ENVIRONMENTAL REVIEW

Mitigated Negative Declaration

The project proposes a less than significant impact with mitigation measures:

- Air Quality (AQ-1,AQ-2,AQ-3)
- Cultural Resources (CUL-1, CUL-2, and CUL-3)
- Transportation/Traffic (M1 and M2)

APPEAL I: TOPICS

- 1. Phases: Departure from promises made
 - Design review revision is a process that allows for modification
- 2. County Regulations: Does not comply
 - Findings: Project was analyzed against General Plan and Zoning Ordinance
- 3. Studies: were not conducted properly
 - Numerous technical reports and studies. Independent research methods, analysis, and conclusion from experts in their respective fields of study.
- 4. EIR Request:
 - No EIR is required based on Initial Study: Mitigated Negative Declaration. No significant impacts or impacts that cannot mitigated to less than significant levels.

APPEAL 2: TOPICS

- 1. County Regulations: Does not comply and must be denied
 - Findings: Project was analyzed against General Plan and Zoning Ordinance
- 2. Project is not entitled to ministerial exception to CEQA
 - Project was processed through the Planning Commission with an ISMND. Reviewed as a discretionary project.
- 3. Fair Argument and request for EIR
 - Appeal does not bring forward any credible evidence of impacts that was not already analyzed in the Mitigated Negative Declaration or Staff Report, Findings, and Conditions of Approval or that creates a fair argument that the project may have a significant effect on the environment.
 - Appellant attempts to make a claim that an EIR should be prepared based on cumulative impacts; however, this topic was already addressed in item XIX- Mandatory Finding of Significance with the ISMND.
- 4. Planning Departments untimely production of revised findings and noticing requirements.
 - Noticing complies with 130.04.015 of the El Dorado County Zoning Ordinance. Goes beyond the 500-foot to 1,000-foot radius
 - Revised findings were made available a day before PC and provided additional explanation of how the project complies.
 - Although not a requirement, staff responded to public comments, in a memo issued at the PC hearing. Summarized large volumes of public comments submitted. Provide a more detailed analysis and expansion of how the project is consistent with the Community Design Standards for Parking and Loading, Drive-through Facilities (Attachment H).

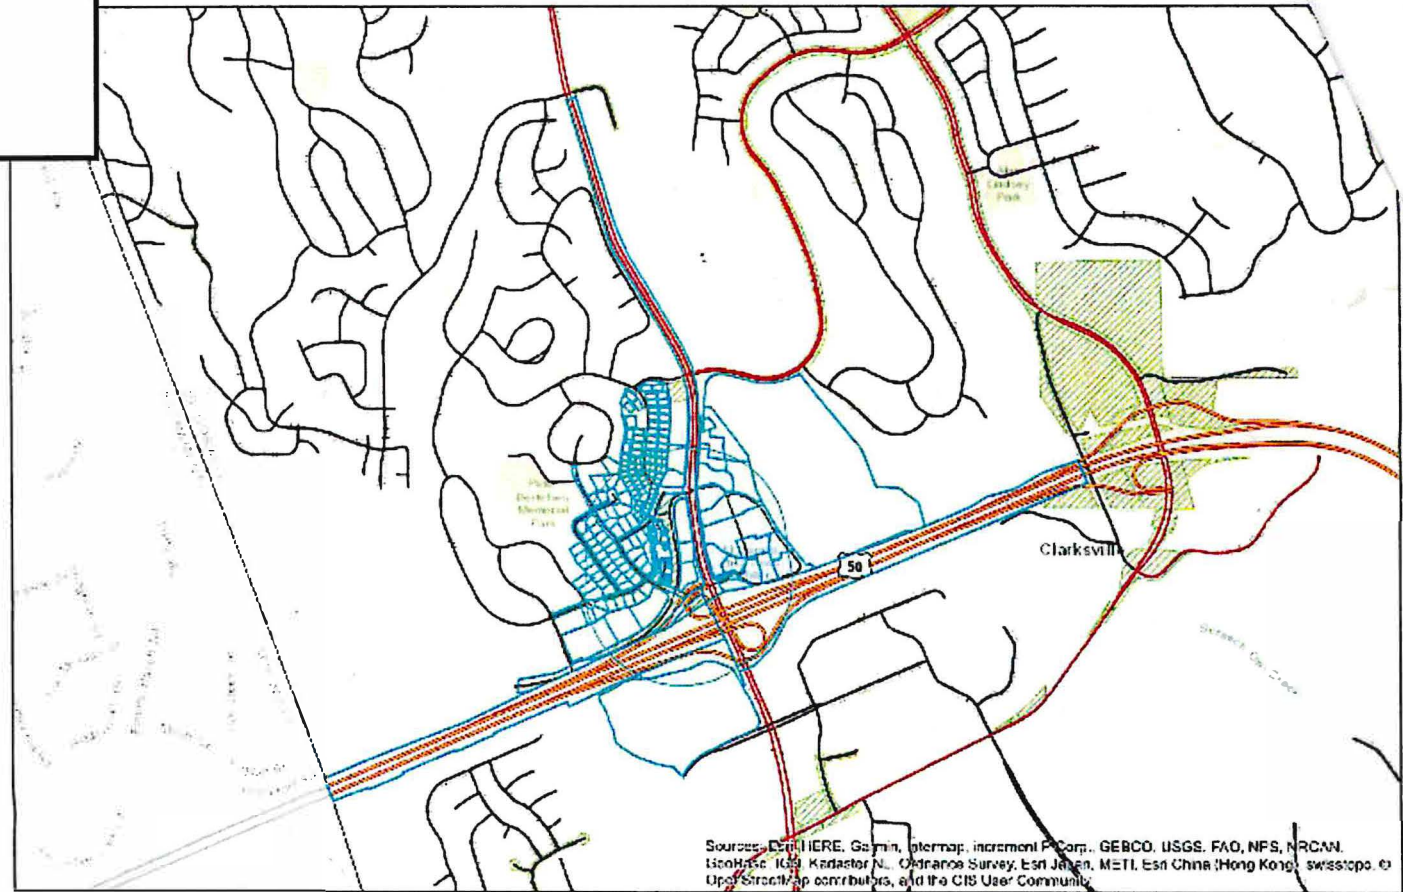

PUBLIC COMMENTS

- 27 public comments were received prior to the Planning Commission
- Approximately 15 public comments were received prior to BOS
- Topics: Drive-thru use, impacts to traffic, noise, air quality, negative impacts to the neighborhood, RV's, Community Design Standards: Drive-thru facilities, real-estate, request for more studies, more mitigation measures, and request for EIR.

RECOMMENDATION

Recommendation: The appeals should be denied and uphold the decision made by the PC on August 23, 2018.
