Dear Supervisors,

I support the CIP proposed by John Segerdell and the JPA. He is trying to help out with the El Dorado Trail and I want to work with him to get stuff done!

This CIP has been revised a few times to reflect the wishes of the Trail community in EDC. I have been out on the trail with John and I have meet with him in his office to suggest how the JPA can assist in connecting the EDT to Folsom and the American River Parkway. I know that any trail work in EDC will be initiated and managed by the Vickie Sanders, EDC Parks Manager, but I support the idea of the JPA helping to fund this trail work. We know that the JPA has 100k cash in the bank and I want to help direct the EDC portion of this money.

This CIP proposal has the JPA paying \$4000 for the Environmental Study for the Folsom "GAP". The Gap is the Folsom and Sac County section of the SPTC corridor that is 2.75 miles long and extends from the EDC line to Hwy 50. Putting a trail in this section would connect the EDT to Folsom and the American River Parkway. This may be the most import

section of trail every developed for EDC. The door would be open to EDC for the first time, on the El Dorado Trail! We need this to happen!

Mike

Brian - Item 14 - 0188 on tomorrow's (Jan 28) Board agenda concerns the SPTC JPA staff's proposed \$25,000 capital outlay spending set to be decided at its Feb 3 meeting. Because of a prior commitment, I will not likely be able to attend the Board meeting. My comments below are for your consideration.

The JPA staff proposal is to connect the El Dorado Trail to the existing trail network in Sacramento County and make improvements such as bridge decking and placing fill at track crossings to the existing trail. These projects have been advocated by the trail community and should be supported. However, JPA staff proposes to direct these trail improvements only west of Latrobe. This constraint needs to be removed so the that County staff (Vickie) can work with local volunteer groups to leverage these funds to the fullest extent. There are also some critical needs to be addressed where the County currently operates a rail with trail program east of Shingle Springs.

I believe that Board should direct the County's representative to the SPTC JPA to request that the JPA capital budget be tweaked to allow for the trail connection and the remaining funds be directed to the County's Parks and Trails Department for trail improvements as generally outlined in the JPA staff proposal without regard to location within the SPTC corridor.

Thank you for your consideration and the support for the El Dorado trail you have given over the past year. - carl
