Re: INRMP Stakeholder Advisory Committee

Dear Board Members:

The purpose of this letter is to advise of my willingness to participate as a member of the INRMP Stakeholder Advisory Committee, if you decide that my experience would be of benefit.

For more than 30 years, I have worked in the real estate development field on large and small developments throughout California. In that time, I have worked with Resource Management Plans adopted by local jurisdictions as well as the more complex HCP and NCCP programs involving federal and state wildlife agencies. My background includes a working knowledge of permitting requirements under state and federal regulations, including those relating to listed plant and animal species, impacts to wetlands, and CEQA compliance.

I support comprehensive resource conservation planning such as described in the County's General Plan for the INRMP. The INRMP provides an opportunity to identify and protect the most sensitive and significant resources within the County to mitigate impacts that are expected to result from implementation of the General Plan.

Please contact me if you have any questions, or need additional information.

Very truly yours;

(Sent Via Email)

Cynthia L. Shaffer
