Subj: El Dorado County GHG Inventory

Hello Jim,

I spoke with you earlier today about the status of El Dorado County's climate action planning. I received an email back from my former program manager and she stated that she received resistance from the County in participating in our Phase 1 program (municipal-only GHG inventory). So it was not an elective exclusion on SBC's part. We would love to have them on board for Phase 2 of the program (community-wide GHG inventory), and could likely complete both the municipal and community-wide inventories at the same time during this phase. However, without the proper support from the local government staff, it is not possible for us to access the data needed to complete the inventory. So if you have a staff contact that would be willing to speak with me about the program, then you may just be our saving grace!

Here is the link to SBC's description of the program: [SBC Green Communities](#)
Here is the link to PG&E's description of the program: [PGE Green Communities](#)

Thanks!
