Why don't you utilize the existing former juvenile hall facility on Fair Ln, off of Forni Rd.?

To Whom:

We're not really going to build a homeless shelter in Placerville and succumb to this horrible idea that this will in some way help our local addicts. It will only create an avenue for more crime and a more unsafe place for working parents to raise their children. Vote no.

I'm very surprised that Wendy would vote a "yes" on this – I certainly hope this is not going to be the case.

Sincerely concerned.

Hello Board,

This is Gay Willyard and as I sat and listened to the four of the Supervisors that are voting for this monstrosity to be built to start the demise of the peace and tranquility of our wonderful community.

I hope you do realize that the three million eight hundred thousand dollars that are going to help approximately 70 people is \$54,285.71/per person per space. That's before adding water, PG&E and Fire Hydrant costs into the equation. And we all know how expensive that is. And then there's the matter of the building the ROADS! OMG!!! How can you live with yourselves to Justify this and you say, it's only for two years? Who are you kidding? Not all of us were born yesterday, and I really hate it when someone tries to insult my intelligence by thinking I'm dumb enough to buy into your stupidity.

Is the Sierra Harm Reduction Coalition going to be kept away? Are they? How would you know? You don't even know how many homeless people will even be willing to live in a place like this because they won't be able to live in it on their terms, that's why they live like and how they do.

I think if this was truly to be used as a pilot project, the Pallet Homes and the Sheriff's plan would be a much better way to go. They only cost ten to twenty thousand per home. It's not your headache, your problem, or your reputation on the line and if it fails, it's not on you!!!

The only thing that can make any sense at all for building the downfall of our community is the Grant money, which is taxpayers money. They don't make money from the Mint for us to use as Grant money, in case you are not aware.

Gay Willyard

--

Thank you,

Gay Willyard

El Dorado County Board of Supervisors,

I would like to express my extreme opposition to the proposed Homeless Navigation Center.

I would like to remind you that you have been elected to carry out the will of your constituents, not to carry out the desires of your own self interests.

This Homeless Navigation Center, and any others like it, are not going helpful in the "homeless crisis" in EDC. It is not hard to look around, what was once the great state of California and see that these absurd homeless programs do not help, but are making things considerably worse. Our state is being destroyed! This community has held off destruction from these policies, but if this plan goes forward, we will be in the same position as the rest of California. Please do not make this grave mistake and, instead, let EDC be a guiding light to the rest of California. If the proposed Navigation Center goes forward and brings in a REAL homeless crisis, as displayed in the rest of the state, tax paying citizens will leave in droves! There will be no one left to pay for all of the people and programs that destroy more lives than improve them.

We all know, or should know, that the problems people have with mental illness and addiction and, in turn, homelessness, often stem from the destruction of families! This happens because of divorce, neglect of relationships, lack of desire to work and general laziness. The sense of entitlement society is creating people, starting in public schools, is the reason people to have no self worth. Of course one gets depressed and reaches for drugs when they have not given any effort to making something of themselves! If people didn't expect things to be handed to them, regardless of whether they have earned it or not, they wouldn't be in these unfortunate positions.

Let's address the real issues, instead of being a model of the rest of this God-forsaken state. The only resolution we could have will come from dealing with the root of the problems. Throwing money, "free" housing and drugs at hurting people will only further the chaos.

You're going to be stuck with the mess, as the rest of us will be forced to leave. We will make the difficult choice to leave our homes in EDC. We will move our families and our tax dollars to other states and communities, which comprehend the consequence of their tax paying constituents.

Thank you for your consideration.

Sincerely,

Maggie Boling
