“ Use Permit S15-004/Verizon Wireless Communications Facility Arrowbee Monopole”

Dear E Dorado County Commissioners,

I am a certified residential appraiser working as an independent contractor and I have been appraising in the greater Sacramento region which includes El Dorado County for approximately 14 years. My state certified license number is AR030009.

Banks, mortgage companies, real estate agents and home owners have hired me over the years to inspect their property and determine a market value. It is this appraiser's opinion that there is a negative impact on value and marketability of a home that is in proximity to a cell tower, power pole, power lines, rail tracks, busy road, industrial zone and hazardous sites. I have appraised approximately 3,000 homes located throughout the greater Sacramento region over my 14 year career. I have appraised a total of four properties (Sacramento, Placer and El Dorado County) that were located near power lines and the final value was impacted by the external obsolescence. I have been advised in writing by lenders – (scope of work) that if a property is located in proximity to a cell tower, power pole, power lines, rail tracts or hazardous site that I stop at that point and contact the lender and advise them of the situation. Some lenders will not lend on a home that suffers from this type of external obsolescence. Some lenders will cancel at this time and some will proceed but advise appraiser to address the negative impact on value and marketability of the property. This appraiser has heard from real estate agents over the years that it takes much longer to sell a home located near cell towers, power lines and that it is common to see a reduction in the listed sales price.

My professional opinion is that any property that is in proximity of a cell tower, power pole, power lines, rail tracts, industrial site or hazardous area will suffer external obsolescence which will impact value and marketability.

Respectfully submitted,

Bret Satchwell, certified residential appraiser

“Special Use Permit S15-0004/Verizon Wireless Communication Facility Arrowbee Monopole”

Dear El Dorado County Commissioners,

I am a licensed Real Estate and have been selling real estate in El Dorado County for 32 years. My RE license number is 00875651.

I am very much against placing a cell tower in this location of rural home sites. It will be a negative impact to property values in the area. I have sold many properties over the years which are affected by loss of value due to cell towers and large power lines. I would estimate the property values would drop between 10-20%.

I strongly encourage you to reject this special use permit.

Sincerely,

Gay Berge

RE/MAX Gold Real Estate

Use Permit S15-004/Verizon Wireless Communication
Facility Arrowbee Monopole

Dear El Dorado County Commissioners:

This is to let you know that my wife Linda and I are very much concerned about the presence of a cell tower in our neighborhood. We chose this area for our retirement years, because of its beautiful lake and peaceful surroundings. Our concern now is that the cell tower will ruin this attractive landscape, not to mention reduced property values. I might also add that I have never had any problem with the existing cell reception and I question the need for additional service.

I strongly request that you reject and deny the "Special Use Permit S15-0004/Verizon Wireless Communication Facility Arrowbee Monopole."

Respectfully submitted,

Melvyn Garbett

Use Permit S15-0004/Verizon Wireless Communication Facility Arrowbee Monopole”

Dear El Dorado County Commissioners,

I am a licensed Real Estate agent working as in independent contractor with Professional Real Estate Services and have been selling Real Estate in El Dorado County for 15+ years. My RE agent license number is Bre # 01312547.

It really upset me as a Real Estate Broker when I first heard about this cell tower being installed in such a beautiful community. Are you aware of the negative impact such an eyesore would have on the homes located there ? Homes that are located close to things such as cell towers, power lines, busy roads, etc, are not nearly as desirable when it's time to sell their property. I mean the reason people move to rural area's is to enjoy the views and serenity not to look at a cell tower looming over the local lake.

In my opinion the cell tower will have a devastating impact on the properties located here.

As a Real Estate professional that sells properties in this area, I strongly recommend that you reject the “Special Use Permit S15-0004/Verizon Wireless Communication Facility Arrowbee Monopole”

Respectfully submitted,

**Curt Tucker - Broker

RE: S15-0004 Arrowbee Lake Verizon Cell Tower

Dear Commissioners,

We are Chuck and Linda Stevens and we've lived on and improved our property on Trails End Court for eighteen years. We are now retired and at last able to fully enjoy our property and the surrounding neighborhood. We have reviewed the plans and visual simulations for the proposed 90 foot cell tower and are writing to convey our strong opposition to building this tower in our neighborhood. We can see the lake and a glimpse of the Sierras from the front part of our property; now we will also be forced to look at a 90 foot cell tower on top of an ugly base structure.

The presence of a 90 foot fake pine tree sticking up in the midst of our oak woodlands will drastically change the rural beauty that is a key reason why we live here.

Arrowbee Lake makes this rural community a neighborhood with unique scenic views not present in other rural neighborhoods. The lake and park are the visual and recreational center of the Arrowbee community. A cell tower looming over them will be an eyesore that will diminish their value to the neighborhood. Realtors routinely tout the lake as a key attraction of the area. We use the lake and park for kayaking, fishing and swimming and we take our dog and grandchildren there frequently.

We believe this tower will lower our property values and make it difficult to attract a buyer if we ever decide to sell our home. We never would have purchased our property if the tower had been in place when we bought, or if we believed the County would approve something that would insert an industrial blight into the area and so diminish our property value and enjoyment of our property. It takes a certain type of person to want to live on and maintain rural acreage. We have to give up a lot of conveniences available in suburban areas in trade for the quiet, serenity and views present in rural areas. The very sort of people who want to purchase and live on rural property will be among those most repelled by this industrial installation, and the pool of prospective buyers will shrink even further.

This tower, contrary to the information in the Development Application, is not well screened from view, nor does a stealth monopine “blend in” with the existing Grey Pines as alleged in the Planning Commission Staff Report:

“It is typical in a predominate oak woodland area to find single pine trees that project out and there are multiple Grey Pines in the area that do so. The project has been conditioned to design branches to be installed with random lengths that create an asymmetrical appearance conforming to the shape of a natural Grey Pine tree. Zoning Ordinance Sections 130.14.210 F and G require screening in order to reduce the aesthetic impacts to a less than significant level.”

Because Linda is an El Dorado County Master Gardener, we are acutely aware that the profile of a Grey Pine is nothing like a monopine:

Grey Pine

Monopine

This tower is going to stick out like the sore thumb it is. There is no way they can engineer a tower to look like a Grey Pine; a few asymmetrical branches will fool no one. The fact that your staff finds that a monopine “blends in” with a Grey Pine is astounding and insults the supposed review process. It makes us question whether the Planning Staff is trying to apply Zoning Ordinances to protect the property owners of this county or just “rubber stamp” projects for the benefit of business enterprises. The pictures above lead us to believe it is a rubber stamp process filled with boiler plate conclusions. If Zoning Ordinance Sections 130.14.210 F and G require screening in order to reduce the aesthetic impacts to a less than significant level, where is the screening? There is none. If the ordinance requires blending in, it doesn’t. The visual simulations show just that.

This project was presumably started in early 2014, leases recorded in June 2014 and plans first submitted in early 2015. We only found out about the project in November of 2015. At no time did Verizon, Epic Wireless or the landowners disclose this project to the affected neighbors during the planning stages. As such, we had zero input on the significant impact on our views and property values. It was only today, February 19, 2016, that Mark Lobaugh of Epic Wireless placed a call to us to see if we had any questions for him. We suspect he did so only because his request for a delay in the hearing was based in part on scheduling a “neighborhood outreach

meeting". There have been no signs advertising a meeting around the neighborhood, and finally contacting us three business days before the hearing doesn't afford much time for outreach.

The only real mitigation is an alternative site. Why hasn't Verizon found any? There are miles of open property and hills in this area. Why does their application list the same property twice? Why does their application list properties as alternatives that don't even qualify from a technical wireless standpoint? That is ludicrous. You might as well list a floating platform in Folsom Lake as an alternative and then disqualify it because it won't float. We think we know why Verizon/Epic Wireless doesn't have (or want) other alternatives. Because it is less costly for them to site this tower conveniently close to a private road and existing power. But while they and the landowners gain value from this site choice, we the property owners in the neighborhood lose value. Verizon will tell you their sites must be economically viable, but what is their definition of that and what proof can they offer? Verizon's pursuit of additional revenues or a quicker return on their investment should not be obtained at our expense.

We respectfully ask the Planning Commissioners to deny the Special Use Permit:

- We believe significant injury will result from allowing industrial blight into our area; injurious to our property values, injurious to our views and injurious to our lake.
- We believe the County is not responsible to insure Verizon's economic success by approving fiscally advantageous siting to them at the expense of homeowners' economic interests.
- We believe the project does not comply with the Zoning Ordinances.
- We believe we have the right to peaceful enjoyment of our property and retention of our property values.

We hope you will agree.

Sincerely,

Handwritten signatures of Chuck Stevens and Linda Stevens in cursive script.

Chuck and Linda Stevens

S1S-0004/Arrowbee Cell Tower Public Input

davefr davefr <davefr@gmail.com>

Sun, Feb 21, 2016 at 2:09 PM

To: planning@edcgov.us, aaron.mount@edcgov.us, charlene.tim@edcgov.us

Eldorado County Planning Commission,

We are frequent visitors to the beautiful Arrowbee Lake neighborhood in remote Eldorado County and would like to provide input on the much needed cell tower project.

I've read some of the previously submitted public comments and they are based on emotion rather than proven and documented facts.

We have witnessed the Arrowbee Lake area when there have been storm outages that have lasted for multiple days.

We've also witnessed this area in tinder dry extreme hot/windy conditions where one wildfire could go out of control in a matter of minutes.

We've also witnessed near accidents at the actual Arrowbee Lake.

We propose the planning commission approve this project to ensure the highest reliability of communication infrastructure in this rather remote portion of the county to maximize public safety.

Having proven and reliable cell phone service can help save life and property when other forms of communications fail and this should outweigh any and all other emotional concerns.

Thank you for letting us provide input,
Dave and Rose Friedlund

RE: "Special Use Permit S15-0004/Verizon Wireless Communication Facility Arrowbee Monopole"

Dear Commissioners,

My family and I have lived in the Arrowbee Ranch Estates community for over 25 years. We moved from the Sacramento Area specifically to remove ourselves from an urban neighborhood and to live in the peaceful, beautiful countryside.

We are living in our 2nd home in Arrowbee Ranch Estates and specifically build with the lake view in mind. Never did it cross our minds that a cell tower might be erected close by and within our view. If we had any idea that El Dorado County would consider such an atrocity, we would have never purchased our property in its current location. This cell tower will ruin our view that we have paid so dearly for and it will ruin the natural country aesthetics of the neighborhood.

We are SHOCKED that this cell tower may be installed in a location that will affect so many property owners in our neighborhood. This cell tower will be completely incongruous with the beautiful Oak Tree, LAKE and country foothill atmosphere. Due to the topography of the area, this cell tower will loom more than 200 feet over the lake level and affect the view shed of more than 40 property owners located at lake level and on adjacent hillsides that face the tower location.

The external obsolescence and visual blight will have a devastating effect on property values and will be SERIOUSLY injurious to this neighborhood. I estimate my property value loss will be somewhere in the neighborhood of \$50K to \$100K.

In addition, there is no significant coverage gap. We have submitted a detailed log to you supporting this fact. We certainly are not against cell coverage, however, cell towers should be erected as far from private homes as possible. There are plenty of undeveloped hillsides that would easily take care of any need for additional service. Verizon, Epic Wireless or any other cell broker should not be allowed to erect towers for the purpose of profit to the detriment of private property owners and neighborhood property values. It's not our job to supply the road, electricity, etc. to make their tower installs more profitable.

Because of this tower will affect the views of over 40+ property owners and have such a negative effect on property values, I strongly request that you reject and deny the "Special Use Permit S15-0004/Verizon Wireless Communication Facility Arrowbee Monopole".

Respectfully submitted,

Richard Merideth

El Dorado County Planning Commission

RE: S15-00004 Arrowbee Lake Verizon Cell Tower

Dear Commissioners,

We are residents of Arrowbee Estates and we live immediately next door to the proposed location of the Verizon cell tower. Our parcel # is 105-140-05-100. Though our parcels are 5 acres each, ours and the applicants, Eric and Liz Johanson, are pie shaped to allow each of us to own a sliver on the hilltop. We are the only two home owners on this hilltop and our homes are only a few hundred feet apart. We built our home in 1986 prior to the Johansen's. We chose to leave behind the industrial atmosphere and commercial conveniences of Sacramento in order to relocate our home and business to Lotus, California, where we fell in love with Arrowbee Estates. We fell in love with the neighborhood for the lovely private lake setting and for the peace and quiet, security and privacy. We even named the street that we live on, Bird's Eye View Lane. We then set out to build our dream home and arranged the placement of windows and balconies and our expansive decks to frame in the beautiful views that surrounded our parcel. Our back deck and windows along one entire side of our home look across to the glistening reflection of Lake Arrowbee. This is the area proposed for a 90 foot (and perhaps someday higher) cell tower. From what we can determine, the tower will mar our view onto the lake, particularly from our back deck. We are devastated at the prospect of waking up every day to see, right next to us, a massive, looming structure from our deck and windows. We purchased property in a neighborhood zoned residential 5 acres and we dreamed and worked and finally built a home where we plan to live out our lives and enjoy the beauty, and lifestyle that enticed us to sacrifice the conveniences of urban life and relocate and invest in Arrowbee Estates.

Our drive to work winds around the lake and all the surrounding hills and valleys around the lake are visible at a glance. We are delighted to sometimes see an eagle, migrating geese or other rare birds and wildlife frequenting the lake. We are also delighted to see other neighbors walking with children and/or pets, jogging and fishing and in many other manners enjoying the park and lake. It is all part of the experience of this neighborhood and I doubt that you can find any other neighborhood in El Dorado County with this incredible setting of miniature mountains and valleys surrounding such a symmetrically formed little lake, frequented by happy homeowners.

Now the possibility of a cell tower threatens our quiet enjoyment and residential property rights and values due to the horrific, industrial image (and making it look like some disproportioned, lopsided monster pine tree does not mitigate this image) that will be placed in a location which will be unsightly and forcefully visible to all who enjoy the lake view. We will not only be impacted by this image, but also by the interruption caused by the noise and traffic and whatever other commotion that occurs around an industrial project such as this. The impact will most certainly affect our property values. Who will buy property next to such a site unless they are enticed by low prices for this area?

The question of how the cell tower can impact health cannot even be considered in this circumstance. But people who are considering buying near a cell tower can choose to buy elsewhere, which is indeed what they would do if they are concerned about its effect on their health. This can have an impact on the selling price of our property. So not only do we lose the enjoyment of our property, but also the potential value of our property.

How any authority can deem it acceptable and approve a special use permit for big money (Verizon, a billion dollar plus corporation) in cahoots with one member of the community, our next door neighbor, who will receive financial gain, to adversely affect so many of those in the surrounding area who are heartbroken and appalled at the prospect of an undeniably industrial looking 90 foot high tree with its boxes attached, generators, fences and whatever else is associated with it, is absolutely astonishing.

Our opposition is not against the possible value of a cell tower; our opposition is to this location due to the adverse impact on so many of us, considering that there is no urgent need for the tower, and considering that there is cell reception in the area. Isn't it possible for Verizon, with all of its resources at hand, to make a concerted, diligent effort to find an alternative tower site that will not have this devastating effect on the neighborhood? There is so much land available to consider.

We are depending on the laws and zoning of El Dorado County to defend and protect our rights as property owners to quietly enjoy our property which we bought, invested our time and treasure and built our homes on based on the current zoning. We never would have purchased and built here if this tower was part of the plan. The planning commission is our only hope for help to protect our rights and preserve our neighborhood. We understand that you are under enormous pressure from Verizon to approve this project. We implore you to put yourselves in our position and to stand up for us and to not give approval for this special use permit.

Respectfully,

Michael A. Wilcox Carmen Y Wilcox

Re: Special Use Permit S15-0004/Verizon Wireless Communication Facility Arrowbee
Monopine

Dear Commissioners,

We live at 1079 Trails End Drive. Our home has a big picture window that looks right out at the proposed tower site. If the cell tower goes in there, it will be the prevailing view through that window and also from our backyard patio.

We moved here to enjoy the acreage, the countryside and the lake. Jill kayaks in the lake all the time during the warm weather. The tower is going to spoil the view from the FCLOA Park and the view from the entire lake is going to be affected.

We did not move here to have to look at an industrial-type structure, it literally ruins the view from our home and will spoil our enjoyment of the lake.

We ask you to deny this Special Use Permit and tell Verizon to move this site to someplace where it won't affect so many neighbors.

Sincerely,

Clay and Jill Butler

P.S. we are enclosing pictures of our backyard.

RE: S15-0004 Arrowbee Lake Verizon Tower

Dear Commissioners,

My husband and I are dismayed and very concerned by the possibility of a 90 foot cell tower being placed by Verizon on a hill overlooking our neighborhood lake and park. We choose to live here because of the natural beauty and abundant wildlife, both of which will be affected if this tower is allowed to be built.

There is no doubt that the tower would be a stark and constant eyesore. As if that is not enough, I fear that our property values will decline. People who value rural property will not consider this a thing of beauty. While our values decline, the people who lease/rent their land to Verizon will be handsomely compensated each month.

I must also mention our concern about health impacts. While I will not go into detail about the articles I have researched, there is much evidence to indicate danger to those living near cell towers. There are many things that have been deemed safe only later to find evidence of harm.

If you are not familiar with our lovely, peaceful Lake Arrowbee, I invite you to drive out and see for yourselves how this tower will negatively impact our community. If you call ahead you can sit on our porch and enjoy the view.

Sincerely,

Thomas and Catherine Leffler

Re: Special Use Permit S15-0004/Verizon Lake Arrowbee Monopine

Dear Commissioners,

We just purchased our home and moved in September 2015. We have 10 acres on Trails End Drive. We bought this property to be able to have our horses on rural property and enjoy a rural lifestyle. We learned about the cell tower just recently and we are very opposed to it. We would not have considered this property if we had known the tower was going in. Someone should have disclosed that information to us since this project was already submitted to the County. We do not know if the sellers knew, but they should have been told by the County.

The view out the back of our house and property looks right up at the cell tower site. Dan is a photographer and has taken a photo and inserted a monopine to see what it looks like. It will ruin our view. We are enclosing this photo.

We also know that this will be visible from Lake Arrowbee and all around the neighborhood where we walk. We are worried that this will decrease our property value.

We respectfully ask you to deny this Special Use Permit.

Sincerely,

Brenda Burton & Dan
1041 Trails End Drive

I have attached a picture that was taken from my backyard and a picture of a monopine cell tower overlaid on it in order to give you an idea of what I would have to look at everyday.

PROOF OF NO SIGNIFICANT GAP IN COVERAGE

Special Use Permit S15-0004/Verizon Wireless Communication Facility Arrowbee Monopine

Dear Commissioners,

1. Attached you will find documentation providing **EVIDENCE SHOWING SIGNIFICANT PROOF** that there is **NO SIGNIFICANT GAP IN COVERAGE** in the proposed Arrowbee Monopine cell tower area. This documentation is in the form of detailed logs showing calls made and received, Texts sent and received, Emails sent and received. **WE RESPECTFULLY AND FIRMLY REQUEST THAT YOU REVIEW IT IN DETAIL.**
2. Every Street within the proposed coverage area was driven; Cell calls, emails & text were sent from multiple locations on each of those streets.
3. **347 locations were tested.** Some locations had multiple addresses as houses and driveways were in close proximity and therefore only one call, email, test, voice to test was placed for those multiple addresses.
4. Only 6 homes on Crooked Mile Ct had dropped calls. However, Text and emails were sent and received at those same locations. Also, Luneman Road, at the very end where it dead ends on Weber Creek, had NO service. There were about 5 shacks that looked about 100 years old in this location.
5. **All other sites had excellent cell call and receive, emails sent and received, texts sent and received** and voice to text was used when available which was most of the time.
6. **The level of service was 4G approx. 90% of the time...**Occasional 3G service in some of the lowest elevations; **HOWEVER, CALLS, TEXTS, EMAILS AND VOICE TO TEXT WORKED GREAT EVEN IN THE 3G SERVICE LEVEL AREAS.**
7. **THERE IS NO SIGNIFICANT GAP IN COVERAGE.**
8. Verizon coverage maps from Verizon.com add additional verification that they tell prospective clients of the certainty of 4G in our area.
9. Maps submitted with application dated February 2015 are **CLEARLY INACCURATE WHEN PHYSICALLY TESTED WITH VERIZON SERVICE CELL PHONES** and not representative of the claim on their website showing complete coverage in our area.
10. **SINCE THERE IS NO SIGNIFICANT GAP IN SERVICE THERE IS NO NEED FOR THIS TOWER. DENY THE APPLICATION** AS EPIC WIRELESS/VERIZON HAVE CLEARLY NOT PROOVED A SIGNIFICANT GAP IN COVERAGE.

Red = Data was downloaded into a PDF from Verizon messages history. Created readable PDF, then copied data into Excel spreadsheet. Had to do this twice, once for email messages and once for text messages. I then compiled the two to create the below in chronological order (correlating to the blue column, unbilled messages)

Date, Time	Message Details	Message Type	Notes on address typos where text or email message was typed incorrectly or omitted
02/15, 11:30 AM	Me: Test	Email	Shoreline/Trails End
02/15, 11:31 AM	Me: Test	text	Shoreline/Trails End
02/15, 11:43 AM	Me: Email	Email	1110
02/15, 11:43 AM	Me: Test	text	1110
02/15, 11:45 AM	Me: Test	text	1100
