior to combustibles being brought onto the site as specified by the Fire Department, Standard B-003. A secondary means of egress shall be provided prior to any construction, or the project can be phased.
51. **Fire Service Components:** Any Fire Department Connection (FDC) to the sprinkler system and all Fire Hydrant(s) outlets shall be positioned so as not to be obstructed by a parked vehicle or vegetation.
52. **Wildland Fire Safe Plan:** This project shall be conditioned to develop, implement, and maintain a Wildland Fire Safe Plan that is approved by the Fire Department as complying with the State Fire Safe Regulations, prior to the approval of the Tentative Map. This project has submitted an acceptable Fire Safe Plan (Pickett, RPF) as of Thursday May 14th, 2020.
53. **Fencing:** Lots that back up to wildland open space shall be required to use non-combustible type fencing.
54. **Knox Box and Keys:** All Commercial or Public occupied buildings shall install a Knox Box and building keys including, but not limited to, main entry doors, utility closets, roof accesses, alarm panels, fire sprinkler locks and all other keys required by the fire code official for emergency access.

55. **Parking and Fire Lanes:** All parking restrictions as stated in the current California Fire Code and the current DSP Ordinance, shall be in effect. All streets with parking restrictions will be signed and marked with red curbs as described in the El Dorado County Regional Fire Protection Standard titled “No Parking-Fire Lane.” All curbs in the parking lot(s) that are not designated as parking spaces will be painted red and marked every 25 feet “No Parking - Fire Lane” and a plan for maintenance created to assure legibility. This shall be white letters on a red background. There shall be a designated plan page that shows all Fire Lanes as required by the El Dorado County Regional Fire Protection Standard B-004 “No Parking-Fire Lane” and the fire code official.
56. **Setbacks:** Any parcels greater than one acre shall conform to State Fire Safe Regulations requirements for setbacks (minimum 30’ setback for buildings and accessory buildings from all property lines).
57. **Vegetative Fire Clearances:** Before June 1st each year, there shall be vegetation clearance around all EVA’s (Emergency Vehicle Access), buildings, up to the property line as stated in Public Resources Code Section 4291, Title 19 as referenced in the CA Fire Code, and the conditioned Wildland Fire Safe Plan.
58. **Knox Key Shunt:** A Knox Key Shunt system shall be installed to terminate power to all back-up power generators.
59. **Addressing:** Approved numbers or addresses shall be provided for all new and existing buildings in such a position as to be visible and legible from the street or road fronting the property, as per El Dorado County Regional Fire Protection Standard B-001.
60. **Landscaping:** The landscaping plan shall be reviewed by the Fire Department to ensure that trees, plants, and other landscaping features proposed to be adjacent to the Fire Apparatus Access roads, Fire and Life Safety equipment, and near address locations on buildings and monuments will not impede fire apparatus access or visual recognition.

61. **Improvement (Civil) Plans:** A Fire plan sheet shall be included in the improvement plans that show or lists all requirements from the Fire Department as they relate to the design of the project. These requirements include, but are not limited to, Fire Lanes (and how they relate to allowed parking), Hydrants, Turning Radius of all turns, Slope % of Roads/Driveways, Points of Egress for the Public and Emergency Personnel, EVA's as required, Road Widths, Gates, etc.
62. **Building and Fire Plans:** Building, fire sprinkler, and fire alarm plans shall be reviewed and approved by the fire department prior to respective permit issuance. The plans shall provide the use and occupancy classification for each building for future comments in regards to fire sprinklers, fire alarms, exiting, occupant loads, and other fire and life safety features. There shall be a designated plan page that shows all Fire Lanes as required by the El Dorado County Regional Fire Protection Standard B-004 "No Parking-Fire Lane" and the fire code official.

El Dorado County Department of Transportation

63. **Employees:** The operation shall be limited to a maximum of twenty (20) employees at any one time.
64. **Trip Generation:** The security plan shall include digital monitoring of vehicular trips to and from the operation, and classification of trips (deliveries, shipments, employees, visitors, etc.). Report the actual trips to the Department of Transportation annually on the Department's Cannabis Operations Trip Generation Form.
65. **Turnouts:** Construct one vehicular turnout on Freshwater Lane, and two vehicular turnouts on the project access driveway. Dimensions of the turn-outs to comply with Section 1273.06 of the 2020 SRA Firesafe Regulations. The location of such turnouts will be determined by the Department of Transportation and the Local Fire Marshall. There are no identified easements on Freshwater Lane, on the property where the turn-out would be constructed. Therefore, the turn-out will only be constructed provided the property owner is willing to allow the construction, and provide an Irrevocable Offer of Dedication (IOD). The applicant shall prepare the IOD. In the event the property owner is unwilling to cooperate, this condition may be waived or modified by the Director of Transportation, after consultation with the Local Fire Marshall.

Auburn Rancheria

66. If any suspected Tribal Cultural Resources (TCRs) are discovered during ground disturbing construction activities, all work shall cease within 100 feet of the find. A Tribal Representative from culturally affiliated tribes shall be immediately notified and shall determine if the find is a TCR within the meaning of PRC Section 21074. The Tribal Representative will make recommendations regarding the treatment of the discovery. Preservation in place is the preferred alternative under CEQA and UAIC protocols, and every effort must be made to preserve the resources in place, including through project redesign.

The applicant shall not resume work at the discovery location until all necessary investigation and evaluation of the discovery under the requirements of the CEQA, including AB 52, has been satisfied.

The contractor shall implement any measures deemed by the CEQA lead agency to be necessary and feasible to preserve in place, avoid, or minimize impacts to the resource, including, but not limited to, facilitating the appropriate tribal treatment of the find, as necessary.
