Dear Board Of Supervisors:

As a Realtor in El Dorado County since 1994, I think extending Prop. 90 will help our County in many ways. Helping tax payers in California move from one County to another within our State will keep the revenue in in our economy. Our economy is still not up to par. We still have lots of unemployed people who are not counted for in the unemployment rates (self-employed, retirees who need to come back into the job market).

People who move into our County will purchase commodities in our County. That helps all of us (Realtors, Small Business to Corporations). Revenues produce jobs and a healthy county.

I have Clients who live in Fremont. They are planning on purchasing a home in our County. If Prop 90 is not extended, they will have no choice but to stay where they are or purchase elsewhere.

We have already seen what happens when building permits are drastically increased, let's not eliminate another resource that will help produce jobs and a healthy economy for all of us.

Sincerely,

Vicki Emery
