Summary of qualifications My aviation experiences covers military aviation as a CH-47 D/F aviation officer and pilot, general aviation pilot, and now a part 121, commercial aviation pilot. My experiences have enabled me to experience many different airports throughout the world big and small. While all airports have their unique challenges, the primary concern is safety for the aviators that utilize the airports, and also the citizens and communities that are in the surrounding areas. I graduated college at CSUS and commissioned as an aviation officer. I am an ATP rated fixed wing pilot and also hold a commercial instrument rating for rotorcraft. I will soon be receiving my seaplane and tailwheel endorsement to better take advantage of the beautiful and amazing flying the county and state haBe to offer. I am a advocate of aviation and mentorship to kids that are interested. I ve taught numerous kids in my neighborhoods about aviation and utilize remote controlled (RC) aircraft to share aviation with as this is exactly how I became interested in aviation myself.			
Affiliations with professional and/or community groups None			
Why do you seek appointment? As mentioned earlier, I am a huge advocate of aviation. Due to the nature of aviation in general, I believe properly managed stewardship is key to gaining support and only enhances the community in which it serves. While I have not served in any formal capacity as a board or committee member, my experience and insight would prove invaluable in any assistance a board would need.
