

**RESOLUTION NO.**  
**OF THE BOARD OF SUPERVISORS OF THE COUNTY OF EL DORADO**  
**RESOLUTION INCREASING DEVELOPMENT IMPACT FEES**  
**ON BEHALF OF**  
**EL DORADO HILLS COMMUNITY SERVICES DISTRICT**

**WHEREAS**, the Mitigation Fee Act (California Government Code Sections 66000 et seq.) allows a local agency to establish, increase, or impose a development impact fee as a condition of approval of a development project by complying with certain procedural and substantive requirements, including that the local agency must identify the purpose and use of the fee and determine how there is a reasonable relationship between the fee's use and the need of the public facility to be financed and the type of development project the fee is imposed on; and

**WHEREAS**, Chapter 13.20 of the El Dorado County Ordinance Code authorizes the County to establish a development impact fee that is collected on behalf of a special district upon the issuance of all building permits for development within the special district in order to fund the construction or purchase of public facilities and equipment necessary to mitigate the impacts of such development on the district's ability to provide public services; and

**WHEREAS**, the Board of Supervisors has previously established fees within the boundaries of the El Dorado Hills Community Services District ("District"), for the purpose of funding the construction or purchase of parks and recreation facilities and equipment necessary to mitigate the impacts of new development on the District's ability to provide parks and recreation services within the District, and the previously-established fees are documented by Resolution No. 135-2018 adopted July 17, 2018; and

**WHEREAS**, those fees were based on a Fee Nexus Study and Report ("Report") detailing the legal and policy basis for increasing the development impact mitigation fee within the District; and

**WHEREAS**, the District recommended in Resolution No. 2018-04 that the Board include an annual inflationary adjustment in the amount of those fees, and the Board incorporated this adjustment in Resolution No. 135-2018; and

**WHEREAS**, the District has recommended, and the Board has adopted, annual adjustments in the fee in 2022 (Resolution No. 069-2022) and 2023 (Resolution No. 057-2023); and

**WHEREAS**, on February 8, 2024, the District adopted Resolution No. 2024-03, recommending an adjustment to the fees of 2.6%, based on the change in the Consumer Price Index for the calendar year 2023, and requesting the Board of Supervisors adopt the 2.6% increase to the established impact fees as proposed therein; and

**WHEREAS**, on March 13, 2025, the District adopted Resolution No. 2025-06, recommending an adjustment to the fees of 2.4%, based on the change in the Consumer Price Index for the calendar year 2024, and requesting the Board of Supervisors adopt the 2.4% increase to the established impact fees as proposed therein; and

**WHEREAS**, notice of this hearing was published in the *Mountain Democrat* on June 6, 2025, and June 13, 2025, in accordance with Section 66018 of the Mitigation Fee Act; and

**NOW, THEREFORE, BE IT RESOLVED**, pursuant to Government Code Section 66001, the Board of Supervisors has reviewed the proposed fee increase and makes the following findings:

- A. The purpose of these fees is to finance public facilities and equipment to mitigate the impact of new development on parks and recreation services within the District.
- B. As found in Resolution No. 135-2018, the fees collected pursuant to this Resolution shall be used to finance the facilities and equipment as described and identified in the Report, provided that any expenditure will be reimbursed only if the District submits adequate supporting information to show that there is a reasonable relationship between the use of the fee and the type of development project for which the fee was imposed, including the percentage of the development project funded from the fee, and a reasonable relationship between the need for the public facility and the type of development for which the fee was imposed.
- C. Upon consideration of the Report and testimony received at the July 17, 2018 hearing, the Board approved the Report in Resolution No. 135-2018, incorporating such therein by reference, and further found that new development within the boundaries of the District will generate an additional need for parks and recreation equipment and facilities and will contribute to the degradation of current services within the area.
- D. As found in Resolution No. 135-2018, the facts and evidence presented in the fee nexus study established a reasonable relationship between the need for the improvements and the impact of the development for which the fee is charged and a corresponding relationship between the fee's use and the type of development for which the fee is charged, as these reasonable relationships are described in more detail in the Report.
- E. As found in Resolution No. 135-2018, the cost estimates set forth in the Report are reasonable cost estimates for constructing these facilities or acquiring the equipment needed, and the fees expected to be generated by new development will not exceed the total of these costs, and the Board further finds that these costs increase relative to the increased costs of construction and equipment due to inflation.
- F. As stated in Resolution 135-2018, the fee is subject to adjustment by the percentage change in the Consumer Price Index, and that utilization of the inflationary index for one calendar year produces a fee that maintains a reasonable relationship between the need for the public facility and the type of development for which the fee was imposed while accounting for increased costs of construction and equipment due to inflation.
- G. The Board of Supervisors has reviewed the assumptions of the Report supporting the original fee and evaluated the amount of fees collected under the original fee.
