Why do you seek appointment? I believe my skillsets would make a positive difference in supporting responsible growth for our county. I am a creative-thinker able to find new ways of looking at chronic problems. This county is going through an identity crisis; there are significant differences between urban and rural needs while both groups are seeking ways to provide services with limited revenues available. We need to leverage what makes our county unique and special to create sustainable revenue growth. Currently, housing is the key opportunity for revenue growth. Our county should also focus on attracting businesses that will bring in highly skilled jobs. Many workers are moving to EDC from the Bay area and working virtually. Intel may be closing its Folsom facility. I see our business parks in EDH and CP are underutilized yet should offer a great opportunity to give our economy a needed refresh and revamp. I would work toward finding high tech employers, and other forward thinking businesses.			
Additional Information I am a successful investor in the stock market. This requires an ability to evaluate markets and companies servicing those markets to find price gaps and/or opportunities for company growth. I am an avid volunteer and appreciate giving back to my community. I have volunteered as an AARP tax preparer. I have been a volunteer at Holy Trinity and St. Francis High School for various school events but also led the creation of a used uniform program to allow parents to afford uniforms for their children. I am also a volunteer at the Food Bank helping our community.
