Project Narrative

The El Dorado County Victim Witness Program has been in operation since 1980. The program started with two half time positions, and after 34 years the Victim Witness Grant funds two full time Program Specialist (2.0 FTE) and one part time Program Specialist (.22 FTE). It is anticipated that the District Attorney will fund one part time Program Specialist and one full time Program Specialist. The Program Specialists are generally referred to as advocates. Without the District Attorney assisting the program financially, services to victims would substantially decrease. Although the advocates are proficient at maximizing and prioritizing the services to crime victims, the demand for services has increased. Additionally, the demand for advocate time in court has significantly increased due to an upswing in the number of trials and criminal grand jury cases each year. Trials can take an advocate out of the office for several days or weeks, which reduces the amount of advocate time available to provide outreach to new victims'. The South Lake Tahoe office has been unstaffed for several years. In order to provide coverage to the Tahoe area, the advocates in Placerville have rotated their time traveling to Lake Tahoe when requested for interviews, court support, or to meet with a victim. Unfortunately, the travel time reduces the amount of advocate time in the office. The absence of an advocate has had an impact on victims in that region. It is anticipated that the advocate position being funded by the District Attorney will be partially based in South Lake Tahoe.

The US Census Bureau estimates that as of 2014, El Dorado County's population was at 183,087. Of the 183,087 people living in this county, approximately 75% of the county's residents live in rural areas. The two incorporated cities in El Dorado County are Placerville and South Lake Tahoe. As the majority of the residents reside outside of the city limits, public transportation options are limited, making it difficult for citizens to access available services. The Victim Witness Program is tasked with providing services to crime victims for the entire county

with only a limited number of advocates. Additionally, the program will no longer have a coordinator position. The loss of this position will increase the workload of the existing staff, as the coordinator also carried a full case load. The program will be monitored by the Program Manager. The Program Manager, who is funded by the District Attorney, would oversee all program responsibilities; including grant oversight, and supervision of staff, but would not have a case load.

The program continues to experience a high volume of referrals, making it difficult for staff to handle the influx of victims needing assistance. Priority is given to violent offenses, with property crimes handled on a referral basis. Restitution assistance is in high demand, and can be very time consuming. The grant mandates the service, but limits our involvement. These limits can often create issues with the victims, the court, the District Attorney's Office, and Probation. Diplomacy is necessary in handling some of the issues with restitution. Regardless, the advocates are instructed to stay within the parameters of the grant guidelines. Additionally, the advocates play a part in the lifer hearing process. The advocate will notify the victim's family of the parole hearing, the process, input at hearings, and arrange the gate passes with CDCR victim services unit. In addition to the above demands, the District Attorney's office has started a cold case murder team, which includes an advocate. The advocate will make an initial contact with the family of the murdered victim, and will determine services that the family may be entitled to receive. Statistically, El Dorado County has seen a 27% increase in rapes, 35% increase in robberies and a 10% increase in domestic violence from 2013 to 2014.

Volunteers, although required, have been difficult to recruit and retain. In most cases, applicants want to intern for a semester. Given the background check and the required training, there is usually very little time left in a semester for actual volunteer hours. Additionally, as staff

time is already stretched to capacity, the additional time for training and supervision is difficult to provide. Volunteers continue to be an issue with this program.

Plan and Implementation:

The El Dorado County Victim Witness Program has two locations. The primary office is located at 532 Main Street, Placerville 95667. The phone number is (530) 642-4760. The Lake Tahoe Office is located at 1360 Johnson Blvd. Suite 105, South Lake Tahoe 96150. The phone number is (530) 573-3100. Due to the mountain driving, inclement weather, and the distance between the two cities, all government services have an office in both locations to better serve the public. The Program Manager and contact person for the program is Christy Lillie. The confidential phone number is (916) 337-0616. During the 2015/2016 FY, the Victim Witness grant will fund two full time Program Specialist and one part time Program Specialist (2.22 FTE). It is anticipated that the District Attorney will fund one full time (1.00 FTE) Program Specialist, and one part time Program Specialist (.78 FTE), and the cost of all operating expenses.

The Victim Witness Program is located in the District Attorney's Office, which utilizes a paperless system called PCCS. All criminal cases and documents, including law enforcement reports are within this system. This system provides live updates while the Deputy District Attorneys are in court. This has allowed staff to inform victims of their case status in a timely manner, and increases the communication between the victim, advocate, and the prosecutor. Additionally, the District Attorney's Office utilizes the Damion computer program. The Victim Witness Program has a module within Damion and PCCS which allows staff to record and track their own cases, monitor criminal cases, and document contacts and services. The Damion program also allows staff to retrieve data for statistical reporting. Advocates are available to the Deputy District Attorneys for in-house training, interviews, and court assistance. There are currently three Deputy District Attorneys assigned to domestic violence cases, and sexual

assault cases. All other crimes are spread out among the other nineteen prosecutors in the office.

The grant funded advocates have received the required certifications from the California Victim Services Training Institute. Additionally, staff is encouraged to seek local training opportunities that will enhance the services provided by our office. This includes the use of Webinar training, which is typically provided at no cost.

Although the Victim Witness Program is short staffed, every effort is made to ensure that no victim will be turned away. Program staff has the ability to use the District Attorney's computer program to print out all incoming law enforcement reports. This allows staff to expedite contacts and provide outreach to victims. Staff is currently handling violent offenses first, and property crimes secondary, as time allows. However, if a property crime victim contacts our office, services are provided immediately. Upon receipt of a referral, the advocate will contact the victim via phone or in person, and offer services. The services offered would include all of the mandatory and optional services, as determined necessary for the well-being of the victim. Referrals from the Deputy District Attorneys for court support are given priority as an immediate need to the victim. The District Attorney's support staff sends out a restitution claim form and a Marsy's notification brochure to all victims where there is a criminal filing. This allows all victims to be notified of their rights, and provides the victims with the Victim Witness Program's phone number and address as a resource.

In addition to the Victim Witness Grant, the program has a Joint Powers Agreement with the California Victim Compensation Program. Advocates will assist victims in completing the Victim Compensation Claim. However, eligibility questions and claim status questions are referred to the Claim Specialist.

Referrals are made from other agencies, such as; Law Enforcement, Probation, Child Protective Services, Adult Protective Services, DV/Sexual Assault Centers, Courts, and Hospitals. An outside agency referral is handled the same as an in-house referral. The advocate will review the report, evaluate the victim's needs, and make contact with the victim. If a referral is not related to the type of services that Victim Witness provides, the advocate will follow-up with the agency or victim to provide a resource referral to the appropriate agency. Referrals will be made to Live Violence Free in South Lake Tahoe, and The Center for Violence Free Relationships (The Center) in Placerville for assistance with DV restraining orders, shelter, or other issues that a domestic violence or sexual assault victim may require. The Victim Witness Program has an ongoing operational agreement with the two centers to coordinate services to victims of domestic violence, and sexual assault victims, including children of sexual and/or physical abuse. Additionally, the District Attorney's Office has a Domestic Violence Grant that funds one full time investigator and contracts with The Center for a full time Domestic Violence Advocate. This Domestic Violence Advocate will handle services to domestic violence victims on the western side of El Dorado County. The services will be coordinated with the Victim Witness advocates, as there will be times when both parties are involved with a case.

The Victim Witness Program will conduct field visits as required by the victim. A vehicle is always available for the advocate's use. The program has a TTY phone system set up in each of the offices for individuals who are hearing impaired, and a list of local sign interpreters is maintained in the office. Staff must rely on volunteers and other agencies for translation services for non-English speaking clients, with the exception of Spanish speaking, as two of our advocates are bi-lingual, English/Spanish. The special needs of a victim are typically evaluated prior to the initial contact. If a law enforcement report indicates the victim is disabled, non-

English speaking, hearing impaired, or elderly, staff will take appropriate measures to ensure that there is no interruption of services, or communication issues with the victim. A wheelchair is provided to clients who have difficulty walking to Court, and interviews. In most cases, if it is determined that a victim has a special need, staff will conduct a field visit rather than asking the victim to travel to the office. The Victim Witness Office in Placerville and South Lake Tahoe meet the ADA access requirements. As previously noted, every effort is made to ensure that the victim with special needs receives the same quality of service as all victims.

Brochures, business cards, and posters are provided to local agencies, local hospitals, and law enforcement. Presentations and training is provided to various agencies, public and private. Law enforcement is asked to carry the Victim Witness brochures in their patrol cars, and provide the brochures to victims of crime at the time of the report. The program has a Spanish version of the Victim Witness brochure available for Hispanic clients.

A three year Operational Agreement is in place for the grant years of 2015 through 2018. The agreement details the expectations of each agency, including training needs, networking, and regular meetings. Both, The Center for Violence Free Relationships and Live Violence Free provide services to domestic violence victims, and sexual assault victims. Services are provided to both adults and children. The advocates provide training to the Women's Center staff and their volunteers. A signed copy of the Operational Agreement is maintained at the Victim Witness Office.

A current organizational chart and a listing of the multiple field offices are included in the grant appendix.

The program will continue to recruit volunteers. As previously stated in the problem statement, there have been some issues with the recruitment and retention of volunteers in our program. The average background check takes about a month to process, and includes a fairly extensive and invasive questionnaire, which tends to discourage many applicants. Secondly, there is no funding available to send volunteers to the (40) hour entry-level training. This limits the exposure of the volunteers to certain types of victims, and certain types of services. Lastly, office space and computers are limited to paid staff, making it difficult to use volunteers in the office. Currently in-house training is provided to volunteers by the Program Manager, and experienced advocates. Supervision and volunteer job assignment is the responsibility of the Program Manager. Volunteers will be used to provide out-reach services to new victims, restitution assistance, and other services as training and supervision allows. In an effort to increase the recruitment of volunteers, the District Attorney's Office and the Victim Witness Program will be working with California State University Sacramento, and Folsom Community College to recruit interns. All volunteers maintain a time sheet for documentation purposes.

Budget Narrative

The 2015/2016 budget includes salaries and benefits for two full time program specialists and one part time program specialist. The part time program specialist budgeted at .22 FTE, was reduced to meet the appropriated funding level. The total budget for salaries and benefits is \$178,310. There are no operating costs or equipment purchases budgeted this year.

The program coordinator position has been eliminated, and will be replaced by a program manager, who is funded by the District Attorney's budget. The program manager has received both the entry level and advanced advocate level training. Additionally, the program manager was previously an advocate in this program for approximately 4 years. The program manager will be responsible for over site of the program, grant compliance, and preparation of the progress reports.

All Qualifications set forth by the County's employment standards, and certification from the California Crime Victim Assistance Association/CalOES have been met by all of the Program Specialists.

The Program Specialists funded by the grant will be assigned Victim Witness grant responsibilities. All Program specialists will spend their time providing direct services to victims of all types of crime.

Job descriptions are included in this grant application, and certificates available upon request. All positions maintain times sheets. Any split funded positions maintain detailed time sheets as well.

While the grant application instructs that we budget for two trainings, the funds are being used in their entirety towards salary and benefits. The cost of the training for the program manager will be absorbed by the general fund. Any operating expenses, including, but not limited to, security system, utilities, communications, office supplies, and memberships will be absorbed by the general fund.

There are no subcontracts or unusual expenses, and no mid-year salary range adjustments.

7. PROGRAM DESCRIPTION

El Dorado County has an estimated population of 183,087. There are two incorporated cities in El Dorado County, Placerville and South Lake Tahoe. Approximately, 75% of the population resides in the areas outside of the city limits. As a popular tourist destination, South Lake Tahoe's population substantially increases throughout the year. Due to the distance between the two cities, the mountain driving, and inclement weather, government services are duplicated in each city. The Victim Witness Program is located at 532 Main. St. Placerville, CA 95667, and at 1360 Johnson Blvd. South Lake Tahoe, CA 96150. The grant funds 2.22 FTE Program Specialists. The District Attorney funds the Program Manager, and if funds are available, 1.78 FTE Program Specialists.

8. PROBLEM STATEMENT

The cost to run the program has out paced the funding amount provided by this grant. As a result, grant funded positions have been reduced. While we anticipate that the District Attorney will fund 1.78 FTE positions, this decision will be based on the availability of funds in his budget. Staff prioritize outreach efforts to victims of violent crimes, and property crimes, secondary. While advocates handle referrals immediately, including property crimes, program staff can not make contact with every victim. The District Attorney's support staff send out a Marsy's brochure and notification letter to each victim of a filed case. The material has our contact information, which allows victims to contact our office for services. This has increased the number of calls from victims needing assistance. Without additional funding, many victims will go without services.

9. OBJECTIVES

We anticipate providing initial services to 1300 new victims and 100 witnesses during FY 15/16. While it is difficult to estimate total services to new and continuing victims, we expect to provide at least 8,000 services to all victims in FY 15/16.

Volunteers will be recruited to assist with out reach services to victims and handle incoming calls. Due to workspace issues and the availability of computers, we can only use one volunteer at a time.

10. ACTIVITIES

The first priority is to handle the in-custody arraignment list which is sent to our office daily. Once filed, an advocate will contact the victim with the filing information, evaluate for services, and provide the victim with their Marsy's information. All victims receive a Marsy's Brochure, a notification letter, and a restitution claim form. Victim's are provided with our contact information for any questions about their case and/or services. Upon request of the victim, the advocates with provide follow up contact and services. Referrals are always handled immediately. Volunteers will be used to provide outreach services to victims, and assist with victim compensation applications.

All contact information and statistics are maintained in a program called Damion. The District Attorney's office also utilizes a program called PCCS, which helps staff to communicate with the DDA's, and allows staff to receive live updates on cases.

11. EVALUATION (if applicable)

The Program Manager will oversee the operation of the program and provide on site evaluations to ensure grant compliance, statistical reporting, and preparing the progress reports. Site visits are done by CalOES. The Program Manager reports directly to the District Attorney.

12. NUMBER OF CLIENTS

(if applicable)
 1300 New victims
 50 Witnesses
