RECEIVED
PLANNING DEPARTMENT
To whom it may concern,

We Moses and Michelle Soria live at 1015 Pleasant Valley Road, which is 3 properties away from the proposed Verizon Cell Tower site.

We feel this is a good thing because we have very limited cell coverage and next to no options for internet and we feel that the cell tower would increase our options for coverage.

Sincerely,

Moses and Michelle Soria

To whom it may concern:

I wanted to give a response to
Project WP24-0002/Diamond Spring Village Monopine

My husband and I live next door to
the property where the proposed project
will be. We are looking forward to this
as we live in an area that has very poor
cellular coverage and limited internet options

We are hoping this tower will bring more
opportunities for cellular & internet.

Sincerely,

Moselle Gonzales
