Original Submission	11/01/2024	11/01/2024

Outflows

Outflow Streams Sent

- Non-Green Material for Potential Beneficial Reuse

Outflow Summary

Outflow Stream	Total Tons Sent
Non-Green Material for Potential Beneficial Reuse	390.52

Outflow Methodology

Questions on how outflow tons are determined and jurisdiction of origin is tracked.

Method(s) Used To Determine Tons Sent

- Track outflow amounts based on my own measurements of the following:
 - Track material weight using my own certified scales
- Rely on the receiving facility or business to provide outflow amounts based on the facilities measurement of tons using the following methods:
 - Track material weight using facility certified scales

Outflow Detail by Material Stream

Non-Green Material for Potential Beneficial Reuse

Organization/Site	Reporting Entity Name (RDRS #)	Tons Sent	Material Type(s)
Potrero Hills Landfill, Inc.	Potrero Hills Landfill, Inc (RD10775)	390.52	Biosolids
Total		390.52	

Organics Measurement

Question	Answer	Notes For 0 Entry
Is your reporting entity a composting or an in-vessel digestion operation, or do you have at least one dependent composting and/or in-vessel digestion operation on site that is active and required to report?	No	

Review Flags

Review and Submit Status (Flags generated and reviewed)

Severity	Status	Source	Type	Description
Informational	N/A	Outflows	Tons of total material sent out for disposal different than prior years same quarter by significant amount (exceeds threshold).	The total tons of MSW sent to disposal facilities and/or other transfer/processors in 2024 Q3 by your facility was significantly different (50% or more) than the amount sent out in the prior year same quarter. This flag appears to notify you of significant change in outflow and help you determine if there are any data entry errors or issues in reporting accuracy in your report.
Informational	N/A	Outflows	Tons of total material sent out for potential beneficial reuse (Green and non-green) different than prior years same quarter by significant amount (exceeds threshold).	(non green material) The total tons of non green material potential beneficial reuse sent to disposal facilities and/or other transfer/processors in 2024 Q3 by your facility was significantly different (50% or more) than the amount sent out in the prior year same quarter. This flag appears to notify you of significant change in outflow and help you determine if there are any data entry errors or issues in reporting accuracy in your report.
