2. If so, to whom is ad hoc accountable?
3. RMAC ad hoc – remain under Parks & Rec Commission?
4. All claims can be substantiated. If you have knowledge of wrong doing, then why aren't you taking remedial action?

What is the River Management Advisory Committee?

The River Management Advisory Committee (RMAC) provides a forum for the discussion of river use issues, ideas and conflicts. RMAC is a formal advisory body appointed by the County Board of Supervisors (RMAC Resolution). The committee makes recommendations to both the County Planning Commission and the Board of Supervisors on matters related to white water recreation and campground development along the South Fork American River. Most of the committee's efforts during recent years have been related to the River Management Plan Update. The County established RMAC to be representative of a broad base of interests concerning the river. There are seven members and two alternates: a State Department of Parks & Rec Representative and their alternate, a permitted outfitter, a non-commercial boater, one local business representatives, one local residents; and two members-at-large.

RMAC meets January through November on the second Monday of each month, starting at 7:00 p.m., in the Board of Supervisors Meeting Room, 330 Fair Lane, Bldg A, Placerville, CA 95667. The public is invited to attend and participate. (Committee Members)

Supervisor Ranalli, et al:

There are several issues pertaining to the River Management Advisory Committee that have been perpetually swept under the rug of government bureaucracy. In the interest of public transparency and accountability, and pursuant to Sections 54954.3 and 54954.2(a) of the Brown Act, please pull Item #6 from Consent for public discussion and **dialog**.

Also ensure the entirety of this message, with attachments, is timely posted via the government distribution system.

§54954.3 Public's right to testify at meetings. (c) The legislative body of a local agency shall not prohibit public criticism of the policies, procedures, programs, or services of the agency, or of the acts or omissions of the legislative body. Nothing in this subdivision shall confer any privilege or protection for expression beyond that otherwise provided by law. Care must be given to avoid violating the speech rights of speakers by suppressing opinions relevant to the business of the body.

As such, members of the public have broad constitutional rights to comment on any subject relating to the business of the governmental body. Any attempt to restrict the content of such speech must be narrowly tailored to effectuate a compelling state interest. Specifically, the courts found that policies that prohibited members of the public from criticizing school district employees were unconstitutional. (*Leventhal v. Vista Unified School Dist.* (1997) 973 F. Supp. 951; *Baca v. Moreno Valley Unified School Dist.* (1996) 936 F. Supp. 719.) These decisions found that prohibiting critical comments was a form of viewpoint discrimination and that such a prohibition promoted discussion artificially geared toward praising (and maintaining) the status quo, thereby foreclosing meaningful public dialog.

Where a member of the public raises an issue which has not yet come before the legislative body, the item may be briefly discussed but no action may be taken at that meeting. The purpose of the discussion is to permit a member of the public to raise an issue or problem with the legislative

body or to permit the legislative body to provide information to the public, provide direction to its staff, or schedule the matter for a future meeting. (§ 54954.2(a).)
