Program Summary

<u>Air Quality</u> Positions: 9.0 FTE Extra Help: \$0 Total Appropriations: \$10,157,020 Total Revenues: \$10,157,020 Net County Cost: \$0

The Air Quality Management District (AQMD) administers the California and Federal Clean Air Acts via guidelines set forth by State and Federal Agencies and the AQMD Rules established by the Board of Directors. These requirements are implemented through a variety of permitting, inspection, and enforcement activities including: emission control requirement compliance verification, Naturally Occurring Asbestos dust control, fugitive dust control, burn rule enforcement, 24 hour complaint investigation, land development project review and promotion of transportation control measures that improve air quality.

Revenue is generated from stationary source permit fees, construction dust mitigation plan fees, Federal Targeted Airshed Grant (TAG) funding, motor vehicle registration fees, State funding for Portable Equipment Registration Program (PERP), State grant funding for ag equipment through the FARMER program, subvention funding for rural districts, annual Carl Moyer Program allocations, AB197 and AB617 grant funds, and other sources. Stationary source permit fees are adjusted annually based upon changes to the California Consumer Price Index and in accordance with the AQMD Rules.

AQMD funds shuttle projects, bike paths, road paving, bus retrofits/replacements, agricultural equipment replacements, and other projects that reduce motor vehicle emissions.

AQMD incentivizes the purchase of electric vehicles and works to expand electric vehicle charging infrastructure throughout the County. The number of Drive Clean! incentives for the purchase or lease of a new EV (electric vehicle) or PHEV (plug-in electric hybrid vehicle) for FY2022/23 is showing a continuing strong level of participation in the program. With legacy manufacturers introducing more eligible EV and PHEV models each model year, we expect this to continue to be a robust and cost-effective incentive program. AQMD is currently working on developing a residential electric vehicle charger incentive program utilizing AB2766 DMV funding and will be bringing a program proposal to the Board for approval in the near future.

AQMD also incentivizes old wood stove removals and replacements through a proven local program and several highly successful enhanced State-funded programs, and last fiscal year we have added an additional enhanced Federally funded program. AQMD's success with the wood stove programs has been recognized by other air districts, and AQMD continues to administer the woodstove replacement programs for Placer County.

In April of 2018, AQMD introduced the Clean Lawnmower Incentive Program (CLIP) which to date has incentivized the replacement of over 900 gas-powered mowers with clean, quiet, battery-powered electric mowers. Recently, the State Air Resources Board expanded the eligibility for this funding to include other residential electric lawn and garden tools and AQMD will soon be rolling out an expanded incentive program.

Starting in 2022, AQMD has provided the County Department of Transportation with Federal Targeted Airshed (TAG) grant funding to double chip seal slurry approximately 9.45 miles of the County's unpaved roads that are located in or near naturally occurring asbestos (NOA) areas. So far, DOT has completed the paving of Oriental Street and Tullis Mine Road. The TAG grant funding is also providing funding for

the El Dorado County Fire Safe Council's biomass chipping program for residences inside the eligible area on the West Slope of El Dorado County.

The Board recently approved AQMD's award of AB923 DMV fund grants for the replacement of eleven (11) school buses from seven (7) school districts which are anticipated to be replaced and funded in fiscal year 2023-24. Additionally, we anticipate the Carl Moyer grant program to fund two (2) previously awarded electric school buses in FY2023-24, three (3) previously awarded pieces of agricultural equipment, as well as additional eligible on and off-road vehicles and equipment from submitted applications. AB2766 grants will continue to fund projects that were previously awarded for calendar year 2022 and 2023, and will fund new projects in the first half of 2024 after the district releases an RFP for calendar year 2024 and 2025 projects.

As in past fiscal years, AQMD continues to perform its objectives successfully and efficiently. Staff salaries and benefits only comprise of 14.34% of the FY 2023-24 budget and total general administrative (non-program) costs comprise only 17.42% of the total budget.

Staffing Trend

AQMD's staffing remained constant for several years after separating from EMD in FY 2010-11. From FY2010-11 to FY2015-16, the County's Community Development Agency provided fiscal services and annually charged AQMD an amount equivalent to the cost of 1.0 FTE. Starting in FY 2016-17, those administrative functions have been performed by a Senior Department Analyst (now Program Manager) employed directly by the District. In FY2018-19, the Board of Directors approved the addition of a Senior Air Quality Engineer to fulfill increased State mandated program requirements, expand the incentive programs and enhance succession planning. Staffing in FY2023-24 remains the same, with no additions or reductions in staff.

CPI Index is determined by the State of California Office of the Director - Research Unit Consumer Price Index : Selecting California CPI, All Urban Consumers, April to April of the prior year. Referenced by Rule 601.4C, 609.4B and 610.3.B.4

California Revenue and Taxation Code Section 2212: "Percentage change in the cost of living means the percentage change from April of the prior year to April 1 of the current year in the California Price Index for all items, as determined by the California Department of Industrial Relations." Due to changes in the manner the California CPI is calculated and reported by the California Department of Industrial Relations starting in 2018, April's CPI number is not available in time to release budget and fee information per California code. The District used the April 2017 - February 2018 CPI change for the FY18-19 fee calculation, are using the February 2018 - February 2019 CPI change for the FY19-20 fee calculation, and will continue using February-February CPI numbers for future years.
