BACKGROUND:

The El Dorado County General Plan is the comprehensive, long-term plan for the physical development of the county. State planning law requires the County to develop, adopt and maintain a legally adequate general plan, and provides for periodic monitoring, update and amendment of the general plan. The El Dorado County General Plan implements State planning law by providing for periodic monitoring of development activity and adjustment of the development potential of properties or modification of Community Region and Rural Center boundaries as the County deems necessary.

On April 4, 2011, the County completed the first five-year review following adoption of the General Plan. The County assessed prior activity and determined that the basic General Plan Assumptions, Strategies, Concepts and Objectives were still generally valid, and that land-use amendments would not be needed at this time. The County identified a number of General Plan policy revisions that would reinforce certain priorities including creation of jobs, provision of housing affordable to moderate-income households, retention of sales tax revenue, promotion and protection of agriculture and compliance with revisions in state law. The County initiated a Targeted General Plan Amendment to address the identified policy revisions.

State planning law permits General Plan Amendments to be initiated by the County or by a private party. A property owner may request a General Plan Amendment by submitting an application. Although a property owner has the right to submit amendment requests to the County, not all such requests further the County's goals and priorities. Considering the significant investment that is required to initiate and process a development application, the Board has determined a procedure is needed to ensure that applicants are fully informed of the potential issues and risks associated with privately initiated General Plan Amendments, applications for new Specific Plans and Specific Plan Amendments, This policy is issued to
