Summary of qualifications	I have been acting as the Director of Public Health for El Dorado County since March of 2025 and the Deputy Director of Public Health prior to that since December of 2024, and I am the primary HHSA Public Health
---------------------------	---

Division administrator and Health Officer liaison. I have over 11 years of management experience in Public Health Departments working closely in tandem with County Health Officers, and over 14 years of experience working directly with children and families to promote improved health outcomes in communities. I have a Masters degree in Public Health with a focus on disadvantaged community populations. My current and previous Public Health roles have required frequent and significant collaboration with community and educational organizations, and I have directly partnered with First 5 organizations on initiatives in the past. For years (as indicated by appointments) I have participated on commissions and committees that have provided strategic direction to funding entities, as well as reviewed grant/funding applications from organizations to promote public benefit and local innovation. I have also participated and led a number of strategic planning initiatives in working with communities and partners to determine the most appropriate direction for community-determined projects/initiatives.

**Why do you seek appointment?**

Per Commission bylaws, a required representative of the County Health Officer was requested to fill the existing vacancy. Given my role within the Public Health Division, my close interaction, collaboration and bidirectional advisement with the Health Officer, and my general interest in advancing wellbeing and social mobility of children, particularly disadvantaged children, and their families, I believe I am a good fit for the existing vacancy on the Commission.
